20 GUYS February 2015

Being a Canadian artist who is really successful within different genres. How would you measure your success? I mean you have an album titled MOR Music over Revenge. That's something to be really proud of.

I'm in a good place right now, so I would consider that a success. But as far as my career goes, I'll always want more I'll never be complacent with where I'm at.

#### What inspired the title of your new album?

I want the listeners to come to there own conclusions

#### You had a lot of people incorporated on this album for producing. (List of producers with different songs) How did you feel working with so many people would be like in the studio?

I think I have 8 or 9 producers on this album, most of them I've been friends with for years, so the chemistry in the studio is always good

#### The new album M.O.R, is extremely versatile within your style. Was there a particular song you loved to work on slightly more above the rest?

I gotta give that to Dosey Doe - it was probably the last song that we added to the album and it came real easy. I had a couple sodas and had fun with recording it

#### One thing that I love about your musical style as I interpret it, is that it has a darker slightly destructive side to it. How would you describe your musical style?

There's definitely a dark and destructive side to me and my music, but I think there's more balance then meets the eye. I'm never hopeless, there's always a way to win and overcome, and then have a fucked up party to celebrate. I'd describe my music as honest for sure You are from Toronto correct? How does the city treat you these days?

Toronto's home - it treats me like home

Where do you feel the most creative in the world?

Toronto and LA

What's one thing you can't go on tour without?

Jackie (Jack daniels)

#### Tattoos, Beers, Sex or Pizza?

All of them, the order would depend on the day

Are you going to be going on tour soon? Are there any cities you really enjoy playing?

I will definitely be touring hopefully beginning of 2015, I love playing anywhere that'll have me but Denver is that city, or Colorado in general has my heart

#### Being that this is the west coast edition of FGM, do you enjoy coming out to the west coast? Ever go snowboarding up here?

I've only been out there to do shows with zeds dead so i didn't see very much outside of the venue and hotel. But I know it's beautiful out there and would love to spend more time to actually get to see it. No snowboarding, its too cold for my Mexican blood haha

# How has the industry changed since you started?

Well, I've seen a lot of ups and downs in the industry, I've really seen it all. You have to stay focused on your goals. Don't follow the herd. A lot of companies follow what we do, monitor us and jump on it so we have to continue to be innovative.

What was your inspiration towards creating your factory? Pursuit of happiness

### February 2015 GUTS 27

### Ski or Snowboard?

I started skiing first, then snowboard, now skiing again... I'm not biased. It also depends who I go with.

How does it feel to be 25 years successful? Well it snuck up pretty quickly, I mean, we are just gaining more and more momentum. We have great traction.

#### What excites you the

### most about the 2015 winter season?

20 cm days. Everyone in the office goes up on a good powder day We all have our different styles, and go in groups on different lifts, runs. At the end of the day though no one can keep up with me.

#### February 2015 GUYS 29

# What sets you apart from other major brands in the industry?

Well, we are a boutique company. Combined with craftsmanship and quality. It is my life forté.

How do you utilize the west coast culture when designing your skis and boards?

We have our annual top sheet competition that we've done pretty much from the start. It invites artists from the sea to sky corridor to design a top sheet for our upcoming products for the new season. Its important to embrace the (west coast) culture. There are so many good artists to promote and really embraces global community. It started as us hiring one person and evolved from there. It gets artists a venue of expression. Then bigger companies jumped on it. You just got to keep being creative.

32 GUYS February 2015

What's your favorite sport?

Hockey and Football are my favs What team? Seatle Seahawks and Colorado Avalanche.

What's your favorite movie? Breakfast at Tiffany's

Who's your favorite actor? Audrey Hepburn, what beautiful soul she is.

#### What's your favorite song?

Music is my Remedy. It is so hard to just choose one. I am a big fan of all tunes. One of my favorites is Metric Collect Call by Adventure Club

#### Who's your favorite artist?

My Tattoo Artist, Lars. Everyday he is always progressing in his work and teaching himself new skills and techniques. Lars is a real inspiration to me.

#### What was your first job?

I worked in a super market in the produce department. I didn't want to work at the checkout. I wanted a physical job.

#### Do you have any piercings or tattoos? How many and where?

I use to have my tongue pierced; but, I took that out after I chipped a tooth. So, now just my lil ears are the only things pierced. I barely wear earnings. I have a moustache tattoo on my pointer finger and a beautifully, pissed off Panda Burr on my left foot. Getting more tattoos has really been on my mind lately. I want to get a Tiger on my Right foot; he will be smirking at the angry Panda, Add some balance, I also have this beautiful jewellery wrist piece that I want to get started. I don't necessarily want every inch of my body covered; I love my skin. I just want to add some life long art to bring along with me. Our body is like a blank sheet of paper; allowing us to write our story.

What's the most unusual place you've ever hooked up?

Just off of a hiking trail. It had a great view and was a gorgeous day. You could say that the "Birds and the Bees" were really out that day. What's one thing you think all men should know?

Just because we talk to you does not mean we want to sleep with you. What qualities drive you wild in a man?

I love a man that is intelligent, passionate, humble, artistic, funny and has a bit of a wild side. Oh and if you can dance and I mean you know fucking dance. That's hot.

Which physical feature do you most often get complimented on?

### What's your idea of the perfect date?

I prefer going for a nice hike, ending the night star gazing on my deck over looking the lake. Nice to get outside and breath. Instead of being cooped up inside a stuffy restaurant. I find its easier to relax and get to know each other.

#### How do we win your heart?

With your charismatic charm my friend ;)

### On an average Saturday night, what are you doing?

I'm still just getting use to having Saturday nights off. For the last 8 years I have worked every Saturday night in a nightclub. Now, It is a treat to be able to have a relaxing night with my man.

#### If you could go on a date with one person, dead or alive, who would it be?

George Stromboulopoulos, I grew up watching him and his career grow. It would be amazing to sit down with and listen to his stories and his insight of the industry. It's like a childhood crush ya know... awhile ago he started actually following me on Instagram... I lost my marbles

#### lol... kinda but kept it cool lol What do you feel most comfortable wearing?

Sweatpants and baggy tee's lol, just like everyone ;) actually life would be complete if I could live in my bikinis. When do you feel sexiest?

Right after I have had a great workout. Feels so good to get into the gym and let the day melt away. Afterwards I just feel so great and refreshed. Keep it tight!

### How did you get started modeling?

I first showed interest in modeling when I was in elementary school. Our Grade 5 class got to do a fashion show for the stores in the mall. Haha, I actually hated my outfit that they gave me to wear. It was this tacky jumper dress with a matching hat. While everyone else wore something pretty. That didn't discourage me though; I still rocked the shit out of it. The Seed had been planted.

#### Who is your favorite model?

Honestly, I am so lucky and blessed that I have a good group of close girlfriends who model too and come from the same neigbourhood. So, I can't say I have one favorite model. It is a handful of all my girlfriends that inspire me everyday. Who are chasing their dreams too. It is amazing to be able to have such a close community, that shares the same passions and desires.

#### Do you have a favorite behindthe-scenes story from a photo shoot?

When I was in Cancun with IBMS. A group of us went to Tulum to shoot. I had to drive an hour to get there in this tiny ass smart car with gf Carah Munroe; down the Mexican Highway! It was crazy! We were following Greg Aldous; he had to stop to tell us to keep up IoI. Thank goodness! We made it in one piece. When we got there the resort gave us the top floor over looking the ocean to shoot at. Spectacular view! It was so much fun only a small group of us and one of my best friends by my side.

#### What would your fans be surprised to know about you?

While I was growing up I was bullied and picked on constantly. Kids can be really mean. It was super hard and very confusing to grow up with almost everyone around you constantly backstabbing you, turning on you or just hating you for no real reason... It took me a long time to look past it all. I was constantly fighting depression and still do. It took alot of self reflecting to come to terms that it was them and not me. We all have our issues. We just have to remember to live for ourselves, don't take it out on others and to not let what others think affect us and our souls. Sticks and stones may break bones but words can shatter the soul. Even though it was very hard I would not change my past for anything. I am me; because, of my past. I am strong now today; because, I know the truth now.

### What's the most memorable pick up line you've ever heard? Came up and whispered in my ear "You have the Best Ass in Canada!"

### Aside from modeling, what are you focusing on these days?

I'm looking into getting behind a camera and looking into doing more commercial and acting gigs.

#### And, finally, what made you want join the GUYS family?(this is where you kiss our ass)

It is an honour to be able to join the GUYS family. I feel that we have sat back and watched each other grow in the last few years together. Now I'm happy to join the team and help you grow more! Plus us Canadians have to stick together. Thank you so much for the opportunity. Looking forward to what's next. XOX
