WHAT'S NEXT FOR ASHLEY NICOLE

Photography by Ray Sopczuk (NY)

How was it working with Ray (photographer): It is always a pleasure and a time full of laughs

What are the good things about working with Ray (photographer): It is always a learning experience

Any bad moments: Never

Overall how many photographers have you worked with: Quite a few at this point in time and many more to come

Do you find working with various photographers you are learning more about how to work within the modeling industry: I am always learning and taking it all in. I am not going to be young forever so I plan on enjoying life

On the other hand, are you working with some dips (unprofessional): There are some people you meet who aren't what you expected.

Do you have a stage name that you use in your modeling career or do you go by Ashley only: Ashley Nicole usually

Have you done any other magazine work: No

Commercial advertising, fashion shows and if yes. What was that like for you: I have done some commercial advertising for Shark Energy Drink (which is fantastic and I recommend it) also have done some fashion shows, which have all been great

Do you find a difference in fashion shows and print work? Moreover, which do you prefer: Fashion shows you're told when to walk and how to walk. Print work you can be more yourself. I prefer print work that's when I look my best

We have looked at Ray's photos of you and we were very impressed. You hold your looks well and show a strong professional body posture. These are features not learned but a model should have within her/his self. Any background in modeling before you decided to go at it: I have been doing beauty pageants since I was a child, so in a sense that was like a fashion show. You always have to smile and be ready to get your picture taken.

Does your family support your decision: Yes, they are a very strong support system and I'm blessed to have them. I love them so much and think my mind set would be off key if they

didn't believe in my dreams

We know glamour, beauty and sex appeal is always a very important part of modeling.

What I would like to know how are you going beyond the beauty part and using more of your talents towards furthering your career: I can't say that when I look in the mirror I feel I have sex appeal. I hope to be a good role model for the next generation and as I continue to learn and grow share my learning experiences

What other goals have you set for you: My two passions in life are modeling and writing. I'd really love to be a famous model as well as a writer before the age of 30

What have you been doing so far in 2009: O- Nine! What a busy year filled with travels and so many great photo shoots. I've met some people I'll never forget

Where do you want to be with your career in 2010: I'd love to be on the cover of Maxim or any magazine really. I want everyone to start learning my name

Where do you find the most opportunities for modeling on the East Coast: I search for them. I started out with a modeling agency and realized one day that I could do it faster on my own. Model Mayhem and One Model Place is two amazing sites to find work on

Any advice for those models wanting to get into the modeling industry: Be yourself and don't be afraid to fail. We all fail so we can learn to come out stronger the next time around

How do you find today's modeling compare to when you first started: I find it more pleasing and exciting. I know what I'm in for when I'm getting ready for hair and makeup. I've also learned how to pose over the years

Are you twittering and if yes "what is your twitter name": No, I'm not a twitter yet

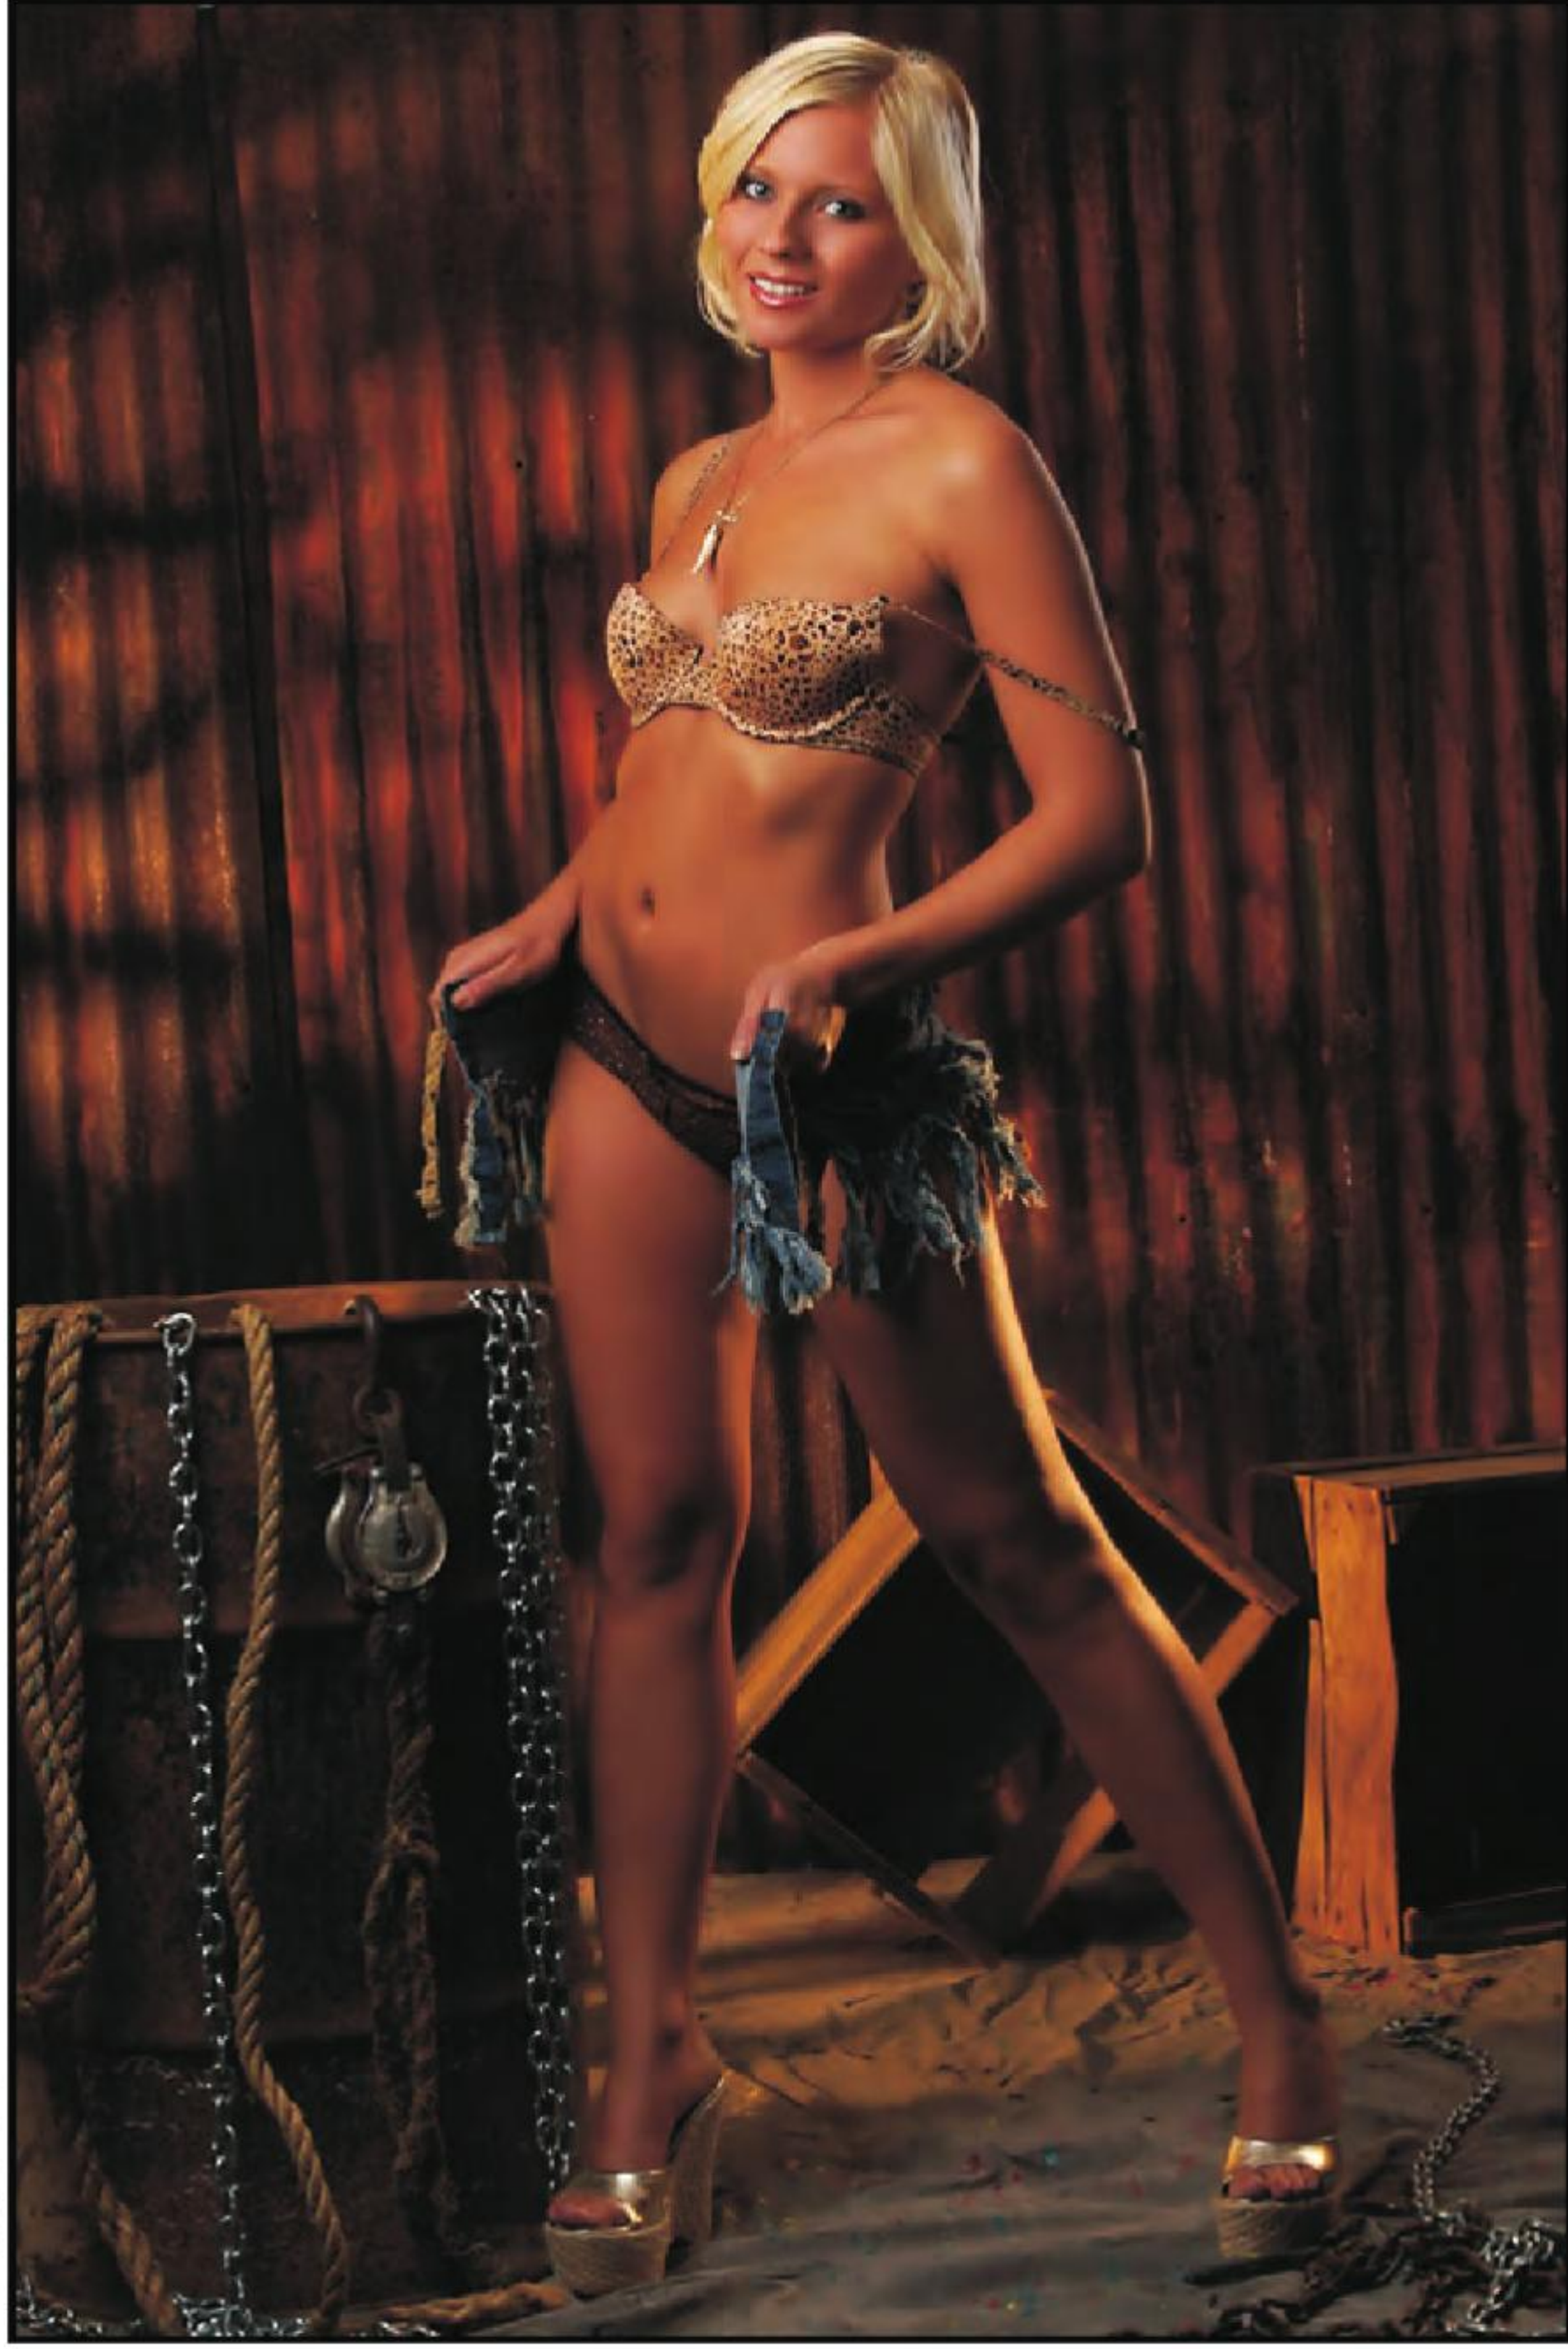

Do you have a website or MySpace page and what are they:

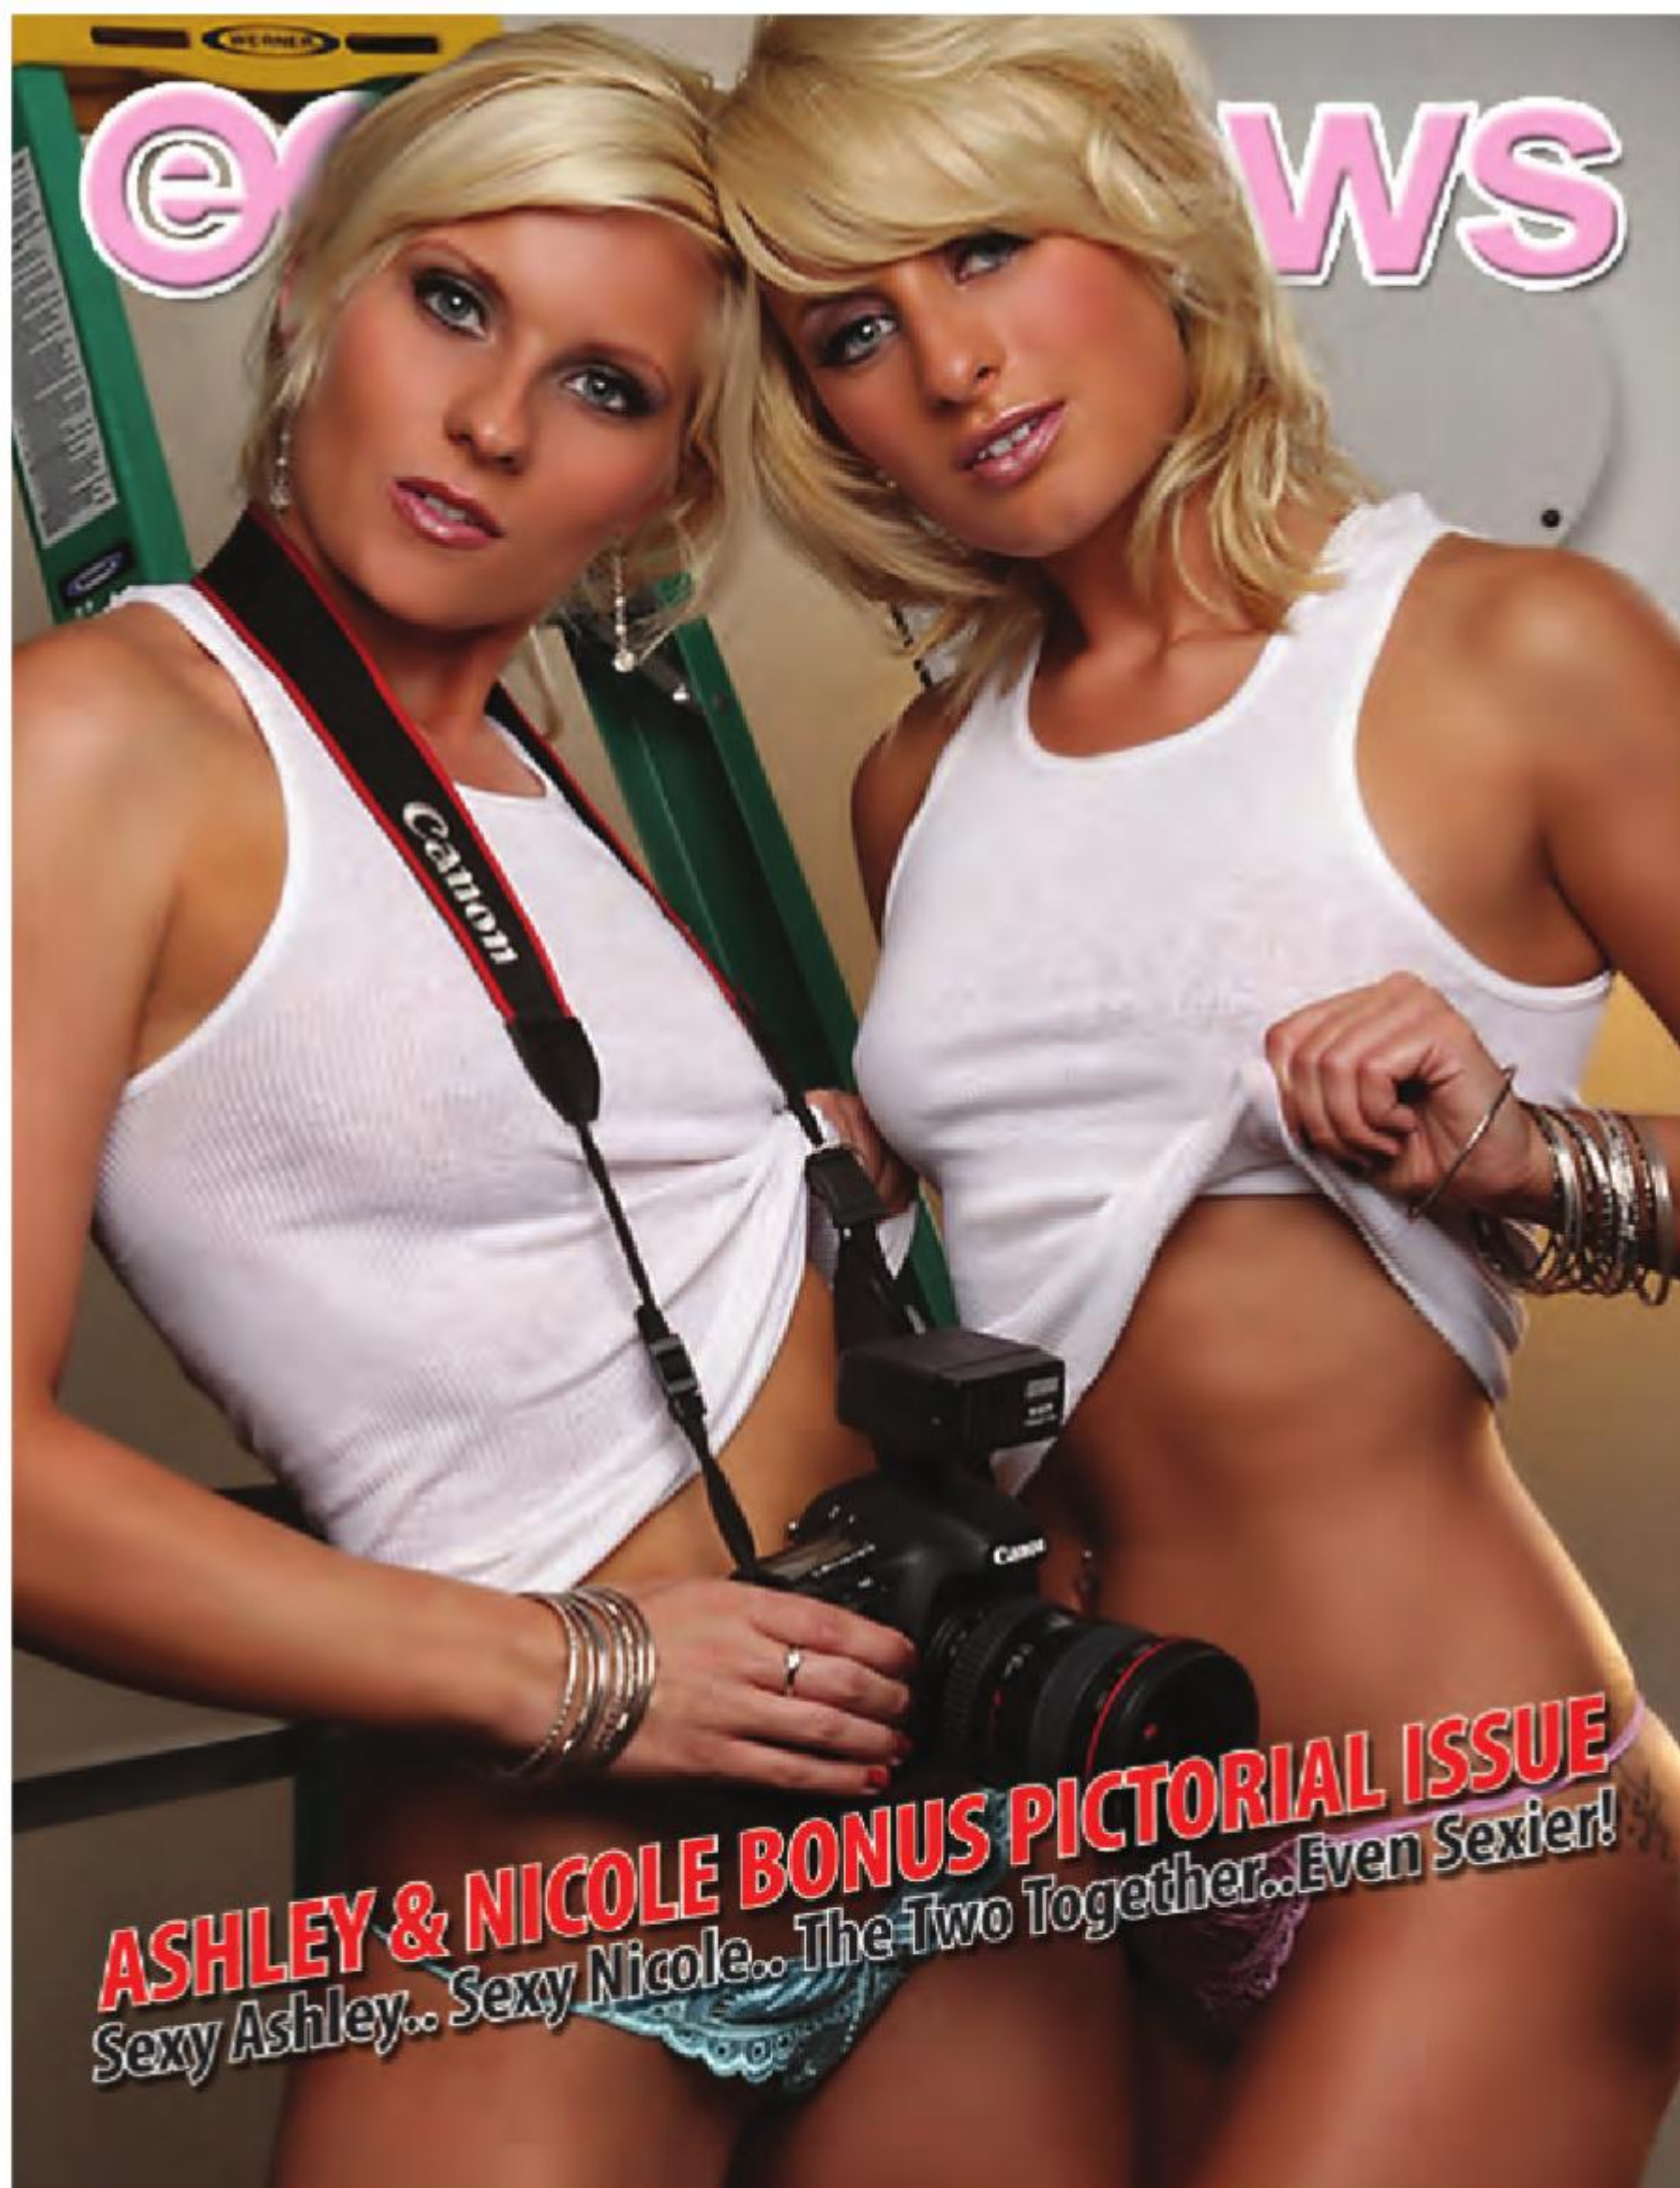

www.myspace.com/ashlexnicole check me out

What is next for Ashley Nicole: I am all about living for each moment. So next could be an endless number of things. I hope something grand.

Any last thoughts you would like to share with our readers: Everything was beautiful and nothing hurt. Every song fades or cashes way, I still enjoy the music. It is just life. I'm living mine are you?
