No Color, No Problem

The advent of digital photo editing has allowed anyone with a smartphone to think they're Helmut Newton or Richard Avedon with just the tap of a screen—even though putting a black-and-white filter on your latest Instagram selfie doesn't make it art. But when black-and-white photos come from the lens of a world-class photographer, there can be a true beauty and timelessness to the images—even those originally shot in color. With that in mind, we present some of our favorite shoots of recent years, as never before seen, in glorious black and white. Just don't hold your breath for a sepia issue.

PLAYBOY

A black and white photograph of a woman lying on her back on a pool float in a swimming pool. She is wearing a black one-piece swimsuit and has her hands clasped near her chest. She is also wearing a watch on her left wrist. The water around her is rippling, and the overall mood is serene and elegant.
