

# WELCOME

There are many things to celebrate over the course of a year. The birth of the baby Jesus for example, tends to be an absolute belter. As is the heady combination of sun, beer and traffic cones that marks the August bank holiday.

But nothing gets the great British public as excited as this, *FHM*'s annual 100 Sexiest Women In The World poll. To be quite honest, it's been bonkers. First

Paddy Power announces ludicrously good odds on the winner, prompting the arrival of the very first 100 Sexiest Safe, in which we double-locked the results. Then the fun really started, as some of the world's finest women took to dropping in; completely out of the blue, politely enquiring as to their position on the leader board.

And such shenanigans weren't confined to Blighty: across the globe, all 28 editions of your favourite magazine (beautifully illustrated below) were experiencing the same chaos as the planet went voting crazy. Ultimately, more than 15 million of you had your say – and that's why, somewhere in this book and in addition to the lady that you, the merry men of Britain voted as your Number 1, you'll see one lucky lovely singled out as our "Global Winner".

Thanks to everyone who voted - the results, we're sure you will agree, are worth it.

Enjoy!

munters, too. Step forward Marianne Faithfull, Fay Ripley, Claire Sweeney and... Marge Simpson.

## SEXIEST SECRECY

To ensure no one knows the result of the poll, half a dozen different top tens are produced and all of them go through to the penultimate stage of the printing process so that the looselipped printing-monkeys won't know which is the real one. Clever!

## LOPEZ ACTS UP

For some reason we thought it necessary to give multi-millionairess J.Lo a straight-out-ofthe-box Jag for winning in 2001. All good – until somebody at Jaguar asked for the car back a year later...

#### FOND MAMMARIES

In 2003 we sent our office midget Li'l Lee to interview the glorious Amazonian Victoria Silvstedt (5ft 10in + heels). "I was at tit height," he gleefully reminisces.

## ROCKER MAKES CRAZY DEMANDS

In 2004, Fred Durst pitched up at the party and demanded his own VIP area. Naturally, there wasn't one: everyone's equal at a 100 Sexiest bash. Still, he consoled himself by chatting up Tina from S Club.

#### JOURNO DENIED ENTRY In 2000 the then editor of a downmarket rival

magazine tried to blag his way into the party, only to be turned away by bouncers who had

## PERVY AFORE-THOUGHT PAYS OFF

Last year's party was held in London's hallowed Guildhall, which we promptly sullied by installing a mirrored dancefloor. By blessed coincidence, Jodie Marsh danced on it wearing nothing but three belts.

#### MARKETING STUNT BACKFIRES

In 2001, a single issue was incased in a block of ice and left on a London street to melt - a cunning PR stunt to generate publicity for the winner. Unfortunately, some berk on a bike smashed into it 23 minutes later.

## FLYING VISIT

The award for the briefest appearance at a 100 Sexiest party goes to Jordan, who turned up with an entourage of ten in 2002, walked in (some time after midnight), turned around and walked back out again.

## **FLYING VISIT (2)**

While most of the honeys pitch up in cabs or limos (yeah - right!), Rachel Stevens made the most impressive entrance to the party ever in 2001, when she landed on the roof of the venue in a helicopter.

# STRANGE TASTE

Over the years some truly beautiful women have made our list. As have some right

## JUST PLAIN WRONG

In 2004, a sizeable number of you voted for Chris Moyles, putting him at number 441 - 89 places higher than that fat ginger bird that used to be in *Hollyoaks*.

#### **BEST SCORES**

At the 2002 bash, smooth-talking Lothario Calum Best came onto one of the girls from the *FHM* office, but ended up boffing a High Street Honey. been briefed by the *FHM* boss, to "not let that tosser Hernu in." Yes, that's Piers Hernu. More recent star of *FHM*'s Challenge Piers, Piers Goes Drinking In... and numerous real-life features.

#### **FAX FLURRY**

In the long-distant days before e-mail, readers' votes used to be faxed into the magazine. Every night the machine would be loaded with a couple of reams of paper; and by morning every sheet would be used up. Impressive, if a little wasteful.

## **EVENTFUL EVENING**

The 2002 party was memorable in that Gary Beadle from *EastEnders* cheekily purloined six goody bags, while Gabrielle Richens and her then boyfriend, boxer Audley Harrison, had a blazing row in the middle of the party.

## GATECRASHER

Pop midget Nick Rhodes from crusty Eighties teen band Duran Duran turned up to the 2001 party - which is odd seeing as he wasn't invited. We didn't think his ancient ticker would stand up to being turned away, so we let him stay.

## **BROKEN DREAMS**

The 2002 party was particularly memorable for one (unnamed) *FHM* staffer (Chris Bell), who was offered a threesome by the wonkytitted Alicia Douvall (he declined).

#### Mysterious girl Last year: 47

Catherine who? you may ask. Indeed, the Bell-ster may not yet be a regular on prime time British TV, but the London born actress' curves have made her a regular fixture on American TV and FHM's 100 Sexiest list. And not only does the star of TV pilots drama JAG own up to visiting lap dancing bars, but she's also a massive fan of Pamela Anderson ("I'm fascinated by her boobs") and rates herself a "nine and a half out of ten" in the sack. What a star.

## 99 AVRIL LAVIGNE

#### Rawk chick Last year: 62

The delicious thing about the growly Kanuck teen is that if you overlook the fact that she's the slightly rubbish poster girl for your 12-year-old niece, and remove all the baggy, grungy sk8ter clobber (hmmm... imagine that), there's clearly a riotously fit 19-year-old bod. And having sold 20 million records worldwide, the pouty strummer can easily keep you in the manner in which you're accustomed for around the next, let's say, thousand years or so...

# 98 FRANKEE

#### Grmmel New entry

The old adage goes that Hell hath no fury like a woman scorned, and judging by this gorgeous New Yorker's song *F U Right Back* - that fiesty rejoinder to potty mouth Eamon - Frankee's one angry beeatch, which would make taking her to bed akin to breaking a wild mare. A bucking mare with a firmly rounded rump, a pair of doe eyes and, er, a fantastic set of norks - but a ride that'll snap your spine and rattle your teeth out nevertheless. Imagine that.

NEW!

# 97 SALMA HAYEK

Slinky Last year: 50 It must be rubbish being Salma Hayek -you know, waking every morning to face the unflinching certainty that to top your sexiest ever movie moment (that snake dance in From Dusk Till Dawn), you'll have to "show pink". She had a bash last year with that rubbishy After The Sunset with Pierce "Let Me Do Another Bond!" Brosnan, but her next flick sounds more promising: she plays one half of a sexy bank robbing duo. The other half? Penelope Cruz. Ngg...

₽

## 96 NICOLE KIDMAN 1

Hollywood princess Last year: 97 She's still Hollywood's priciest honey (despite flop *The Stepford Wives*), still free of that wee dwarf, still partying with the incredibly hot Naomi Watts - yet Nicole incredibly not Naomi Watts - yet Nicole isn't a happy honey. She's recently been grumbling, "I would love to have boobs and a butt like Jennifer Lopez but I'm not having surgery so there it is, I'll just have to stay with what I've got." Cheer up Nicole, the voting world still clearly love your 36B hooters and hot Aussie butt.

## 95 HILARY DUFF NEW!

STOR

American booty New entry With a starring role in a hit television series, a film alongside Steve Martin, two humongous-selling albums and now a place in your hallowed 100, Ms Duff's the embodiment of the American dream. Mum and sister also eke out a living in front of the camera, so perhaps fame comes naturally to the flaxen-haired Britney-a-like - but if so, it does at a price: just recently she was asked to perform at fellow Texan Dubya's Presidential inauguration.

の語の

Single girl Last year: 72 Thank the Lord that Tiffani broke off her engagement this year as it finally gives us something to write about. Those of you with a freakishly good memory will recall our befuddlement last 100 Sexiest when TT shot 22 places up the chart without doing a thing, and our subsequent struggle to say anything funny/insightful/interesting. As that's nothing new, we're very grateful that her love life has gone to cack - so here we go: "Hoorah, she's single!" Cheers Tiff'.

# 93<sub>FERGIE</sub>

Appealing Last year: 85 Not the putrid skin-bag of blood, fat and ginger hair that was once a member of our royal family. No, we're talking this cute lean minx from the Black Eyed Peas – an ex-girlfriend of Justin Timberlake, with a world-beating set of norks and a booty that most right-thinking women would slit their mother's throats for. According to fellow band member Taboo, Fergie's sex appeal also crosses genders: "People really love her – guys and girls," he says. Nice.

# 92 HALFPENNY

Toe tapper Last year: 82 Since knocking back lagers at the FHM Pub Quiz last year, Jill's fortunes have been as buoyant as her fabulous breasts. Having lit up screens in the perennially depressing Corrie and EastEnders, the Geordie TV star won light-footed favourite Strictly Come Dancing (skipping past Denise Lewis and Julian Clary to victory). Capping off her fantastic year she went on to play murderous wife Roxie Hart in *Chicago*. The musical, not The Windy City - duh.

# 91 RACHEL BILSON

Teenage kicks New entry Alongside the impossibly lovely Miss Barton, Rachel Bilson - who was in the year above Kirsten Dunst at school (what a gym locker room that would've been) - provides us fellas with the only reason to drag ourselves through another 60 minutes of the crapola that is *The OC*. Why else would we endure rich teenagers moaning about how hard life is, as they lounge on their yacht, if it wasn't for the vain hope that Miss Bilson will soon appear in a bikini?

Exotic beauty Last year: 54 Despite being in a fair few respectable films, Shannon will always have a special place in our hearts for *American Pie*, where she played every adolescent boy's wet-dream of a foreign exchange student. "What about indie flick *Jay And Silent Bob Strike Back*?" she may well ask. "And I was in *Love Actually*!" Come on, love, let's face it - getting your norks out and making Jason Biggs prematurely shoot his load is a career high that every actress would be proud of.

# 89 JAMELIA

#### Superstar New entry

Superstar New entry Returning to become our biggest R&B act of last year, Brummie Jamelia spent much of 2004 being courted by modelling agencies after her gong-presenting appearance at the Brits. Signed at just 15, the silky-voiced diva's packed a lot into her 23 years: motherhood in 2001 was followed by the success of *Thank You* and *Superstar*. Most recently was the Chris Martin collaboration and her appearance right here – proof, if any were needed, that her time has come...

## 88 JAMIE-LYNN DISCALA NEW!

5

Gangster trippin' New entry The former Miss Sigler is, in some ways, a mirror of the character who made her a mirror of the character who made her famous. Okay, so her real father doesn't garrotte business associates but, like Meadow Soprano, she's smart, talented and gorgeous. Having branched out into film (last year's Extreme Dating was followed by three more lead roles), Jamie-Lynn recently starred as former Hollywood madam Heidi Fleiss. The had news? She used a body double for The bad news? She used a body double for the "interesting" bits ... oh, and she's married.

# ł

Speed freak Last year: 31 Following pretty much the perfect man agenda blueprint, Brooke spent 2004 gracing *Playboy* (her second clothes-lite pictorial) and then all over Christmas number-one games title *Need For Speed Underground 2* (bizarrely wonky boobs, our games geek tells us). Then, of course, there's her Barely Brooke swimwear collection – and brilliantly, DVD – plus the video-game version of *Trivial Pursuit*, where she hosts the "People and Places" category. Awesome.

# 86 DIDO 1 Toff totty Last year: 89 Although cursed with a speaking voice that suggests a *Grange Hill* education, Dido Florian Cloud De Bounevialle Armstrong is blessed with a singing voice like spun gold, and the face and body of an angel. Not one of the chubby ones, mind; one of the radiant, benevolent and beautiful types that made JC's disciples feel all unnecessary. Her gloriously pert funbags, which are habitually unfettered by the straps and underwiring of bras, have the same effect on us, too. .

What Kate did next New entry The former Oxford Uni graduate has made an effort to "sex up" this year. She appeared in Van Helsing solely to prove she could do hot - something Hollywood execs had said was beyond her (thus proving all studio execs are blind and/or gay). She then went on to proclaim she'd like to "eat Angelina Jolie" after they met on the red carpet. If there's any hope - however distant - of some lesbotic action betwixt the two, we can only hope more people call her ugly from now on.

# 84 DANNII MINOGUE

Sister act Last year: 56 Helluva family, when you think about it, the Minogues. The sisters may have weird names but they've certainly got great looks, can sing (sort of) and do the odd bit of acting. Last year saw Dannii continue to follow her older sister's lead by releasing records (You Won't Forget About Me) and looking good, plus she also performed at the MTV Beach Beats Party in Athens. All she needs now is the equivalent of Can't Get You Out Of My Head...

# 83 ANASTACIA

#### Mellow bellow New entry

It's been another purse-bursting year for the Chicago-born singer, scoring 2004's seventh best-selling single (*Left Outside Alone*) and sixth best-selling album (*Anastacia*). But the highlight was surely her *FHM* shoot where she proved that she possesses one of the finest racks in pop. And, even better, she's single - and you *could* have a chance. "I'm just as interested in a plumber's day as I hope he would be in my day of doing press," she says. Plumbers, down your tools...

Flash! Last year: 91 Tara seems to have taken a leaf out of Britney's book this year and decided that what the world needs is less American Pie movies and more pictures of her falling out of Hollywood hot spots suffering from the medical condition of "being arseholed". Her crowning moment of 2004/5 was a different kind of falling out all altogether, however, as Tara posed for a series of red-carpet party pics with her left knocker on proud display.

# 80 ESTELLA WARREN

Monkey magic Last year: 76 A former synchronised swimmer for the Canadian national squad, Estella's finest moment was surely when she appeared as Deana in *Planet Of The Apes*, with nothing but tiny scraps of animal hide to barely cover her impressively fulsome figure. Interestingly, her character was supposed to wear a leather burkha, but there wasn't a cow skin big enough to cover a pair of lips that voluptuous. Er, we made that bit up, but they sure are deliciously pouty.

X-rated Last year: 58 She's ditched the hubby but weirdly kept his kebab-tinged name: never mind about that, though - the delectable former FHM cover star and X-Men babe is back on the big screen this year with Alan Partridge: yep, the leggy Yank beauty is starring with Steve Coogan in new comedy flick The Alibi. Less excitingly, she's also shooting a film called Man About Town with Ben "I Do Have A Career Still" Affleck and John "Not Just A Gangly Fool With A 'Tache'' Cleese.

#### Available? Last year: 69

Aniston's been toying with male loins all year by first becoming available (cue fist biting) and then generating endless rounds of "Will Jen and Brad get back together?" news tales. What gives, Jen? Meanwhile she's keeping herself busy in 2005 with five movies, but it's next year's *Gambit* that *FHM*'s eyeballing. A thriller where Aniston plays the object of a thief's desire? That sounds like the perfect excuse for some jiggery-boob-pokery to us!

# 77 NICOLA ROBERTS

Born-again brunette New entry Despite reaching for the dye and turning her back on the controversial world of sexy ginges - Nicola remains one of the sexiest gals from a minority group (no longer red; still from Runcorn). Our real love for the baby of Girls Aloud grew when she recently refused to don cheeky Lara Croft fantasy clobber for a bloke. "What, dress up in army gear?" she chuckled. "Men like army gear?" she chuckled. "Men like women to be girly, not to dress up as men!" Bring it on ...

# 76 LUCY

#### Deadly lady Last year: 55

Not one to fear being typecast as a femme fatale, 2004 saw Lucy practise her trademark death-stare some more in Tarantino's *Kill Bill Vols 1 and 2*. She got her big break as the terrifying Ling in the otherwise nauseating *Ally McBeal*, and went on to break more balls and hearts in the *Charlie's Angels* movies. Lusting after a lady like Lucy just can't be healthy, yet we'd happily suffer a stab to the torso to get a closer look at her catsuit-clad curves.

#### 75 JENNA JAMESON

J

Hardcore sexpert Last year: 39 Erstwhile FHM sex columnist Jenna branched out from screen to page in the last year, and all whilst keeping her clothes - miraculously - on. Her memoirs How To Make Love Like A Porn Star: A Cautionary Tale earned the cartoon-proportioned blonde yet more men-fans, whilst the sale of her orgasmic moans as granny-baiting ringtones guaranteed she'd be returning to our li'l league of justice here. Rich, beautiful and downright dirty... whadda catch!

## 73 SOPHIE HOWARD

Bubbly bombshell New entry There were many great things about our inaugural Championship Of Women feature, such as the chance for Premiership no-hopers like West Brom and Crystal Palace (in the guise of Honeys Kayleigh Pearson and Charlotte Marshall) to top a table – any table. But surely there was no finer a sight to be had, ever, than the lovely Sophie Howard's marvellous bahoomas unfettered and free as a bird, floating innocently on top of a bath of soapy water.

#### 72 LIV TYLER

# ₽

#### Hi, mom Last year: 65

Bachelor elves across Middle Earth have been blubbing their tiny, pointy hearts out. Why? In December last year, sweet, sweet Liv gave birth to baby boy Milo. Either that, or the elves were miffed with the 27-yearold's role in the less than perfect *Jersey Girl*. But fear not, little ones! This year we'll all be getting plenty of "us time" with Liv in new, Steve Buscemi-directed flick, *Lonesome Jim* - so that'll be Tyler as the "beautiful nurse". Aaaaaaand... cough.

### 71 HOLLY WILLOUGHBY

#### Hangover honey New entry

Forget Alka-Seltzer - Ministry Of Mayhem's resident minx is the perfect antidote to Friday night excess. Fame's greasy beanpole has been kind to the Brightonborn former model. A watershed-busting Pretty Polly ad brought her to the attention of the nation's males and casting agents alike, and there followed stints at S Club TV and Fame Academy before SM:TV's successor called. All this and she's still had time to study for a psychology degree...

# 70 LEANNE WILSON

Healing hands New entry Nurse! Hot nurse! After Miss Wilson Nurse! Hot nurse! After Miss Wilson ditched her gloriously tight-fitting *Casualty* nurse's uniform to reveal her private collection of lingerie to the *FHM*-buying public, A&E departments went bonkers. Demands for hot nurse healing from blokes faking injuries only halted on Saturday nights, when mankind became hopelessly glued to *Casualty*. So what's next for our Leanne? She fancies a pop at Hollywood. As long as she packs that uniform...

## 69 LAILA ROUASS

#### VJ Day Last year: 87

Since last year, the Footballers' Wives eye-candy and FHM cover girl has put another series of soccer-and-shagging nonsense "in the can", and signed up for slightly more highbrow TV fare, Life Isn't All Ha Ha Hee Hee. Can't wait that long for your Rouass fix? Buy a dish the size of Jodrell Bank and you might just catch the Moroccan/Indian beauty VJ-ing on a Mumbai-based satellite music channel. Bring on the Bhangra!

0000000

Lost and found New entry Before Lost In Translation, Scarlett's film career had been a little bit, erm, crap. (Home Alone 3 and Eight Legged Freaks anyone?) However, one cool flick with rubber-faced Bill Murray later and the lady is not only hot Hollywood property but also firmly in with the FHM massive. Maybe it's got something to do with Johansson's - and let's be fair, our - favourite feature: her breasts. "I'm proud of my girls," she says, "they're my charms, my feminine wiles."

# 67 CAT DEELEY

Saturday superstar Last year: 67 Successfully replacing lanky beardo Matthew Kelly in mum-friendly karaoke show Stars In Their Eyes, Cat's big hair and slinky Brummie tones are rarely off our Saturday widescreens. And we continue to praise ITV's clever suits for sticking with the 28-year-old with a saucy twinkle in her eye. Ant and Dec may have left *Cd:UK* in favour of torturing idiots in Oz, but that's fine with us, because it provides 66% more Cat time after Friday night's Stella date. Whoop!

## 65 LISA SNOWDON

Healthy appetite Last year: 38 Since she was discovered shaking her booty in a nightclub, the Hertfordshireborn lass has made herself comfortable on the covers of several newsagents' worth of men's magazines. Known to Yanks as the gal who tamed lady-killer George Clooney, we know her better for well, looking terrific in a red swimsuit on those Special K ads. And listen to this: "Sex keeps me in shape. I run off in the middle of the day to make love. It really burns up calories," she purrs.

Californian dream New entry She may be thinner than a Footballers' Wives story line, but the former child star (she starred in her first movie when she was nine and modelled for Calvin Klein aged 11), has finally hit the big time in *The OC*. The half English, half Irish beauty moved to New York when she was a nipper, but our loss was the TV world's gain. As anyone who's missed their gob with their coffee while watching Mischa wander around on-screen in a bikini will testify.

Comeback queen Re-entry You can't keep a good girl down, goes the saying (Given the right concrete weight and rope configuration, we beg to differ). But it's a truism that applies to our Teri. Once a winner of this very poll, she swept all before her like some perfectly breasted colossus. And then she kind of disappeared. Destined for the "where are they now?" file. Teri sprang back to serv consciousness file, Teri sprang back to sexy consciousness in 2004 with her lead role in Channel 4's Desperate Housewives. But you know that.

NEW!

1000

Painted lady New entry In your Dad's day he had to get his kicks from kids' TV presenters such as the granite-faced Valerie Singleton - poor bloke. Luckily for us, there are now an embarrassment of hot young honeys on the box and few are better qualified to soothe a Saturday morning hangover horn than the lithe and lovely Fearne. Granted, she dresses like a gypsy and is covered in tattoos, but that's a cast-iron guarantee of in-bed muckiness, surely?

## 60 EVA MENDES t

Mrs Smith Last year: 88 It was Cindy Crawford who first made moles sexy, but since then this star of 2 Fast 2 Furious has taken up Cindy's melanomic mantle. But she's not just a pretty facial skin blemish. Oh no, you'll find Mendes strutting her stuff as Will Smith's love interest in *Hitch*, and such is the power of her shapely hips that since the slinky Texan was first spotted in the video to Aerosmith's Hole In My Soul, shares in both J.Lo and Beyoncé have plummeted.

## Class act Last year: 92

Sienna Miller is one of those A-list celebs who look mighty fine even when caught unaware by a pap's prying lens. Annoyingly, pictures of Ms Miller now tend to include that fiancé of hers, Jude Law. It's easy to see why Sienna caught Jude's eye on the set of *Alfie*; her fresh-faced foxiness and posh plummy tones would make any lad about town turn over a new leaf. And maybe he caught her looking *amazing* in stockings and a basque in *Layer Cake*.

1

Flavour of the month Re-entry The woman with the crazy, wobbly voice - she can hit notes two octaves higher than it was thought possible for a human being-looked as if she was set to completely lose the plot a few years back. We mean, starring in a movie with *Max Beesley* for Christ's sake. But R&B's favourite headby mama has returned with a rather hoochy mama has returned with a rather good new single and celebrated it with this month's FHM cover shoot. We're sure you'll all agree she looks better than ever.

# 57 JESSICA ALBA

.

Heart-attack hot Last year: 35 A melting pot of what seems to be globally hand-picked good looks (thanks to her French, Danish, Mexican, Indian and Spanish roots) Jessica has heart-sinkingly stated that she'd never do a nude scene or pose topless. Even more worrying for fans, she's appearing in forthcoming superhero blockbuster *Fantastic Four* as the Invisible Woman. *FHM* will be freeze-framing *Sin City* instead where freeze-framing Sin City instead where Jessica plays... a stripper!

# 56 CHARLOTTE MARSHALL

NEW!

Breasts etc New entry True or false - Charlotte Marshall was in last year's 100 Sexiest book? True. But false also. Confused? Well, dear reader, former High Street Honey Charlotte was on the cover of last year's supplement! Look again - yes, that's her hot bod, make no mistake. The killer figure's also popped up in the FHM Championship Of Women and on Page Three (accompanied by a face, usually). We sure you're all eternally grateful to FHM for making this happen.

## 55 CHRISTINA MILIAN

NEW!

## Costume girl New entry

Here at *FHM* we take a keen interest in female pubic hair styles. So when we chinwagged with singer/songwriter/ actress/everything bloody else, Christina, in last November's issue, we had to ask her if she'd dyed her "area" to match her newly blonde locks (She tried, but it didn't work). She also told us that she'd dress up in the bedroom for the right guy – "School girl, nurse, whatever." When you're watching her in hit flick *Be Cool*, think of *that*.

Hardy perennial Last year: 42 Another year, another predictable entry for Cameron Michelle Diaz in our big list o' girls. Apart from being snapped, arched of back and impossibly pert of bott, atop a surfboard, Cameron has shot WASPS -Ton Gup for girls, and proposed for School 2 Top Gun for girls - and prepped for Shrek 3, hoping to beat the rumoured \$10 million she pocketed for talking a bit over the last toon. All of which averts attention from her engagement to squawky boob-exposer Justin Timberlake.

Ţ

## 52 HEIDI KLUM

Continental cleavage Last year: 40 Since booting Brillo-haired Eyetie playboy Flavio Briatore out of her life, Germany's greatest gift to mankind since the bratwurst hasn't been sulking indoors. Instead she's continued to pout down the world's catwalks while branching out into TV and - bizarrely - putting her name to shoes (in collaboration with lezzer faves, Birkenstock) and sweets. A pre-Christmas engagement on a Canadian glacier to crater-faced warbler Seal, topped her year.

Trademark blonde Last year: 36 Having made the big fat boo-boo of turning down Teri Hatcher's role as "lead, hot, desperate housewife" because she didn't want to dye her hair - "Blonde is my trademark so I said no," Pammy made up for her gaffe by getting near-naked and phoning FHM. Doing her latest FHM interview wearing only her panties was a highlight of 2004. As was the way she saddened scores of beavers by ditching her Canadian roots and becoming American.

2

# 49 JORDAN

## Boomtown boobs Last year: 8

There's much to say about Jordan, but we'll do the decent thing and just discuss her breasts. Sod Peter Andre and her emerging pop career, we've only got eyes for "Billy and Bob", as she's christened them. From Page Three honey, we've watched the pneumatic bombshell literally grow and grow before our very eyes. Apparently she's been chatting to Carmen Electra about a TV show they could do. Carmen and Jordan just think, it could replace *Newsnight*.

ł

Sweet Mary Jane Last year: 49 Having spent nearly her whole life as an actress (she made her debut in a TV ad, actress (she made her debut in a tv ad, aged three), the fact that grown-up Kirsten's now a sex symbol can cause awkward moments during Christmas family films. Feeling "odd", watching *Jumanji*? "Dirty" as you settle down to *Small Soldiers*? Best stick with adult fare – but dodge the ghastly girl-flicks peppering the radar (*Wimbledon*) until *Spider-Man* 3 draws you back to the 'plex in 2007.

## Wild thing Last year: 44

It's been a happy nude year for Denise, who stripped for *Playboy* to reveal a finely toned bod. Poor estranged husband Charlie Sheen must now wearily thumb the pages, a forlorn figure. And Denise is about to give brith to their second sprog too. It's like an episode of *Trisha*! At least it hasn't stopped her from popping up on our cinema screens, most excitingly in Spanish movie *Whore*, where Daryl Hannah lures her into the world of hookers. Result.

17.43 990

Comely co-eds Last year: 23 Like boobies, chromosomes and Twixes, all the best things in life come in pairs. And so it is with Mary-Kate and Ashley. The multi-millionaires are now balancing their film work/TV shows/world domination with getting an education at NYU. As the twins prepare for their second term, rumours that they've developed a fondness for cider and black, Pot Noodles, joss sticks, lava lamps and challenging guitar music, can neither be confirmed or denied.

Bra-shy Honey Last year: 28 You made her... and how does she repay you? Amply. Not only did the lovely Kayleigh make her singing debut - in a Euro 2004 ditty with some other lovelies - but she also made a worthy appearance on *FHM*'s own record, *Da Ya Think I'm Sexy?* (answer: yes). She spent her remaining time on the London club scene, mostly bending over to buckle her shoes and reveal that bra-shopping is low on her "to do" list. Oh. shopping is low on her "to do" list. Oh, and did we mention she's single?

↓

Old enough New entry Big-lipped Bradford lass and one-fifth of Girls Aloud, whose October 2004 FHM Girls Aloud, whose October 2004 FHM cover shoot stirred man-parts countrywide to medically dangerous levels. Kimberley originally didn't make the final ten in TV cattle show talent contest *Pop Stars*, fact fans, until one qualifier was found to be too young and was kicked out. Cue celebrity lifestyle, hit album and barreloads of cash for Kimbo; Tesco's and baby buggies for Ms Underage. Showbiz, eh?

## 43 KRISTIN KREUK

## Super girl Last year: 16

Smallville's girl-next-door recently returned for another series, looking hotter than ever. The 22-year-old half Dutch, half Chinese beauty has also been busy flogging girlgunk Neutrogena; ironic, as her parents forbade young Kristin from ever wearing make-up. It was that fresh-faced look that landed her first role in Canadian soap Edgemont, when the producers told her school to put forward any pupils they thought looked "exotic". The rest is history...

## 42 HOLLY VALANCE Ŧ

Nice ice baby Last year: 5 A year spent Stateside has paid some dividends for LA's latest glamorous resident. After turning down *Nip/Tuck*, reportedly because her character would be involved in a threesome, Holly secured a role on *CSI Miami* and an appearance a role on CSI Miami and an appearance alongside Paris Hilton in National Lampoon's Pledge This. Best of all, though, were her shots for Queen Elton's charity book due later this year, dressed in just a pair of shoes and some diamonds.

# TANYA ROBINSON

Original Honey Last year: 32 FHM's first High Street Honey has had one heck of a year. After opening her own club and bar in her native Yorkshire, Tanya was also the, er, face of Ann Summers. Plus, she had the "privilege" of throwing herself out of a plane on Sky One's *Fear Factor*. The plan for world domination continues, with Tanya set to launch a pop career as part of a trio of hotties including fellow Honey finalist Charlotte Gaskell. At last, *Top Of The Pops* will be worth watching again!

Heaven scent Last year: 13 A previous winner of our esteemed poll - she claimed the crown in 2002 - Anna continues to look stunning in pap shots while pretty much having knocked tennis on the head. But with pins like that, who cares if she couldn't beat a blindfolded Serena Williams? Not only can you ogle the Russian lovely but you can now smell like her too with her own fragrances, Simplicity and Anna Kournikova Man. Going to give that one a miss? Thought you might.

## **39** DELTA GOODREM

1

## Pink lady Last year: 98

Ozzie songstress Delta has had another rather good year, shifting several more truckloads of shiny CDs (sample lyric: "I'm gonna love you like it's the last night on earth") and making a movie, *Hating Alison Ashley* (teen-angst flick, avoid unless you're a girl). Delta's also recently beaten a lifethreatening illness and dated Brian, former Westlife berk. Hardiness, sexiness, loveliness and magnificent architecture – what more could you possibly want?

# **38** NIKKI SANDERSON

NEW!

Telly teaser New entry Wearing catsuits on Coronation Street, dressing up as Britney (schoolgirl era) on Stars In Their Eyes and strutting across FHM's Da Ya Think I'm Sexy? video in a minuscule pink dress - Nikki has steamed up pretty much every TV screen in Britain this year. Folk back in her hometown of Blackpool must be envious to the point of bursting - many of them don't even have their own teeth, let alone a body to send the entire nation into a tizzy.

# **37** KYLIE MINOGUE

1

Sex institution Last year: 19 You think Britain loves Kylie? Look what the Aussies have done to the lingerie-pushing pop minx: put a painting of her in the National Portrait Gallery, Canberra. Given her a record nine consecutive number one hits. Awarded her a "Gold Logie" as the country's most popular TV performer and put her on a *stamp* for pity's sake! But what do we do here in Blighty? Ask her to be the voice of Florence in *The Magic Roundabout*. Let us hang our heads in shame.

# **36** MARIA SHARAPOVA

Russian muffia New entry There's a new Russky blonde on the tennis court, and Maria actually tends to make it to the final. This means more of her long bronzed legs springing round the court, which is a very good thing. She started hitting balls at the age of four and eventually became six foot tall, damn good at tennis and hot. After winning Wimbledon last year she's on her way to adding "filthy rich" to her list of attributes, snagging lucrative deals with Prince, Nike and NEC.

# **35** NADINE COYLE

1

Irish blood, English band Last year: 46 It all might have been so different. The Irish It all might have been so different. The Irish fifth of Girls Aloud was disqualified from the Irish version of *Popstars* for fibbing about her age, which just meant that she waited a year and us lucky lot got her instead. After winning *Popstars: The Rivals*, we were pleased to see Nadine get in with a good crowd by joining Girls Aloud, an environment where she's encouraged to scorn proper skirts and generally show as much delectable flesh as possible.

## **34** TERA PATRICK

## Porn royalty New entry

In a battle that we imagined involved a vat of baby oil and the shedding of all clothes, Tera stole the crown from the head of former *FHM* sex columnist Jenna Jameson to become the world's biggest adult entertainer. We celebrated this fact by making her the gloriously naked centre-piece of our *FHM* porn special and our new sex columnist. We're sure that had nothing whatsoever to do with her stratospheric rise through this here list.

NEWI

Breasts glorious breasts New entry It's all about them boobies. Them lovely, lovely boobies. Hitting Page Three with the devastation of a nuclear blast, Michelle has single-handedly dictated the renaissance of the all-natural, massive "Eighties" nork. Never snapped far from the side of equally titanically-endowed buddy Lucy Pinder – Lucy always on the left, Michelle on the right – the Oldham born lass's irresistible rise shows no sign of slowing. And she even snared an Oldham FC boyfriend on the way.

## 32 JOSS STONE NEW!

Young soul diva New entry Out of the depths of Devon comes Joscelyn Eve Stoker, aka Joss Stone. She's barely legal, little, blonde and cute as a button, but has a voice that's almost at the inhuman level of soul divas like Aretha Franklin. And, of course, she's a hell of a lot better looking too. She's been for dinner at Tom Cruise's, done a duet with Mick Jagger (leave it alone, old man) and belted her little lungs out to the nation six months ago on Band Aid 20. That girl got soul!

## JENNIFER GARNER 3

Elektric booty Last year: 33 Count your lucky stars that the Texan slice of loveliness you see before you didn't complete the chemistry major she enrolled in at university. She re-enlisted for drama instead after the pull of the limelight proved too strong. Without the delectable Ms Garner a whole plethora of Hollywood movies, including this year's action-splattered *Elektra*, would have sorely missed the inch-perfect star. The science lab's loss has been man-cinema's gain.

Brains and beauty! Last year: 90 Whilst sister Ashlee took a panning in 2004 after being caught miming, big sister Jessica made men worldwide fall to their knees after pictures of her in a Dukes Of Hazzard bikini snuck off the set of her latest movie. On top of her trousers-straining presence in Osbournes-style reality show Newlyweds (alas she's married...), the seductive songstress is rumoured to have an IQ of 160, which technically makes her a genius. Einstein certainly never looked this good.

# 29 VICTORIA SILVSTEDT

Fighting. Fit Last year: 27 Sweden's most loved blonde since Sven went grey has gone bonkers of late. Maybe it's because of her crippling addiction to visiting lapdance clubs, maybe it was all that time spent cuddling a naked Abi Titmus for her FHM cover shoot - whatever, she's just ditched modelling to take up wrestling. That's right - she's started attacking celebrities Hulk Hogan-style. Vixen victims set for a pounding include Michelle Heaton and Kate Lawler. Sweet.

Ť

## 28 TINA O'BRIEN

## Street cred New entry

The pint-sized soapster squeezed an incendiary – and first ever – *FHM* cover shoot into her *Corrie* filming schedule, an act of humanitarian aid for which we are all eternally grateful. In the accompanying interview she revealed she's a big boozer and has the best norks on the show. A fact anyone who reads the tabloids already knows from gazing longingly at shots of Tina falling out of both a nightclub and her dress at around about the same time.

## 27 HALLE BERRY

## Sex kitten Last year: 6

*Catwoman* may have been an unmitigated disaster, but it did feature the lithe, gorgeous Halle in a figure-hugging second skin and that was worth the entrance money alone. One man who obviously didn't see it was her roving-eyed berk of a husband Eric Benet, who finally got the bullet in January this year - meaning Ms Berry's a free agent again. Other reasons to be cheerful: she's half-Brit and apparently she loves British men.

## Amercian sweetie pie Last year: 20

₽

Propelled to stardom starring opposite giant potato headed Dawson in *Dawson's Creek*, Katie found a place in our hearts playing girl next door Joey. The sylph-like Holmes can soon be seen in *Batman Begins*, as a mate of the caped crusader. Of course, it would be wrong not to mention her role in scare flick *The Gift*. The film's pretty dull, but Holmes plays a corker - she drops her dress to reveal nowt but tiny panties. Get thee to Blockbuster.

## 24 KIRSTY GALLACHER

Another year, another series of Kirsty's Home Videos - worth the cost of Sky+ alone! And it's the Queen's favourite show (although we reckon Liz never misses an episode of Shameless). We won't beat about the bush; Kirsty's surely here for two reasons and two reasons alone - the one on the left and the one on the right. They're perfect, and we love them. But she has a regular fella - a rugger bugger - and that makes us sad. Anyway, get Sky. Now.

Filthy rich girl Last year: 59 Rock on! Paris has made another movie! Alas, this one isn't a "home-made" effort, it's a real flick about waxwork models that come to life and eat the brains of sexy chicks. Mmm. Maybe she's better off sticking to doing party animal stuff like opening her own multi-million dollar nightclub (called Club Paris in Orlando) just so she can get bladdered with her hot partners in sexy carnage - the lovely Tara Reid and younger sis Nicky.

Ļ

Cheeky diva Last year: 7 Only a cave-dwelling blind man could fail to know that the scrumptiously-arsed J.Lo is a regular in this poll's upper reaches - making three headline-grabbing appearances and reigning for two years as the World's Sexiest Woman. She's bounced back from movie raspberry *Gigli* and a tabloid-saturating break up with bum-chinned Ben Affleck, to movie and music industry domination. The bad news? She's hitched again, to warbler Marc Anthony.

₽

Footballer's wife Last year: 17 It's hard not to love Louise. Ever since we first clocked her on the cover of our sister's Eternal album, we knew she should be our girlfriend. When she started wearing less and went solo with the album Naked, we decided we'd even hold her hand in public. When she revealed she'd always got a kick out of her brother's porn, it was love. Then she married Jamie Redknapp. Oh well. Last year you crowned her the Sexiest Woman of the Decade, and we trust you.

# **19** ALYSSA MILANO

Little charmer Last year: 18 Another year, another FHM cover for Ms Milano. Yes, you'll no doubt remember the lovely - and currently, brilliantly single -Alyssa gracing the pages of FHM earlier this January while the finest cleavage we've seen in years. But there's more than a cracking pair of norks to the lass, as anyone who's joined their younger sis in watching Five's soppy witches show Charmed will confirm. Fine actress indeed, now... back to those boobies... those boobies...

A 170

Export strength Last year: 79 Not many women can don two big knives and a woad bikini and get away with it. In King Arthur, our Keira does, and when she gets stuck into the baddies at the film's climax, by God she looks hot. The Londonborn babe wasn't that bad either in The Jacket, the dopey time travel drama in which she gets topless - twice. We're now looking forward to seeing Pirates Of The Caribbean 2 on our screens in 2006. Knightley, walk this plank....

## **17** JENNIFER ELLISON

Sauce with that? Last year: 29 The combination of a magnificent rack and a magma-hot body have ensured that Scouse Jen remains one of the nation's most eye-puncturing blondes. Appearing alongside the similarly pillow-chested Abi Titmuss in reality TV show *Hell's Kitchen* did the Merseyside beauty no harm either. Add that to wowing West End theatre goers in *Chicago* and a big screen role in *The Phantom of the Opera*, and her year's been as cool running as her beloved Everton's.

# 16 LUCY PINDER

Love Lucy New entry You never know what an afternoon of You never know what an afternoon of beachcombing in Bournemouth will turn up. It might be a few bits of broken crockery; it might be a spade lost by a child; or it might be the sandy contours of a future Page Three stunner. Since Lucy was discovered sunbathing in the summer of 2003, she's developed a massive following. Appearing barely dressed with fellow Page Three lady Michelle Marsh in Zoo can't exactly hurt either.

# 15 CARMEN ELECTRA

↓

Body beautiful Last year: 4 We're still grinning daftly as we reminisce on Carmen snogging Amy Smart in Starsky And Hutch. And the former Baywatcher hasn't let us down this year, teaming up with another FHM fave Jenny McCarthy in Dirty Love. Insert your own bum sex gag here. And to tide you over, get Carmen's Aerobic Striptease Workout DVD; it features (their list) sensational choreography! Professional chair work methods! And revolutionary "Heads-Up-Display!" Er, great.

# 14 LINDSAY LOHAN

## NEW!

All grown up New entry Cunningly inserted into fluff like Freaky Friday and Mean Girls to keep male attention when we're dragged into cinemas by ladies, Lindsay has wisely spent the last year transforming Disney's dollars into partying in LA. Still only 18, she deserves better than Uncle Walt's saccharine fare as proved by a clip from the US's Saturday Night Live, which hit the web last year. Her "blossoming" Hermione caused a million Harry Potter fans to grow up overnight...

# **13** RACHEL STEVENS

Fame game Last year: 2 Ditching her horse-faced bandmates (not you, Tina - we love you) a couple of years back has turned out to be a shrewd move for the former S-Clubber, whose solo career - while a tad rollercoaster-y -has propelled her to the heady levels of bona fide tabloid favourite. So much so, that "important" celebrity magazine *Heat* recently named her as the lady with the best body in the world. Amen to that, brothers. Amen.

Big in Asia Last year: 12 Yes, you still know her from I Know What You Did Last Summer, where the camera locked on to Jen's most bankable assets. But did ye know this? Hewitt's also huge in Asia... for her singing. Skip carefree over CGI disaster Garfield - you can next catch the 25-year-old in Why Can't I Be Audrey Hepburn due out later this year. Mildly-interesting fact: she got her Christian name off elder brother Todd. Jennifer was a girl he had a crush on at the time of her birth.

NEW!

Domestic bliss New entry The best looking of Channel 4's Desperate Housewives (sorry Teri), this raven-haired raver is crafted from lean chunks of Latin loveliness - no fat or gristle, guaranteed -and comes with a delicious savoury sauce. On the show she's the sex-hungry homemaker with an impressive underwear collection. In real life she's a sex-hungry actress - looking for a younger man to satisfy her needs, she told FHM. And she probably has an impressive underwear collection.

## ₽

Your destiny Last year: 3 Whether rocking da mic solo, or alongside her two feisty buddies, Beyoncé is a booty-shakin', choon-belting music industry of her own. Having flogged over 33 million albums so far, she'll be earning more Manolo money rocking the UK in June – the Child's first tour in three years; and then starring opposite once funnyman Steve Martin in the *Pink Ponther* remake. And probably marrying tubby rao chancer probably marrying tubby rap chancer fiancé Jay-Z, the lucky herbert.

## 8 SARAH HARDING

Happy shopper Last year: 25 The best thing FHM ever found? No, no. If you remember, the delectable Sarah initially applied for the first ever High Street Honeys way back in 2002... draped in nowt but an England flag. So technically, she discovered herself. And we'll not complain about *Popstars* stealing her for Girls Aloud. Recently in her stunning FHM shoot (October 2004), Sarah reminded us just why we love her so: "If I nip to the shops, there's every chance I'm commando." Skills.

# 7 ABI TITMUSS

## ſ

Career girl Last year: 95 Apart from something made earlier (mainly out of bog rolls), it's hard to believe we'd ever have anything to thank an ex-Blue Peter presenter/non-rapist for. But John Leslie, sir? FHM salutes thee! Your shy, retiring ex has truly blossomed. Not only has FHM's very own sex columnist now completed the Holy Grail of all female celebs - the tug-a-thonic fitness DVD - but there's even a book in her ever-expanding pipolinol Which can't be comfortable pipeline! Which can't be comfortable.

## 6 BRITNEY SPEARS

h

4

Meet the wife Last year: 1 We hate Britney's husband. Firstly, "Kevin" has bagged a lass somewhat prone to binge drinking, snogging girls, donning a school uniform and wearing snakes like necklaces. Secondly he's called Kevin. But our main reason for us loathing the hubby of the princess of pop, and former sexiest woman in the world, is because his missus lets him go to lan dancing clubs, and still lets him go to lap dancing clubs, and still puts out afterwards. "Big deal, it's a guy thing," says Brit. Dump him. Marry us.

# 5 ELISHA CUTHBERT

Oh happy day Last year: 10 Though the amount of flesh that Elisha actually flashed in *The Girl Next Door* was mildly disappointing - hell, we won't be fully satisfied until she's made a European-strength skin flick - it offered a delicious taste of her fine feminine form. But if Elisha won't get fully naked in a role as a former porn star, we'll just have to hope that in the next series of 24 she gets involved in a plot that involves all her clothes being ripped off. Repeatedly.

# **4** MICHELLE RYAN

Go East Last year: 21 Michelle first hit Albert Square in September 2000, and since then we've watched her blossom, if not into a lady, then into all woman. What a shame then then into all woman. What a sname then that she's decided to head for Hollywood this summer. Watching Zoe Slater scowl and holler at her market stall, we'd never suspect there's quite a posh bird screaming to get out. But Michelle promises that she'll lose her cockney accent when we introduce her to our mum.

## Lip gloss Last year: 9

It's been a turbulent 12 months for Angelina. Consider panned homo-thon *Alexander* for instance. But that all stops now. Because the globe's votes have meant that the blimplipped bad girl has topped our International 100 Sexiest poll. Hard to beat, but next up for Ms Jolie is *Mr And Mrs Smith* - a movie about a bored married couple who learn they're assassins hired to kill one another. So, fingers-crossed, there'll be some ultrahot make up sex. *Fingers-crossed*.

Sweet music Last year: 22 Bizarrely, the Girls Aloud popstrel reckons she has "the world's worst legs". Seems like you lot disagree, quite rightly. As does Ashley Cole, the Arsenal defender whom she's apparently "stepping out" with. Among her confessions to her favourite mag (*FHM*, of course) last year were that she likes a Brazilian, she's almost snogged fellow band member Kimberley and she's very loud in bed. And that nonsense about the legs. Pish, girl!

## **1** KELLY BROOK

## England's dream Last year: 14

When God created woman, we'd like to think Kelly was the prototype. The hair, the curves and those boobies, damn, it's enough to make a grown man weep. And it would appear that you lot out there agree, as lovely Kelly has - as you can see triumphed in our latest poll of wondrous womanhood. If you want to see more of Brook (including nipples!) check her out in the movie *Three*, available from your friendly local video shop. You dirty devil.
