## Back to *Nature*

Timmie Jean Lindsey was the first. The year was 1962. Doctors surgically enhanced the Texas housewife's breasts using silicone implants, not knowing that they were about to spark a wildly popular new aesthetic movement and that tens of thousands of these surgeries would follow. By the 1980s, there was enough silicone bouncing around to fill an ocean. Today, however, connoisseurs of the female form have a new appreciation for the unenhanced breast. While we love the work of a good plastic surgeon as much as the next guy, we too lust for women untouched by the scalpel. Herewith, we've collected pictorials of fantastically beautiful women from our foreign editions, with not a drop of silicone among them. It starts with the Polish stunner Klaudia El Dursi—pictured here, looking lovely and all natural. Ready for more? Flip the page.

**PLAYBOY**

**PLAYBOY**

An underwater photograph of a person, likely a woman, reaching their arms upwards towards a bright light source, possibly the sun, creating a dramatic silhouette effect. The water is clear and blue, with many small bubbles visible around the person's arms and hands. The overall mood is serene and aspirational.
