MANIC

A WORD OR

You have been very patient and now it is finally here – Manic Magazine 001 Hot Issue. We would like to call it “every man’s heaven for eyes”.

The job was not easy however. **We had to search the entire world in order to find the sexiest, most provocative and alluring women there are.** Believe us when we say, it was DIFFICULT. Various women, tall and petite, brunettes and blondes, charismatic and charming, erotic and girls next door. That part was easy since we have encountered many beauties. **The job of selecting only 50 was the toughest.** Still, we managed. The term “beauty” changed a lot thorough years. Since the beginning of time, human species has been obsessed with female beauty and body. Every culture had its own beauty standards that varied from place to place. However, one thing is for sure: **symmetry and proportion were always considered very desirable on a woman.** With that in mind, the term “classical ideal” was established during Renaissance. It described standards of beauty that prevailed even today: integrity, elegance, intelligence, external beauty; these are the attributes usually used to describe how much a certain woman is beautiful or attractive. As cultures change over time, so do the

standards of aesthetic. Different kinds of media impose certain qualities regarding female body and face. What was once considered desirable now can become even abominable. This is the main reason plastic surgery remains one of the best paid branches of medicine. It is no wonder if you encounter a woman that has been surgically enhanced to appear like someone from the magazines or TV. Relatively young, with smooth skin and well-proportioned bodies and regular facial features define the most beautiful women according to many. Although, we disagree.

Younger, not so young, tall, short, dark haired, blondes, green eyed, black eyed, skinny, chubby, gym type, not so gym type, funny, serious, bitchy, nagging or sympathetic, we love them just about all the women there are. **First of all, they are the reason we live.** You know the saying: Women are angels, but be careful! If you break their wings, they continue to fly – on a broomstick! So, here are Manic hot girls of 001 Sexy Hot Issue. **Enjoy! And make sure your eyes don’t pop out.**

Irina Shayk

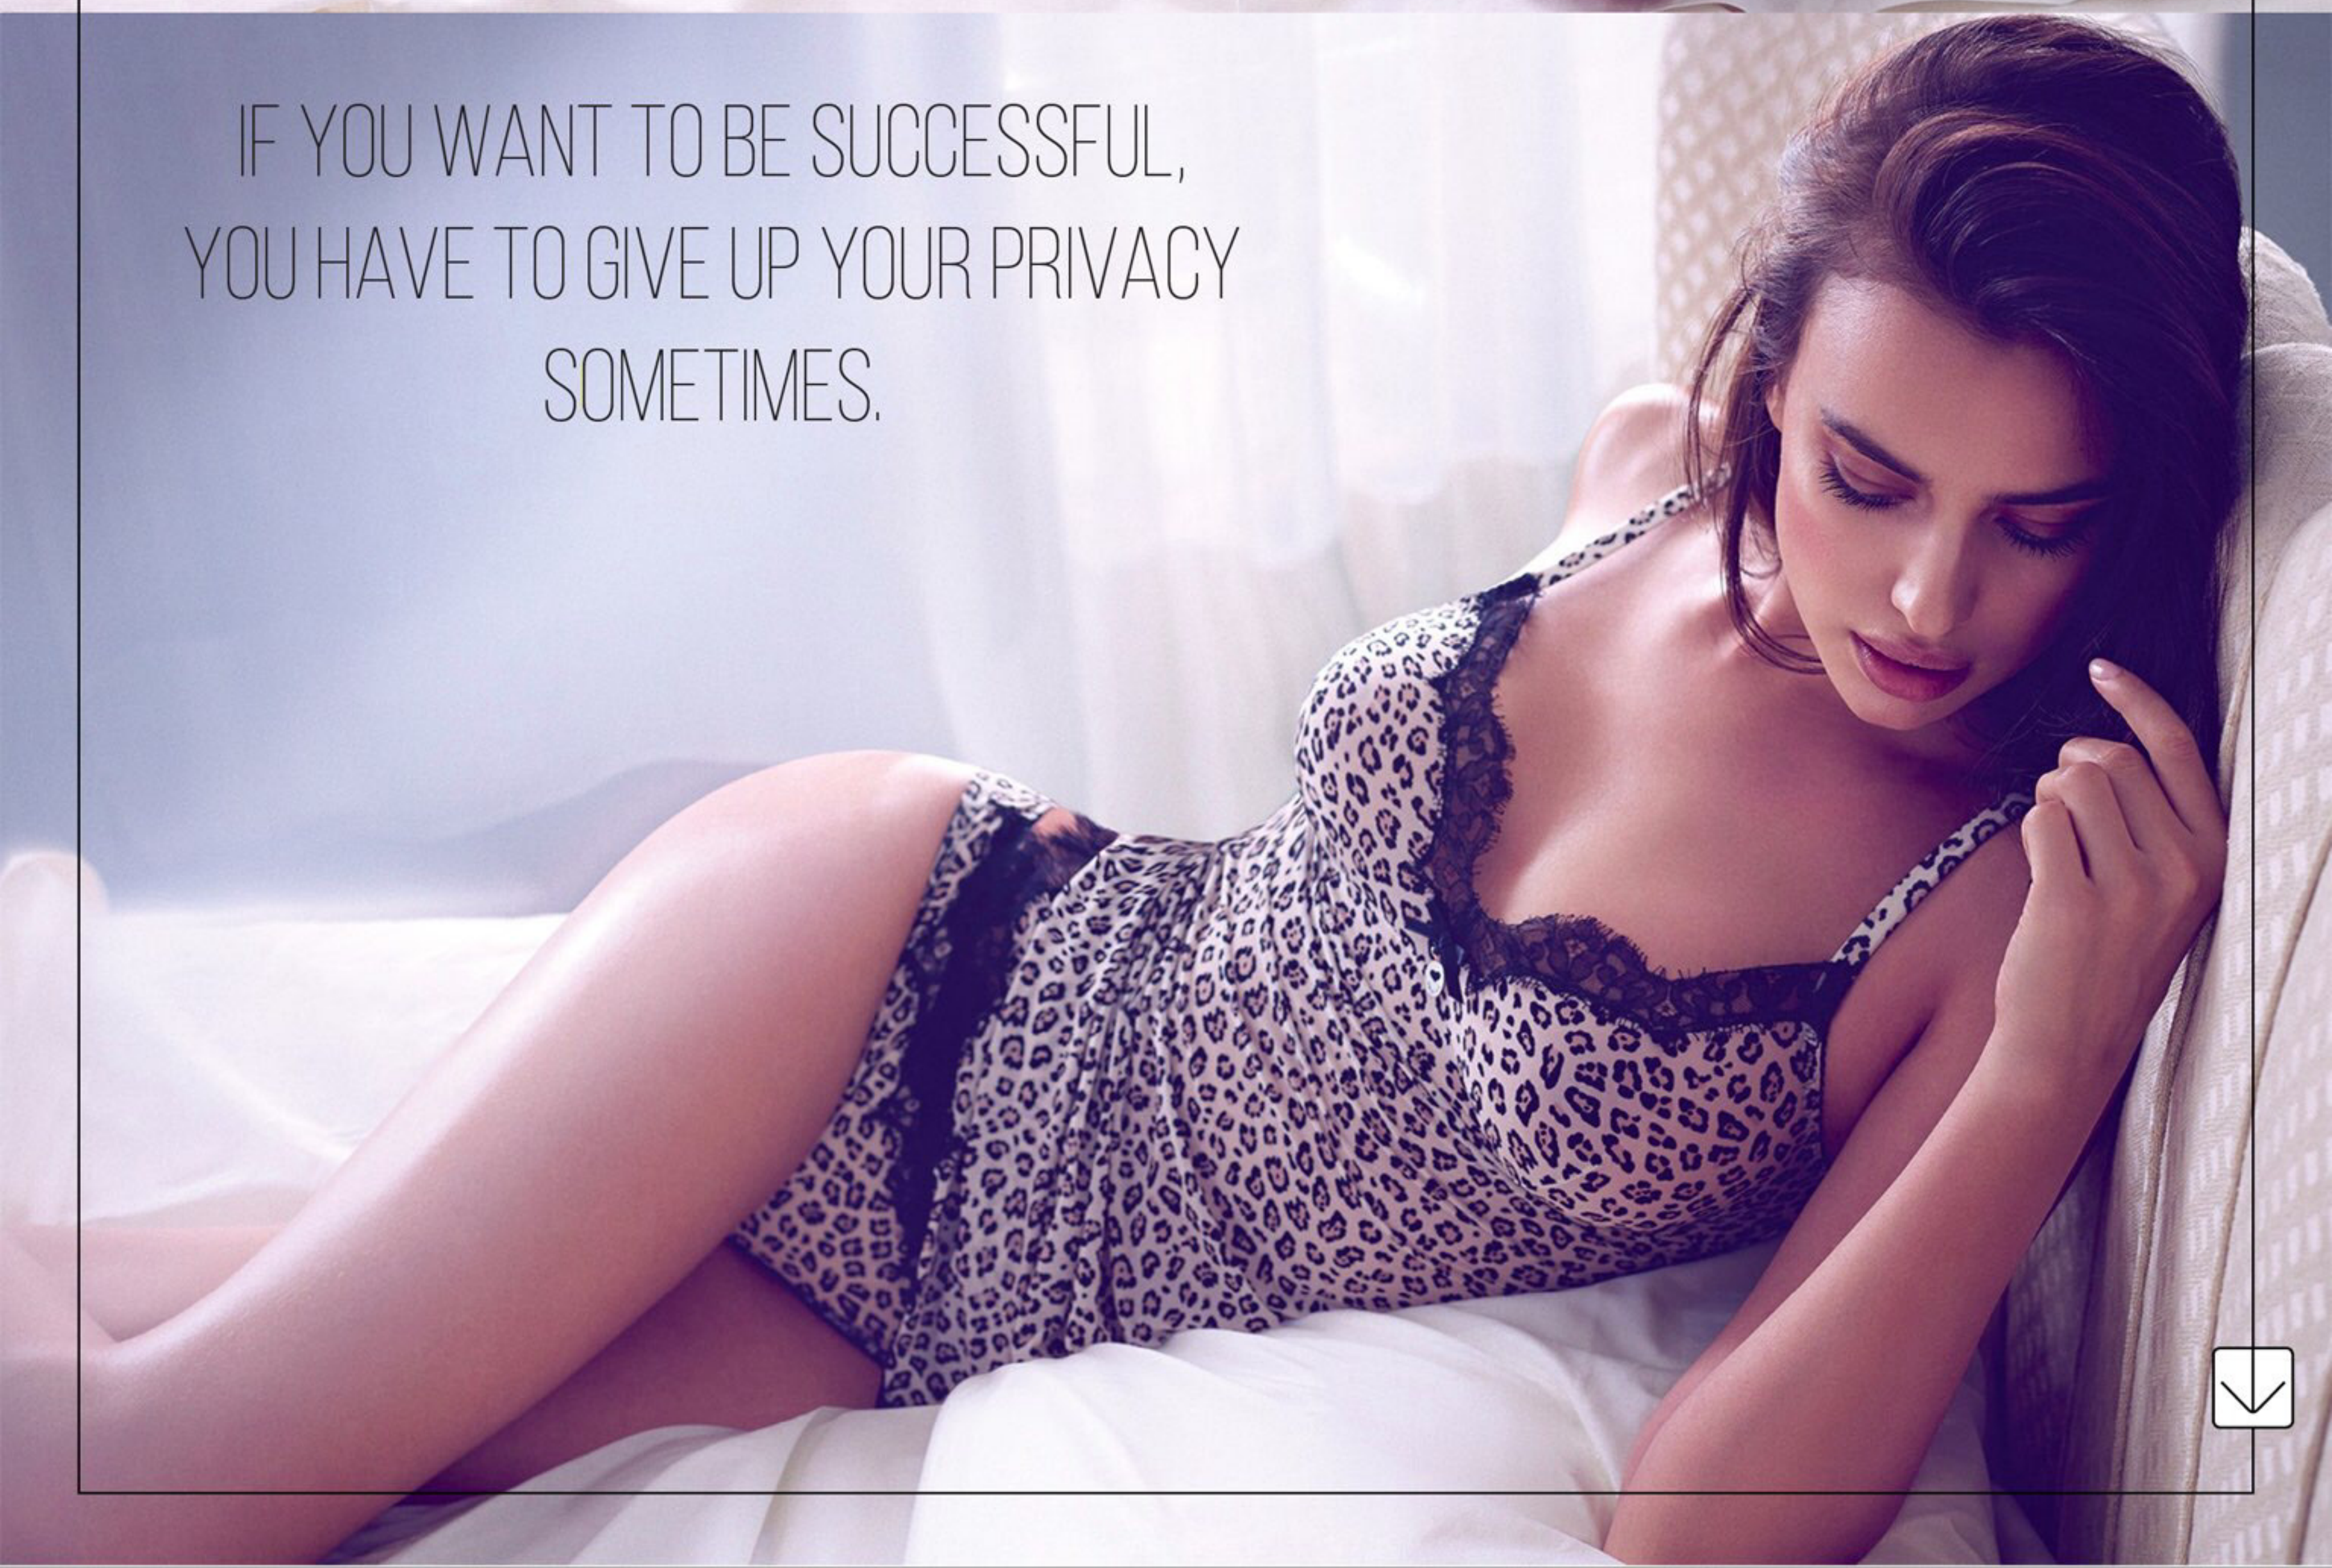

This 28-year-old nuclear bomb of a woman comes from cold Russia. But there is nothing cold about her: the perfectly shaped body, teasing green eyes and olive skin make Irina look like one of the most exotic fruits from the Garden of Eden. Besides being insanely hot, Irina is also famous for her charity work, acting debuts and down-to-earth, girl-next-door charisma. Though we are not sure you would stay alive if you were her first neighbor.

Gracie Carvalho

A kind and tender girl from Sao Paulo, she managed to work her way to one of the most important names on the fashions scene. Since 2007, she's been doing fashions shows, and it took her only two years to be noticed by people from Victoria's Secret. Though an exposed public figure, she is quite shy, moderate and unpretentious. Nevertheless, she is so beautiful that all the eyes simply stick to her. They say that beauty lies in symmetry. We think that symmetry is beautiful thanks to Gracie!

Luisana Lopilato

This 26-year-old Argentinean leaves us breathless. With her strong and clear-cut facial features and prominent curves, this girl has conquered the world with no effort. Prior to modeling, she was into music. While we look at these magnificent photographs of her, a soundtrack "Don't cry for me Argentina" goes in the background. There remains a hope that one day she could sing a "Happy Birthday" song to us, just like Marilyn did. Or possibly even sexier!

Lana Carter

We truly believe that, until recently, she has been wrapped in a seashell in the Pacific, and that then she decided to share her beauty with the world. The chastity of a girl from the neighborhood, the luxury of the Renaissance beauties and the lavishness of a mature girls, she has it all. Her angelic blonde hair and white complexion are the trigger for our imagination.

Adriana Lima

Is there a single thing you do not know about her? Adriana is a Brazilian bombshell, who became famous when she was only 15. Now she is at the top list of Victoria's Secret models and one of the richest models ever. She is a smart, eloquent woman and, believe it or not, she was a virgin until she got married. A mother of two now frequently visits wet dreams of many boys and grown men. And a few girls. And ours of course.

Emanuela de Paula

This heaven on earth comes from Brazil. Emanuela is 25 years old and she was one of the most paid models in 2009. Who could not love her? Even notorious Anna Wintour is mad about her. Her mixed genes (she is half Caucasian, half African), insane good looks, protruding look in the eyes, pleasant voice and all the rest make us all want to go to Copacabana or some carnival madness in order to find this perfect “mulata”.

Moyna, a 26-year-old babe from Newcastle, England, likes the mountains, skiing, snow, and winter caps. Her favorite beverage is a cocktail called Hot Toddy. She discovered it one time when she was ill, and now is basically addicted to the drink. Moyna is a ski instructor and can hardly wait for the winter to arrive. So watch it: a very hot snowball has been thrown at you.

She likes jewelry and enjoys wearing it. In bed, she likes role playing and wearing masks. Ambrosine says that it makes her feel free and uninhibited. Cintia Jackman

Cynthia is from New Jersey. She is 30 years old and works as a social worker. And, she is a part time underwear model. She likes to eat and hates when girls (and boys) talk about their calorie intake. She says there is nothing wrong with curves.

Her ideal date would be ordering a takeout and watching a thriller or an action movie. A cozy night at home with her would be our ideal date as well.

Catalina Otalvaro

This chiquita is a 25 years old Colombian. She is one of the most popular Colombian models. Besides her mesmerizing grey green eyes and mocha skin, Catalina is studying law and English. So, the stereotype about models being dumb does not apply here. The sweetness and beauty in her only complement the sexiness and eroticism she radiates with. Her two major passions in life are modeling and playing the guitar. Guys, start bailando next time you hear a guitar playing.

Carolina Ardohain

Carolina is 36 years old. She is from Argentina. A model, TV personality and an actress, Carolina owes her tight, sculpted body and exotic temperament to her boiling Latino blood. Her nickname “Pampita” is diminutive from La Pampa, a place where she grew up. She is also very religious, but every girl should beware of the devil. And devils, head on to la Pampa to enjoy this little Pampita.

Larissa Castro

Larissa comes from Rio de Janeiro. She is 30 years old. She likes body art and piercings – she has one in her bellybutton. She is a vegetarian and likes to prepare meals for herself. Believe it or not, she likes to walk around naked in her apartment, as it makes her feel comfortable and primal. And we all wish we could be a fly on her wall. Especially in her bedroom.

Lily Aldridge

Lily is a 29 years old hottie from Santa Monica, California. No wonder she is this hot: she comes from fashion-oriented family. Her mother is a former Playboy Playmate of the month: a model, a fashion photographer, and a model again. Hotness combined with perfect beauty. She appeared in many magazines, has her own clothing line and eventually Victoria's Angels gave her their wings. Though, when we look at her, a trident and devilish horns would seem more appropriate.

She is the happiest when it's the leg day in the gym, because she likes to work that booty of hers. She is a proud owner of 2011 Miss Bikini award and several others. Stanislava says that her best assets are her eyes and buttocks. So why shouldn't we gaze into those eyes? Or at that other asset of hers?

Candice Swanepoel

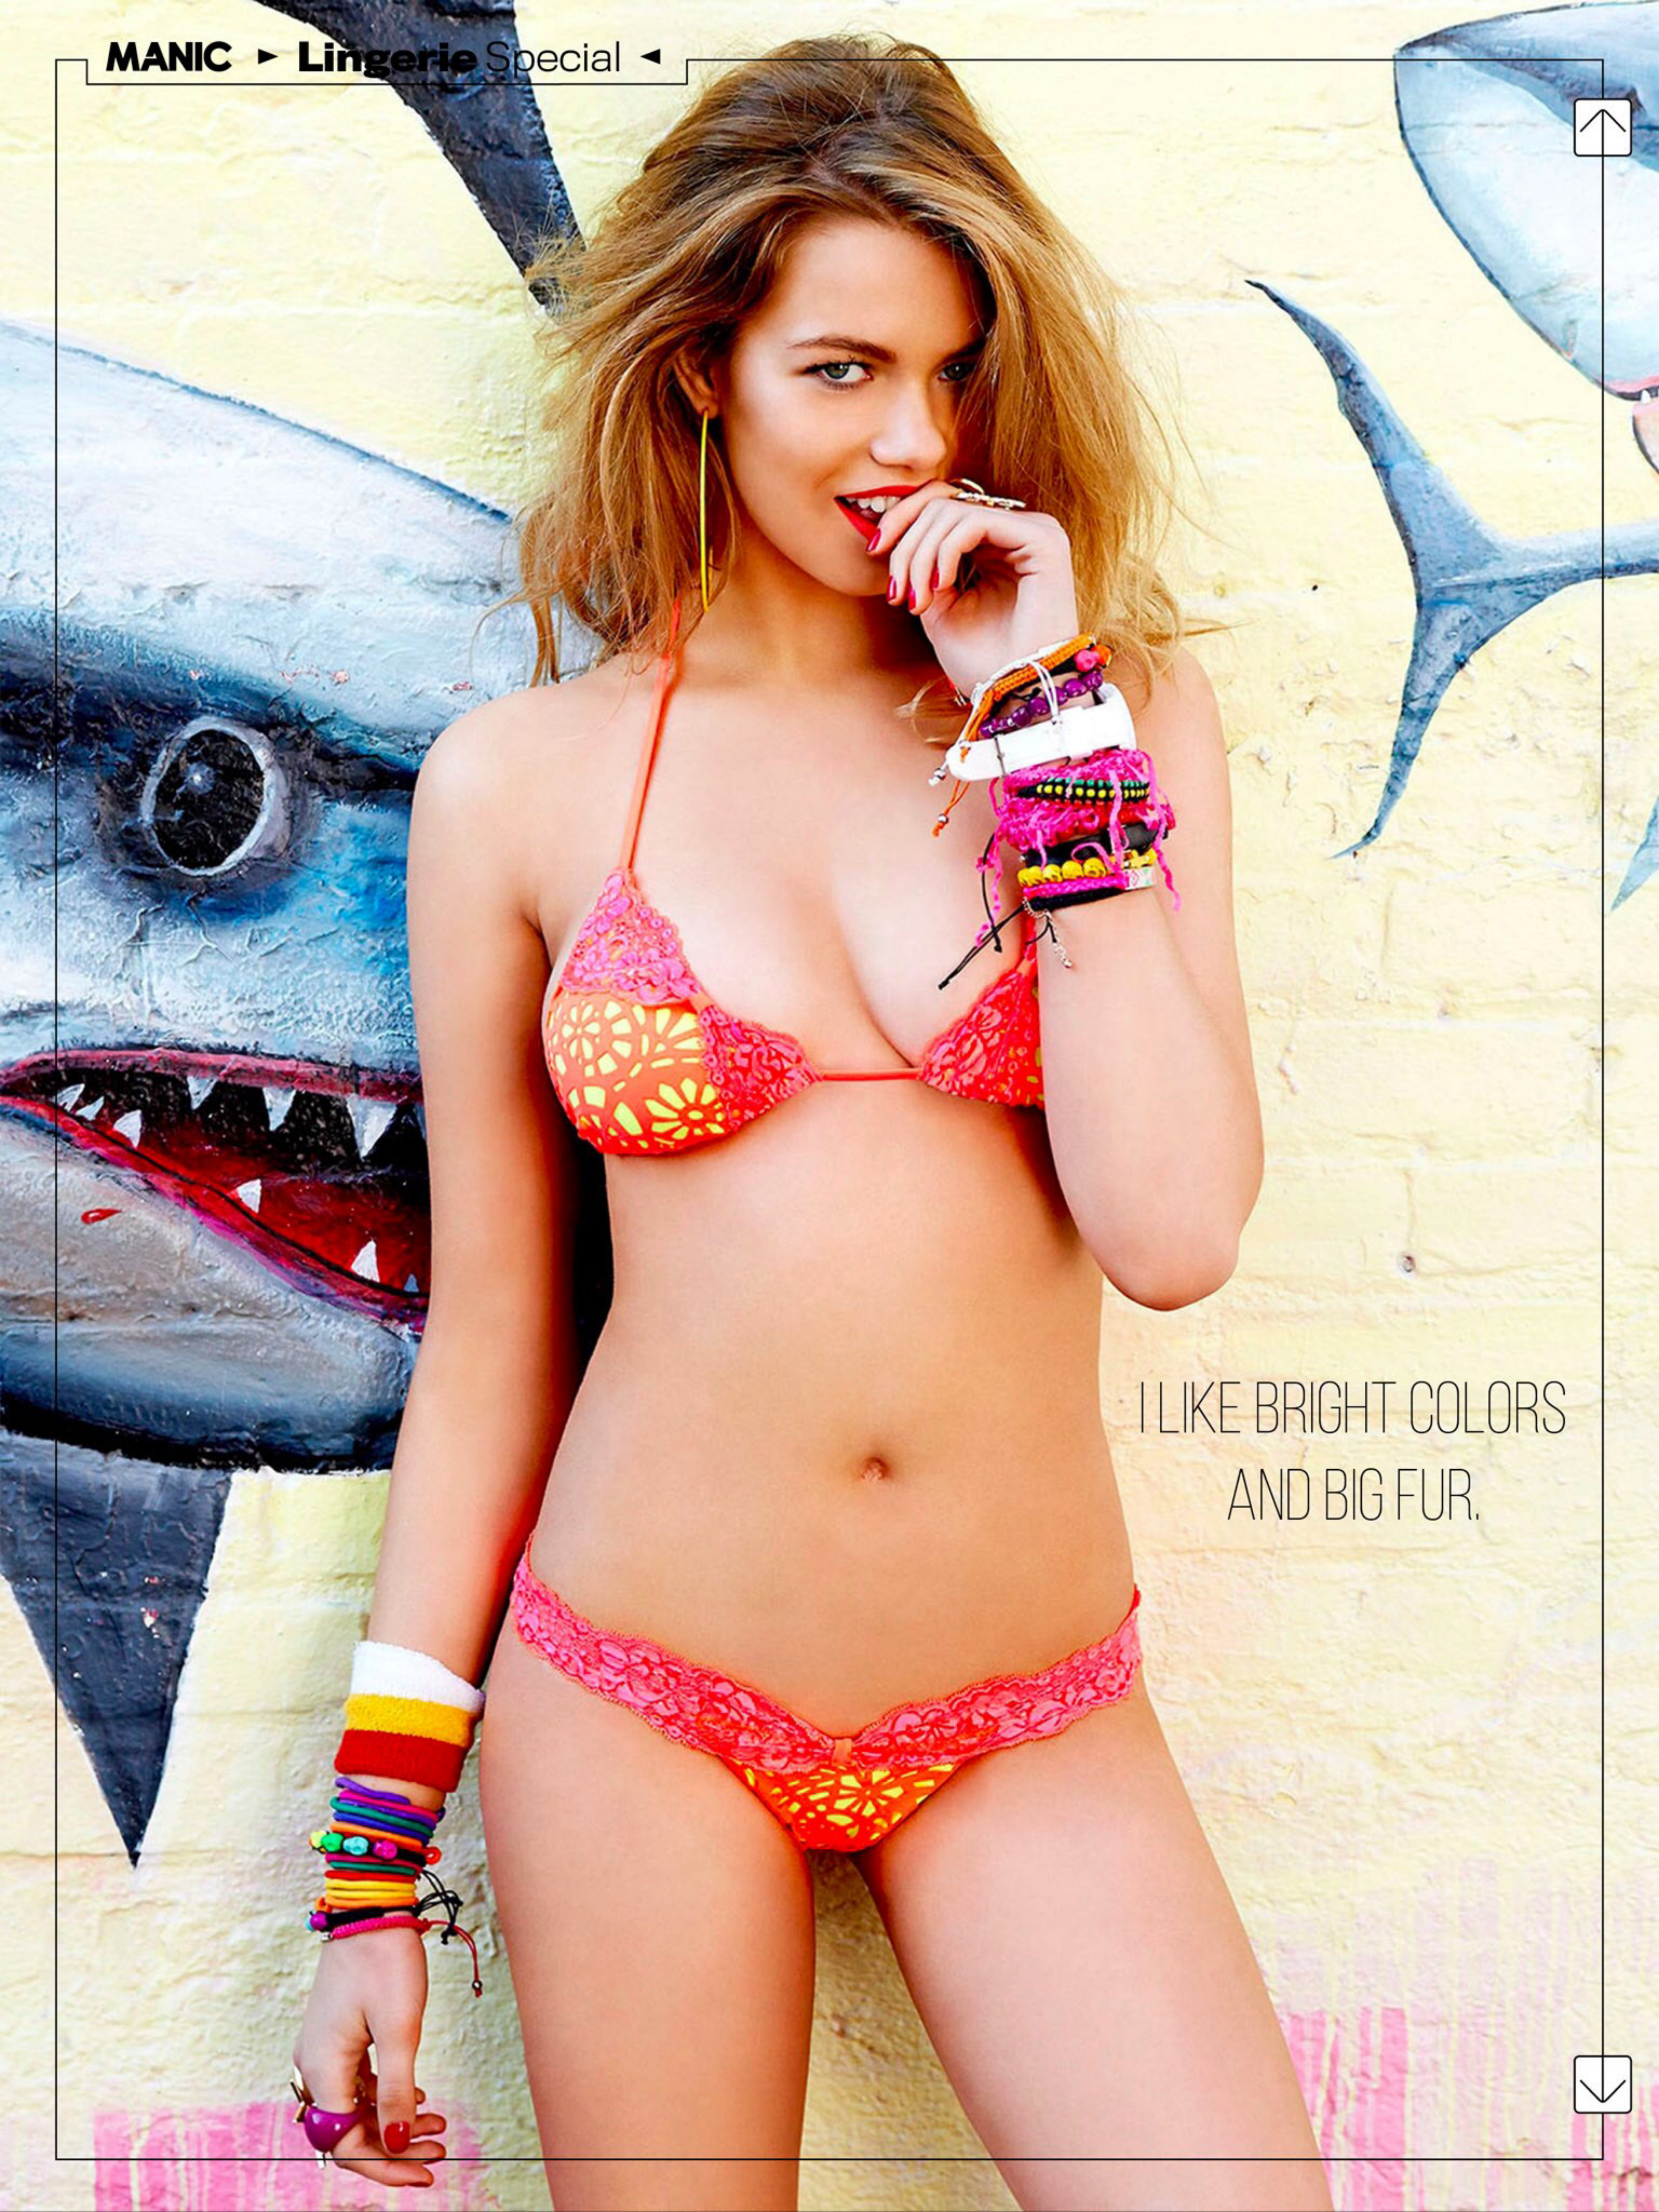

Candice was born in Mooi River, Natal Province, South Africa. This 26-year-old babe was ranked one of the highest paying models of 2010. And how could she not? Her magnetic blue eyes and blonde curls got us all on our knees. But that's not all: Candice is also fluent in Afrikaans and Portuguese (besides English). One must wonder what other things she can perfectly do with her lips and tongue.

Hailey Clauson

This only happens in best possible dreams: a babe this hot is of legal age. Even though she is only 19, she is a well-known figure in the industry. At the beginning of her career, there was controversy constantly surrounding her (because she was too young), so Hailey was frequently rejected on castings. But this laid back, down to earth American woman and little devil now does some of the most provocative editorials. So, American woman, stay away from us! We cannot hold it anymore.
