Bad Sci-Fi is a gene-splitting genre all unto its own unholy freakin' self.

A titty twisting trilogy that began promisingly with 2000's cult brain crusher *Pitch Black*, then got all big budget brain dead with *The Chronicles Of Riddick* in '04, this new slice of Summer Sci-Fi future crap reunites the first film's writer/director David Twohy (the writer of *G.I. Jane* and *Alien 3*, so ponder before plunking down cash) and Diesel in the Underverse universe. As antihero slash asshole slash bounty hunter bait Richard B. Riddick, Vin's been left for DOA on a sun scorched planet, fighting to stay alive against the massive shit slung by cut and paste CGI aliens. Vin's only way out? Activate an emergency beacon, and alert all the mercenaries who want a piece of his ass and his head as a trophy. Will Riddick's revenge turn his pursuers into pawns, or Riddick himself into a baked prawn?

Mega-cosplay-freaks

A butt-load of brutal cosplay violence that bathes moviegoers in splatters of slapstick and buckets of blood, "Kick-Ass 2" is both a slick and brain-sizzling slice of summertime bad-assery, and a big-ass letdown.

The superhero sequel to 2010's surprise hit ('kay, truthfully the original "Kick-Ass" was more of a surprise, cult DVD type hit, which flopped in bijous but found life after its' theatrical run death) follows famed high-schooler turned crime buster Kick-Ass (played by Aaron Taylor-Johnson) and amateur assassin Hit Girl (unbelievably rawkin' Chloë Grace Moretz) in their further fight to rid the seedy streets of their city of sickos. At the same time, they're normal (read: horny) teens, with hot teacher fixations and male masturbation fantasies. Kick-Ass and Hit Girl are forced to join forces with Colonel Stars & Stripes, a morally driven ex-mob boss (played by the manic Jim Carrey) who hates F-bomb-tossing teens as much as he hates evil, when their arch-nemesis Red Mist (Christopher Mintz-Plasse) returns, reborn as the super-villainous rich kid Themefucker, dressed in fetish gear who assembles his own evil league to hunt down our heroes in vengeance.

A limp-dick let down knocking on the door to the Home Invasion/Thriller movie 'hood darkened your doorstep last month. It's Adam Wingard's "You're Next," and it's a slice of cinema suckitude that's been collecting dust on the shelves at Lionsgate for two years.

"You're Next" follows this summer's mind-bending "The Purge" to the multiplex. And there's a reason Lionsgate pussied-out and gave this gore-snore sloppy-seconds at the end of the popcorn movie season: it steals more ideas from more movies than your neighborhood bank stole dollars from customers.

LOST PLANET 3

Published by: Capcom

Genre: Action-Adventure

MSRP: \$59.99

Rating: T for Teen

Available On: Xbox 360, PS3, PC

The original Lost Planet game, Lost Planet: Extreme Condition began as an Xbox exclusive that debut early in the console's lifespan and didn't have much in the way of competition. Since then, of course, a number of huge third-person sci-fi games have stormed the market, with titles like Mass Effect and Dead Space likely taking the top slot on the pile. A sequel to Lost Planet, titled Lost Planet 2, failed to recapture what had made the first game so unique and was met mostly with weak reviews. Now it's time again to visit the stark planet of E.D.N. III, and Capcom is hoping that Lost Planet 3 will bring back the players it lost with its lackluster sequel.

Big changes are afoot for the Lost Planet series. Lost Planet 3 focuses more on story than action, addressing what was one of the biggest complaints about Lost Planet 2. The game is set years before the first game in the franchise, starting players on E.D.N. III during a harsher time in its lifespan to help flush out some of the mysteries that led to the events of the first game. The story centers on Jim, a pilot who takes a contract on E.D.N. III and works to harvest thermal energy from around the planet in the hopes of earning a big payoff and a ticket home.

MADDEN NFL 25

Available On: Xbox 360, PS3,
Xbox One, PS4

It's that time again, sports (game) fans: Time for the yearly release of one of gaming's most venerable, popular, and successful franchises. Yes, it's Madden time. This year's edition, titled Madden 25 thanks to the 25-year anniversary of the franchise occurring in 2013, promises to revolutionize the way you play Madden, the way you think about football, and the way you interact with sports games. But can it possibly live up to its own hype?

Like other Maddens before it, Madden 25 is packed to the gills with updates, small and large. A new feature has been added to Ultimate Team mode in the form of Team Chemistry, which affects how your players perform on the field depending on how they get along with one another (yes, really). You'll have to balance offensive and defensive styles to find players that don't just fill your stats shortcomings, but personality needs as well. There's also the all-new Head-to-Head Season mode, in which you'll play the same person in a 10-game season, earning a path to the playoffs against other talented contenders

The running game has seen a massive overhaul, with way better run blocking than you've ever seen from AI players. In this version of Madden, players actually block for a reason. Man alignment has been tweaked, balls get batted out of the air, interceptions have

If there's one thing you can count on every single year, it's the exciting return of college football. And just a few months before the sport comes crashing to your television and university stadiums, NCAA Football lands on the video game console of your choice. Like Madden, FIFA, and other annualized franchises, NCAA Football comes out every year like clockwork. The question, of course, is what the latest version does that the previous version does not, and whether it's worth plopping down another \$60 of your hard-earned dollars.

NCAA Football 14 is more than just another sequel in a long-running sports franchise. It's the next big leap forward for college ball video games. This leap is accomplished through a couple of big additions to the mechanics of the game, namely the incredibly realistic and rewarding physics engine that made Madden 13 such a massive hit. NCAA Football 14 certainly looks like its predecessors, but it feels like a completely different game in all the ways that count.

Graphics have seen a few minor upgrades -- players look more realistic and stadiums are more thoroughly realized. And while this game isn't going to win any awards for graphical innovation, the tweaks are more than welcome and help give NCAA Football 14 a sense of realism that has sadly been lacking from previous titles. TOM CLANCY'S SPLINTER CELL BLACKLIST™

Published by: Ubisoft

Genre: Action-Adventure

MSRP: \$59.99

Rating: M for Mature

Available On: Xbox 360, PS3, PC, Wii U

Once upon a time, Splinter Cell was a beacon of hardcore stealth action. The game punished players for being overly combative, and rewarded players for sneaking through the shadows and learning to pick their fights. Over the course of the franchise, however, the focus shifted from stealth to action. Sure, the old stealthy moments were still here and there, but the main point of the game quickly became killing everyone in the room. No game took this concept further than Splinter Cell: Conviction, which was so far detached from the series' roots that there wasn't even a way to hide the bodies of bested foes.

Ubisoft seems to know that it has stepped too far from Splinter Cell's origin. And with Splinter Cell: Blacklist, things seem to be back on track for fans of the original stealthy design that made the series a success. There's still combat, to be sure, and there's still the option to go in guns blazing, but hardcore fans will find many more options to remain in the shadows and push through levels undetected in this latest entry in the franchise.

The story, once again, centers on Sam Fisher and his elite band of do-gooders. Positioned in a flying mobile operations center, Sam and pals work to defeat a group of terrorists using a "blacklist" to plan and execute attacks across the globe. Michael

SWEET 60

KRUSHES OF 2013

Remember that girl back in third grade who was your first crush. There was something intoxicating about her that lit up your world. Maybe it was her smile or her scent (the first in your class to graduate from baby shampoo) or the way she giggled. Whatever it was, she holds a special place in your memory. The women in the inaugural class of SWEET 60 Krushes hold a special place in our memory, our early years of 2011 and 2012. Where else will you find a Persian Barbie, a Malibu Barbie, a Wedding Crasher, a Shah of Sunset, and competing she-jays? Sit back, let your fingers do the walking and relive the beginning of Kandy with our 60 Krushes.

IRINA VORONINA

2013 KRUSH OF THE YEAR

STARRING: IRINA VORONINA

PRINCIPAL PHOTOGRAPHY : VOLKER FLECK

HAIR & MAKE-UP: RICARDO FERRISE

EXECUTIVE PRODUCERS: RON KUCHLER & JASON ERSKINE

HER SUMMER 2012 ISSUE OF KANDY IS OUR ALL-TIME TOP SELLING ISSUE. AS FERVENT AS HER FANS WHOM SUPPORT HER EVERY MOVE, IRINA IS EQUALLY ZEALOUS IN THE BRANDS SHE SUPPORTS. SHE IS AS HUMBLE AS ANY BEAUTIFUL WOMAN WE HAVE EVER MET WHEN THE TOPIC IS HER TIMELESS BEAUTY. SHE IS AS WORLDLY AS IS KANDY. IT IS FOR ALL THESE REASONS, AND SO MANY MORE, THAT IRINA VORONINA IS OUR 2013 KRUSH OF THE YEAR.

THE SHOOT

Your shoot was very different than any Kandy shoot. What was the thought process behind planning the theme and style of the shoot?

Yes, it is indeed a very different shoot than my previous one for Kandy. After years of modeling there is no satisfaction any more in putting on a bikini and taking some shots. It is much more rewarding for me as a model to feel like I am making art and doing something much more editorial. In the pre-production meeting, both I and photographer Volker Fleck were talking about doing something different. We wanted to tell a story, capture still life moments with out having a feeling of the camera being present. I

"I TEND TO THINK OF MYSELF AS A VERY AVERAGE LOOKING GIRL ..."

wanted our readers to be a part of every shot, to feel like they are looking through the camera lens themselves, through the doorway,

THE MODEL

What is the one question that you have never been asked that you thought would have been asked by now?

'Do you consider yourself hot?' would be one of the questions. People just assume that I think I am beautiful. I tend to think of myself as a very average looking girl that knows how to present herself, do great makeup and pose for pictures. It may come as a disappointment for some, but if I was a guy I am not sure if I would want to wake up next to Irina every morning... h a h a . And, it's not me being humble, every other girl in Russia looks like me or even better.

What is the biggest misconception of the modeling and acting industries?

Most people tend to think that modeling and acting are very glamorous, that it's a dream job and you are always pampered on the set. Unfortunately, it is quite the opposite. Most of the time, it is not the most comfortable experience. Say, shooting a bikini catalog when it is 45F in Malibu or filming a scene when it is 100F outside and you can't really use the AC because of sound recording. Should I mention 16-17 hour shoot days? Filming my brief part in Piranha 3D took nearly 16 hours and

I remember spending half of that time in a freezing cold pool. I remember the doctor measuring my temperature every hour to make sure I was not going to over cool. Please don't think that I am complaining, I love what I do and would not trade it for the world. Besides for actors, work never stops. You come home after a long day of shooting only to study lines for the next day. Sometimes you can't stop living in the emotional life of the character and you literally "take your work home". When I get a big audition I literally put my life on hold until I get a grasp of it. It is a lot more work than an average person can imagine.

"TRUE MAGIC
HAPPENS WHEN MAKE
UP, LIGHTING AND STYLING
COME TOGETHER."

What lies ahead for Irina, acting and modeling?

I go to a lot of castings and auditions, so even I don't know most of the time what the next big thing is going to be for me. I am very grateful to have amazing print clients such as Elegant Moments Lingerie and Belldini Clothing. It is always so much fun to work with both of them! As of recent, I am also a spokesmodel for Electronic cigarette company ReguveCigs. And I am always happy to rock my pink Playboy Bunny costume for various gigs. So, life is good!

" ... YOU CAN'T STOP LIVING
IN THE EMOTIONAL LIFE OF
THE CHARACTER. "

“ ... LESS CLOTHING IS ALWAYS APPRECIATED MORE BY MY FANS ... ”

" ... MY MIND DID
WANDER OFF IN MY
OWN FANTASIES ... "

#2 EMILY SEARS

Kandy's first two-time cover model, Emily is a fan favorite and since making her Kandy Magazine debut in May 2012 has conquered the US market, much in the way she overtook her homeland Australia.

#3 RACHEL BERNSTEIN

Rachel, also known as Sunset Blonde, graces the cover of our 2014 Swimsuit Calendar on sale this fall. She has already won over Kandy fans world-wide twice, most recently in our summer swimsuit issue.

#4 TIFFANY TOT

TIFFTOT, as her friends call her, is dominating Kandy's charts in 2013. Her fans are obsessed with TIFFTOT; she promotes Kandy incessantly (of which we are very thankful) and is continually showing up at Kandy magazine events. It's not a question of IF but WHEN will we see Tiffany on the cover of Kandy again.

#5 TIFFANY TAYLOR

Back to back Tiffany's on our list of Krushes. They say a way to a man's heart is through his stomach. In the case of a magazine man, the way to his heart is through his wallet. Tiffany's issue of Kandy is continually a top-seller.

WORLD'S SEXIEST DJ
#6 COLLEEN SHANNON

Colleen's Kandy issue, #5, launched our entry into the world of apps and her enthusiastic social media promotion of Kandy is second to none.

#7 JESSICA HALL

Actress, model, reality TV and radio personality, issue 11 cover model Jessica is as well-rounded as they come in the field of entertainment. Look for a steady dose of Jessica in the new season of *Kendra on Top* this fall.

#8 ALEXA SANDBERG

The youngest of our top 10, 22 year-old Alexa stole our heart with her Kandy pictorial in issue 5. She has since gone on to grace the cover of our Holiday issue and appear in our 2013 Swimsuit issue.

#9 JESSICA CRIBBON

The second Aussie model to make our top 10, Jessica has been paving a path to success since moving to America earlier this year. This is Jessica's fourth appearance in Kandy including the cover of Issue 12.

#10 TIFFANY SELBY

The woman who started it all for Kandy, Tiffany graced our very first cover. She has since appeared in two additional issues including this past summer's swimsuit issue.
