EXOTIC AUSTRALIAN BEAUTY

LEAH MAREE

PHOTOGRAPHY: NICK KRZYWDZINSKI

My name is Leah Maree and I'm a 22 year old model and business owner from Brisbane, Australia. I grew up as a child watching my mom model and I remember I always used to see her profile inside of fashion books and on business flyers. From then I always had a fascination with modeling. At the age of 12, with the encouragement from my mom, I enrolled into a Department & Finishing modeling course in an attempt to try and pave my way into the modeling world.

It wasn't really until I was 19 that I started to really ponder the realities of becoming a model. With my very visible tattoos, I didn't think it was possible but decided to try my luck with a modeling competition. To my surprise I won & I was approached by an internationally renowned photographer with his business card and asked to get in contact with him for a shoot.

He told me I had a very exotic look that would do well in this industry. Due to my lack of confidence at the time (even though I won my first competition), having compared myself to the successful local models in the industry, I didn't feel good enough about myself to contact that particular photographer and put away his card.

I started off very slowly, booking portfolio shoots to see if it would get me noticed. The more I put myself out there, the more I felt

comfortable about my image. I began to find myself in the modeling world & became more accepting of my image & where I stood as a model. I entered a few more modeling competitions and although I never placed again, I made finals in a number of nationally recognized competitions which was a huge accomplishment for me.

After working with various photographers and landing my first cover feature in an Australian men's magazine, I eventually worked up the confidence to contact the photographer who approached me from the very beginning - who his card I still had tucked away in my purse 1 year later. We collaborated twice within the year & scored 2 features in Australian men's magazines. I took it upon myself to continue working with reputable photographers and expand my network. Over the last 2 years I have worked hard to build a strong network which has led my career to more exposure and more publication work. With every success & every fail I realized that I can't compare my wins or my loses to anyone. I am my own competition & I have something unique to bring to the table. What I have to offer is something that is different to other models and while I understand that my look isn't for everyone, I have and will continue to work with what I have & work very hard at it.

MODELING FUN

Last year I was able to really establish my career path working with some of the best professionals in the industry including the amazing Nick Krzywdzinski who provided me with an opportunity to shoot in Las Vegas, Nevada. That was absolutely the biggest highlight of my career at that point as I have never shot internationally before. In 2013, I also launched my modeling website, traveled Australia promoting myself and selling signed merchandise. I pulled out all stops to market myself in the best way I knew how.

As 2013 came to a close, I felt I had accomplished so much in such a short period of time & wanted more.

I felt as though I had a big enough network to start my very own agency in Australia and help other girls reach their goals & get as much as they can out of the industry while also still focusing on my own modeling career. I am now the proud owner of my own modeling & adult entertainment agency in Australia.

The appreciation of seeing all of my hard work go into something that has become so successful in a matter of months is the best feeling in the world. I've worked hard to get this far and have never felt so passionate about anything. With my business in full swing, my modeling career has also sky rocketed this year with multiple national and international cover features. I like to think that I'm lucky to get this far but it took a lot of hard work, persistence & finding myself to be a success.

I can only look forward to the obstacles that lay ahead for my career and my business as they've shaped who I am and how far I've come today.

Leah xoxo

GLAMOUR MODELING 101

BY HEATHER SHANHOLTZ

MANAGING YOUR FINANCES

AS A GLAMOUR MODEL IT IS TOO EASY TO GET INTO NON STOP SPENDING MODE!

As a glamour model managing your finances can be very difficult. Anyone in the entertainment industry finds it hard to do so considering you will always think the money will continue to roll in. When you become successful it's easy to fall into the trap of over spending not knowing for certain if that money will continue to come in at the same rate as before. If you are a glamour model you will find it's even harder due to the fact that most of us do not have contracts with agencies and companies that a fashion model would have. This is why you have to be smart with your finances and also very smart with the agencies you are signed with. Myself for example will not sign an exclusive contract with any agency unless they were offering me a huge sum of money. I always sign non exclusive so that way I control my own career in the end and it doesn't limit me on what I can and can not do.

I remember one of my first really big jobs where I made good money I immediately went to my professional job and put in my two weeks notice, thinking that I had finally made it as a glamour model and from there on out every job would be the same. That wasn't the case and at that point it took me almost 3 more years to get a job that paid the same amount of money. I had to go back and get myself another job as a civil engineer to be able to pay my bills. The best advice I can give on glamour modeling is to always have a backup plan and also to be smart with your finances. Finances are extremely important no matter what type of job you have.

Finance management is not taught in many schools but is definitely something that the majority of people have to deal with at one point in their lives. It is estimated that you need about \$ 300,000 to live comfortably after retirement and this is where finances come huge into play.

WHERE WE GO WRONG AND HOW TO FIX THINGS

What most glamour models do wrong is that we spend way too much on our appearances. Hair, nails, tanning and skin care alone can be outrageous. As a model it's obvious that we care about our looks and go to the extreme to always be and look our best. This will also include pricey shopping trips. It's really hard to go into a store and knowing that you can afford something pricey and to just drop the money on it and think that you can easily make that money back. Wherever you can save money you should try to do so. A huge positive factor being in the entertainment industry is that we can get things comped and sponsored for us. More than likely if you are making good money in the industry you will also have a good following on your social media and the internet and that is what will get you sponsored and comped with clothing and accessories for the shoots you need to provide your own things for and for personal use. Currently I am sponsored by bikini companies, clothing and accessory companies and even an athletic wear company. If I stumble upon a company that I really like I will personally write them and ask if they would like to sponsor me for photo shoots and personal use and in return I promote for them and mention them on all of my social media and interviews. This will cut down cost and make it easier to manage your financing so you aren't going overboard. This also works with nails, tanning, hair and skincare. A lot of times I will get things at cost and way cheaper than most and leave gratuity. It never hurts to ask to cross promote with any company or product and if they agree it will save you a lot of money.

It is important to make smart investments. Familiarize yourself with different options on investments. The more you know about investing the better off you will be in the long run. The stock market is a good way to invest but don't gamble with it. A lot of people try to day trade and bet on small gains and losses everyday. This is time consuming, very risky and more like gambling than investing. You should invest for the long term and invest for 10 years or more. Personally, I always look at mutual funds when buying stocks because it has a more minimized risk. Always remember that if it is too good to be true than it probably is.

Budgeting is a huge factor in financing your money. For one month you should collect all of your receipts and log everything you have spent including all of your bills. Narrow all of your spending into categories

like shopping, personal care, groceries, rent/mortgage, dining, medical, entertainment, gas and household bills for example. Now take your average monthly income and figure out how much you are saving versus how much you could be saving. When you see how much you are spending on things you didn't actually need you can readjust your spending for months to come. Setting a budget will open your eyes to how much you are really spending. Most people overspend on petty things that they don't really need and especially us models. The knowledge you obtain with a budget will allow you to adjust your spending to more things that are meaningful. You never know when you may have to pay for something unexpected such as a car problem or a medical issue. Managing your finances allows things to be easier when there is an emergency. To make it easier you should try an app to help you out. I use the Mint Personal Finance app on my phone and it's free of charge, user friendly and a great way to keep track.

Pay your bills early to give you a grace period. I always pay my bills as soon as my statement is ready. This allows me to have a grace period for myself even if I'm late on a bill I'm still not technically late. It's a really good discipline to have. This will also alleviate stress you have from a late payment and will also save you money by not having to pay late fees that would occur. If you have a loan out for a mortgage, car or whatever it may be try to pay it off early if you have the means to do so and pay more than the actual amount due. I don't like to have debt or open loans and I try to make sure to get those out of the way first before spending money on entertainment purposes.

Credit cards are important to have to help establish credit for when you do need to take out a loan. If you have good credit it will lower your interest rates and increase opportunities for new loans. You should always treat your credit card like cash because that's exactly what it is. If you can't pay off a credit card every month be prepared for high interest rates and fees. If you don't trust yourself with a credit card start off with a low credit limit and one that you know that you can afford. That way you aren't going overboard and still keep a good credit standing. Remember you should spend what you have on your credit card and now what you hope to make. Having good discipline on all of this will help to keep you out of debt in the future.

You may also want to look into good insurance coverage. Personally I'm a klutz and extremely adventurous so this was a no brainer for me. Do some research and see online what would be the best option for you. I signed up for a plan that will cover me with huge medical bills and emergency room visits. That way I'm paying a lower monthly rate and am covered in an emergency situation. Having insurance will save you in the long run with financing and managing your money when and if a situation like that arises and keep your money in the bank where it belongs.

As a glamour model all of us should have a backup plan in those instances where we have a certain lifestyle and the money just isn't coming in to support our lifestyles. As we know glamour modeling has it's up and downs. There are no guarantees on how steady your income will be and that's why it is important to save. For instance I'm now getting into acting so I have to slow down on the modeling and focus more on the acting. It's important for me to have saved money in order for me to maintain my lifestyle and be able to back off on the modeling a bit. You can't be a glamour model forever and you need to prepare yourself for what you will do in the future. Along with your future, retirement plans come into play. Try going to a financial planner and look at your options. As a glamour model I suggest a 401k over an IRA. Everyone is different though so I would get professional advice and make your decision from there. Just remember that this will be a priority bill added monthly and make sure that you are able to make your monthly payment or it could cost you your money.

When it comes to finances always remember smart people expect the unexpected and have a plan on what they'll do just in case.

Q&A WITH CELIA

HOW DID YOU GET INVOLVED WITH GLAMOUR MODELING?

I entered my first pageant as an infant and have been in love with camera ever since.

WHO INSPIRED YOU IN BECOMING A GLAMOUR MODEL?

There are so many, but I'm truly inspired by Tyra Banks and Heidi Klum. They have both successfully crossed-over into other areas like designing, television production, acting etc. I want to follow in their footsteps!

HOW DO YOU MANAGE TO MAINTAIN SUCH AN INCREDIBLY SEXY BODY?

I work out, eat healthy and sometimes go on a juice fast.

WHAT PART OF THAT SEXY BODY ARE YOU THE MOST PROUD OF?

I always say my sexiest feature is my smile but as for my body, I work hard to maintain it all. However, I do get a lot of compliments on my booty

TELL US ONE UNUSUAL OR UNIQUE THING ABOUT YOURSELF THAT OTHERS MAY NOT KNOW.

People are always a little surprised that I speak 5 languages and that I have a finance degree from New York University (NYU)

WHAT IS THE MOST ADVENTUROUS THING YOU HAVE DONE?

Driving a motorbike in Vietnam traffic

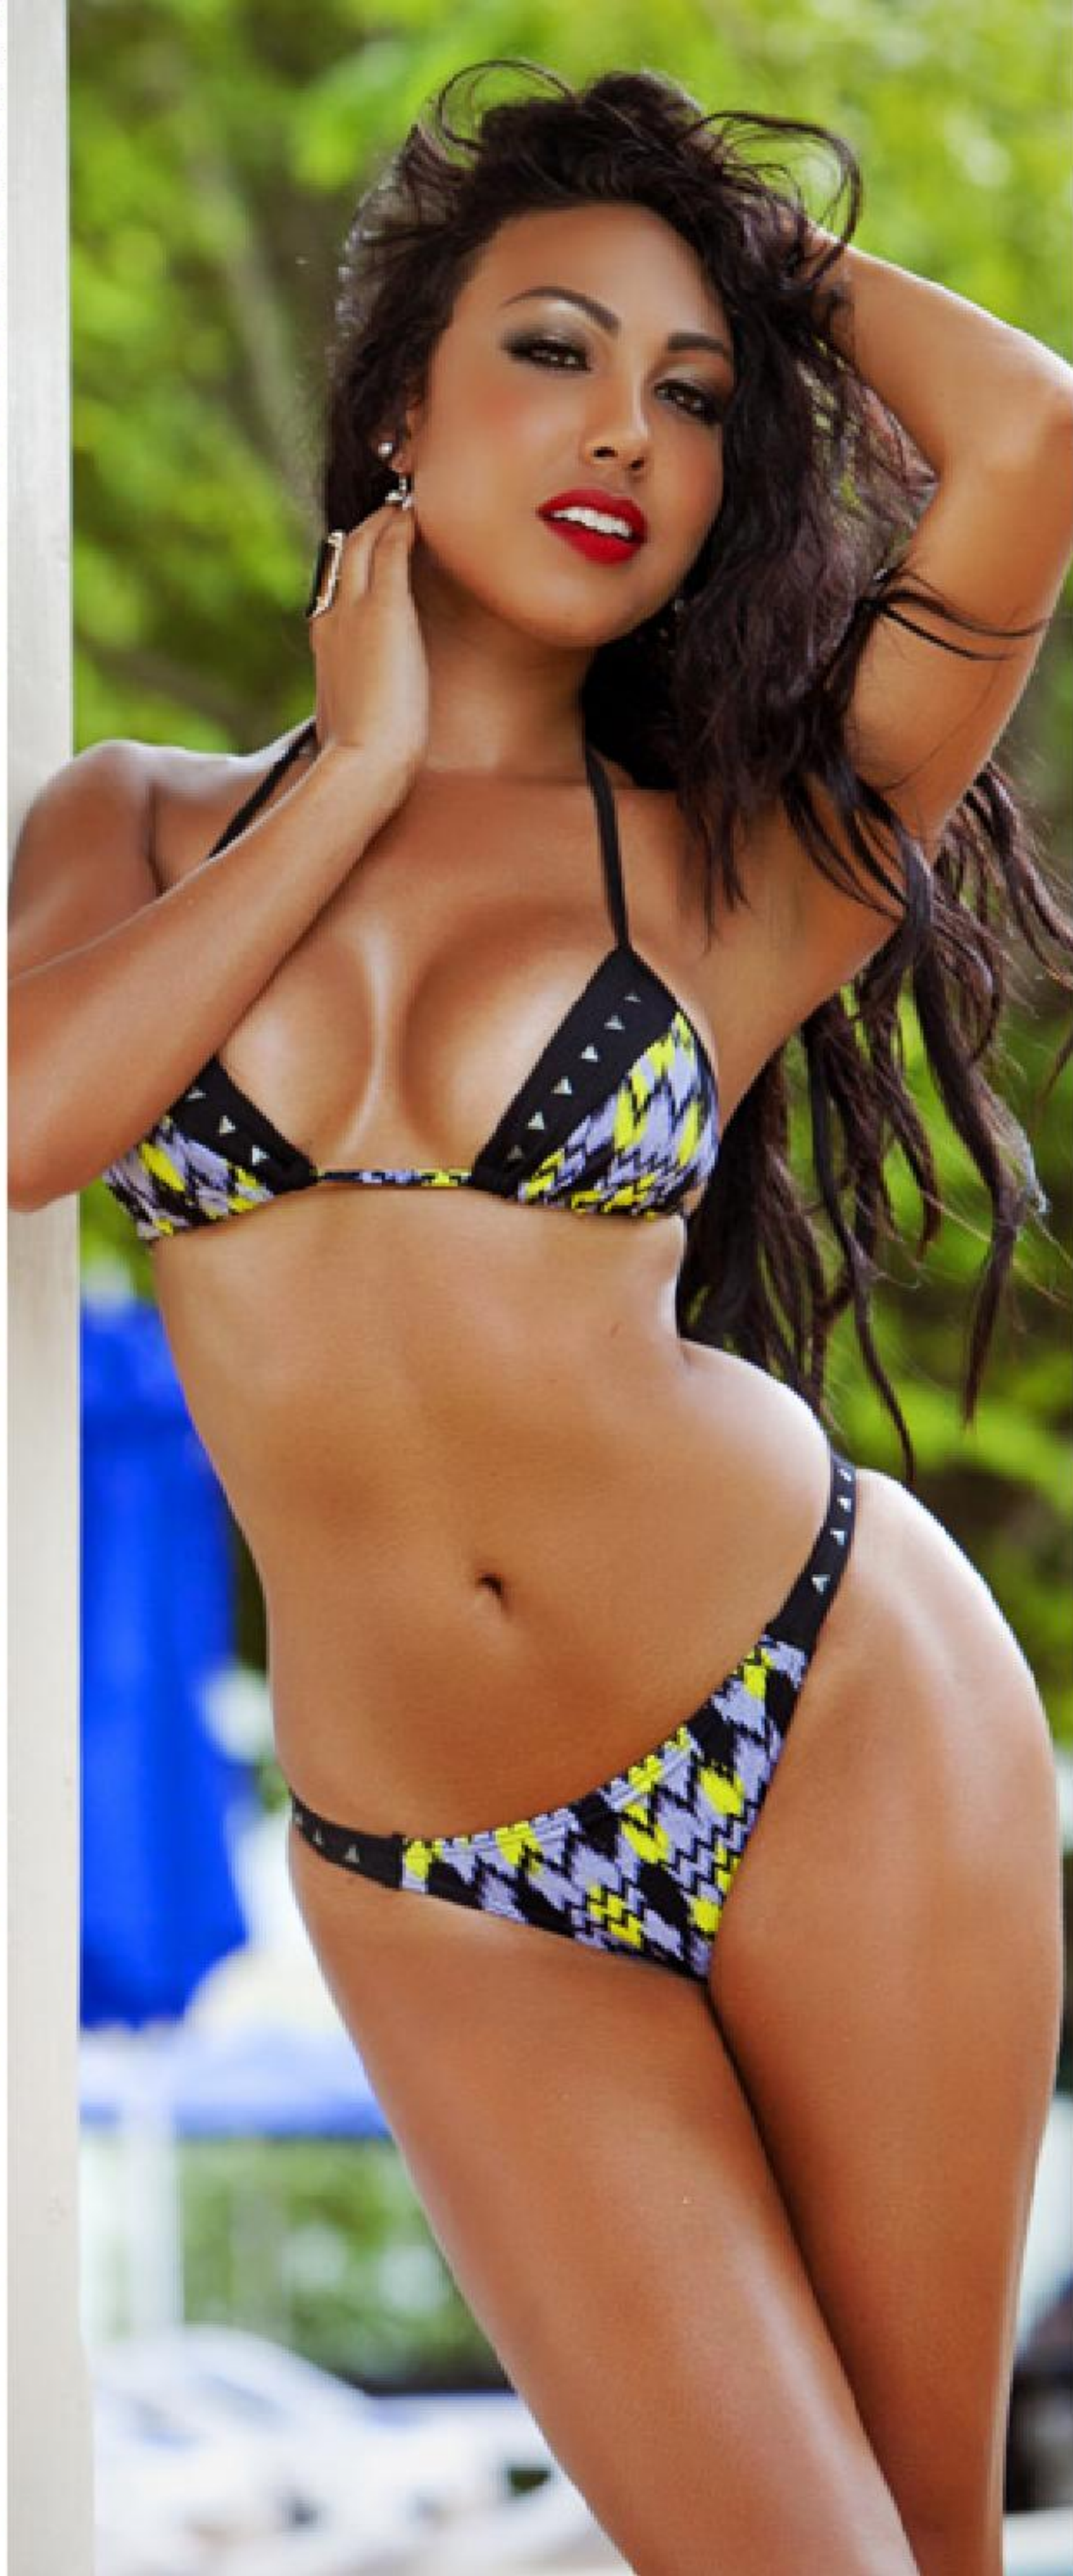

WHAT ARE YOUR FUTURE GOALS?

I love being in front of the camera, so I'm working on new opportunities as an on-camera personality. I also started my own jewelry line in 2012. It's called RAW by CEE, and I have a shop in Camden-town, London.

FOR THOSE INTERESTED, WHERE CAN WE FIND OUT MORE ABOUT YOU?

I have a website, www.missceliakay.com, and I'm always on social media so I love connecting with people on Instagram (@celia_kaykes), Twitter (@celia_kaykes) and Facebook (Miss Celia Kay).

DISCOVERY OF THE MONTH

MASSACHUSETTS RISING STAR

MEGAN KAY

PHOTOGRAPHY: RICK TROTTIER

My dad always told me that dynamite comes in small packages and it's the perfect way to describe my spirit and how I like to be perceived. But I am no silly little girl. I graduated from nursing school back in February of 2013 and I love my job. I LOVE modeling too and am happiest when I am shooting the glamor that fits me best. I have a teeny-tiny, petite frame, but don't let my size fool you. I have a BIG personality and an even bigger heart!

{ SOMETIMES YOU MEET A MODEL THAT SIMPLY BLOWS YOU AWAY WITH TALENT }

HOW DID YOU GET INVOLVED WITH GLAMOUR MODELING?

I started modeling in 2010. I began setting up shoots with photographers who contacted me on line. When I first started modeling all I wanted to do was build my portfolio so I would shoot as much as possible, with as many photographers as I could. Now as a more mature/serious model I prefer to only shoot with reputable photographers. I prefer someone whose quality of work is worthy of investing in, who can take our images to publications, submissions and commercial success.

WHO INSPIRED YOU IN BECOMING A GLAMOUR MODEL?

I can't really say that there has been one person who inspired me to model. I've had the support of a wide variety of family, friends and industry professionals who have helped me to see how much I love modeling and how much success I can gain.

HOW DO YOU MANAGE TO MAINTAIN SUCH AN INCREDIBLY SEXY BODY?

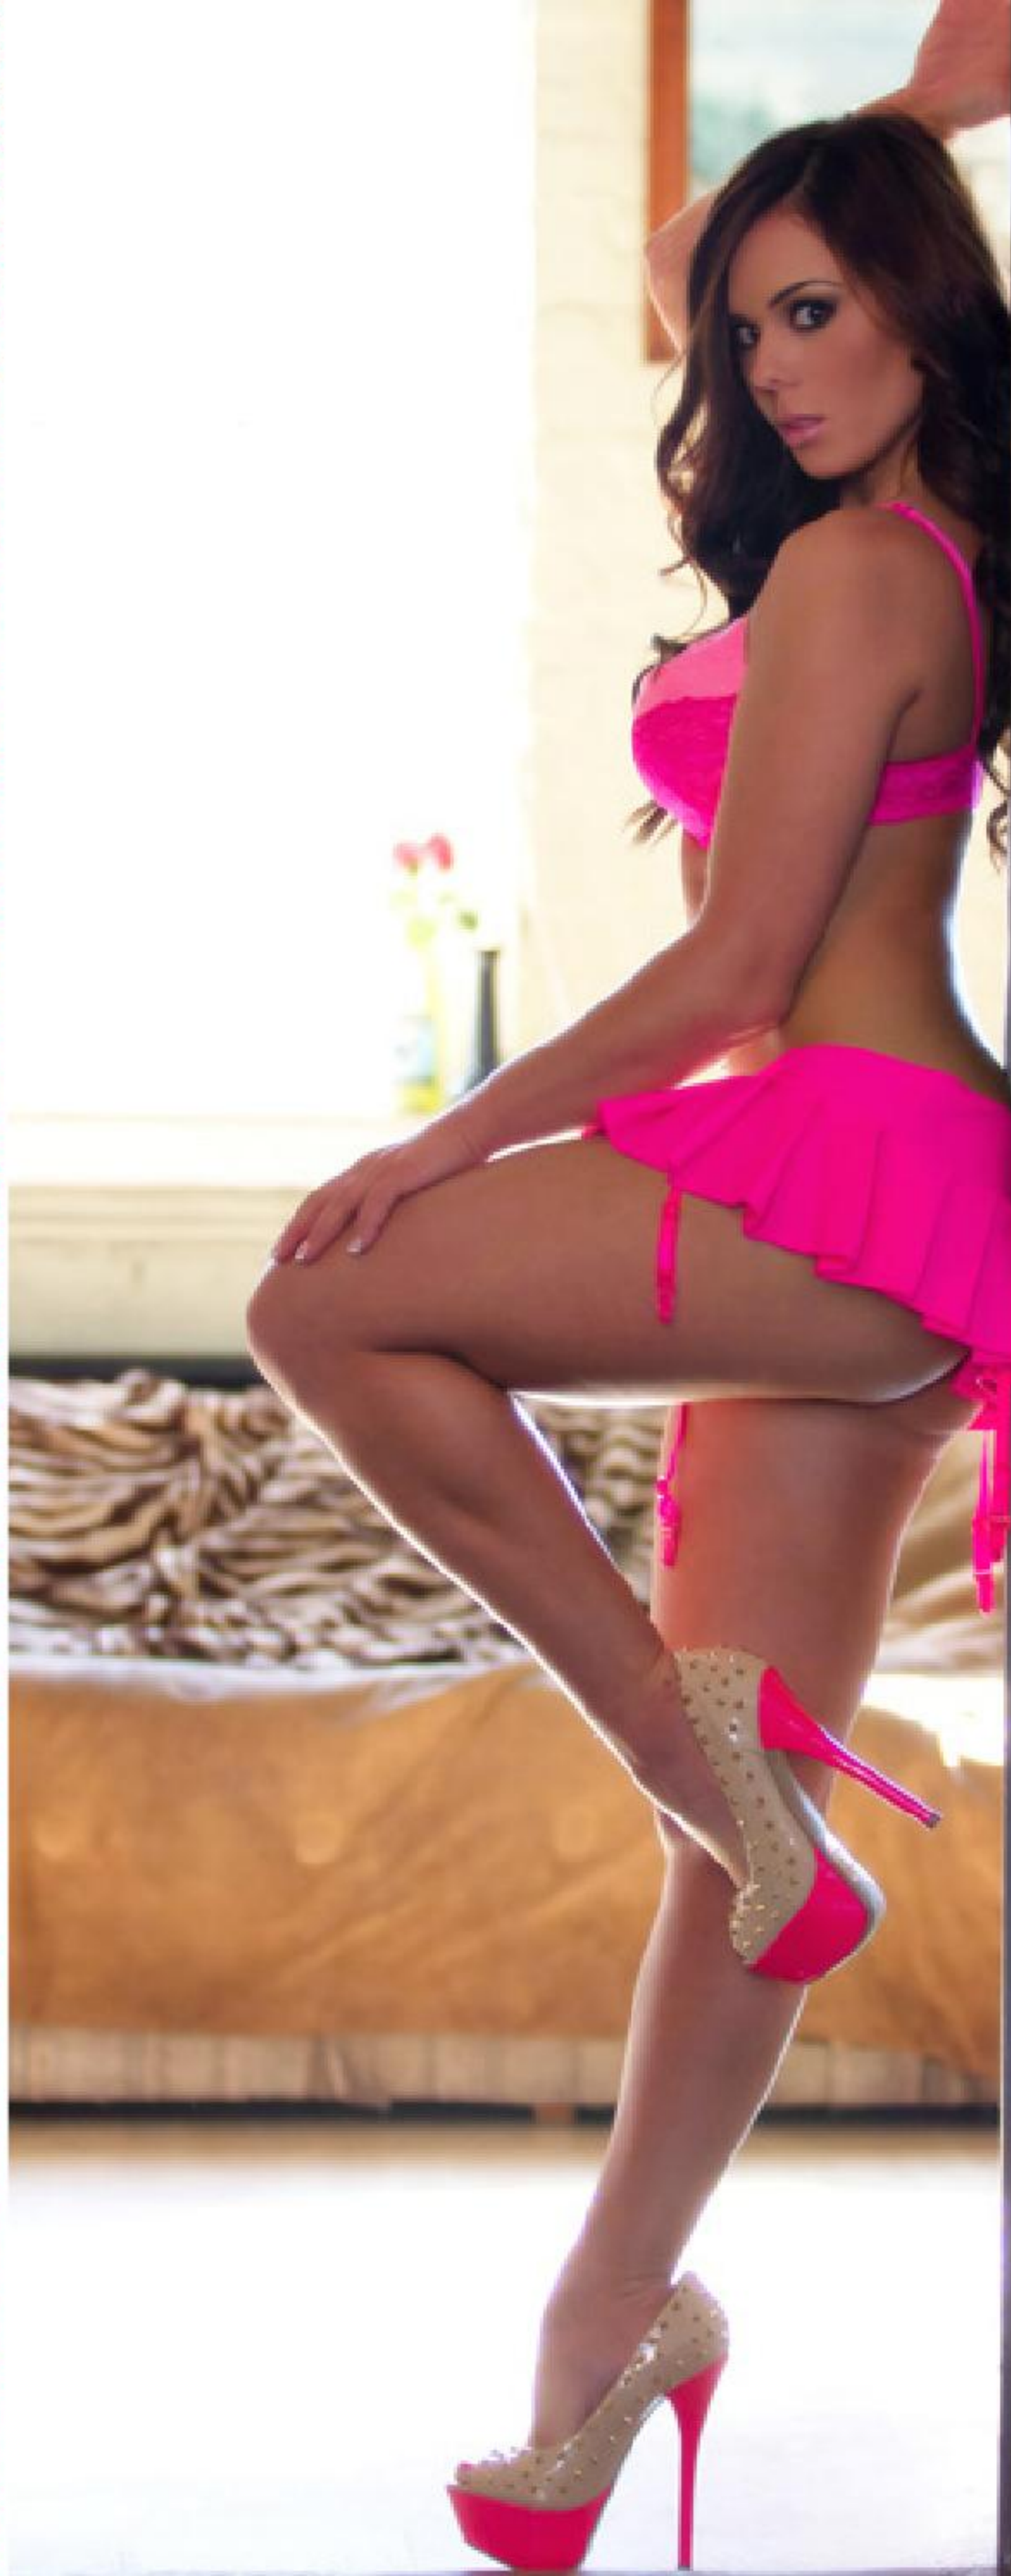

I always want to look my best. So careful shopping is always a must! You can never have enough sexy lingerie or high heels. It's also important for me to FEEL my best so I always eat clean before an upcoming shoot. Lately this has been more of a lifestyle change because you never know when you're going to be called for something! I try to follow a plan of little to NO sugar, dairy or alcohol before an event or shoot.

WHAT PART OF THAT SEXY BODY ARE YOU THE MOST PROUD OF?

I love all my curves, and it is my curves that make me special. But I am also proud of my hair. I work hard to have a spectacular set of locks that catch people's eyes. And I know men like beautiful hair, but I also know they like great legs, a sexy bum and boobs, and I am lucky enough to have a nice mix of all of those.

TELL US ONE UNUSUAL OR UNIQUE THING ABOUT YOURSELF THAT OTHERS MAY NOT KNOW.

I've often said that the sexiest thing I could wear out in public is my smile and my confidence. Does that mean I'll go out naked? Maybe. As cliché as it is, I believe happy girls are the prettiest, sexiest and most desirable. If I'm feeling a little scandalous though, I won't wear underwear when I've got on my most daring outfit. I love feeling sexy and I also like pushing limits here and there.

I LOVE A MAN THAT CAN MAKE ME LAUGH. BUT I ALSO LOVE A MAN WHO UNDERSTANDS I LOVE NEW EXPERIENCES AND LIKE TO HAVE FUN. I HATE SITTING AROUND BEING BORED.

**WHAT IS THE MOST ADVENTUROUS
THING YOU HAVE DONE?**

Sexy glamour modeling is by far my favorite to shoot, but I also have an even sexier side I'm not afraid to show. I just recently shot some fetish imagery that was so sexy it turned me on!

WHAT ARE YOUR FUTURE GOALS?

My goal is to continue producing strong images, be featured in more publications and grow connections in this industry. I also look forward to traveling more and combining work and travel. Playboy here I come!

FLORIDA` BABE OF THE MONTH

JAYDEN
BROOKE

PHOTOGRAPHY: URBAN STYLZ PHOTOGRAPHY

IT IS NO SECRET THAT LATIN WOMEN ARE KNOWN FOR THEIR INCREDIBLE CURVES!
WE ARE PLEASED TO BRING YOU ANOTHER SOUTH FLORIDA HOTTIE WITH JUST THE RIGHT
COMBINATION OF CURVES AND CLASS!

I'm Jayden Brooke, a true Florida baby. I was born, and raised in Fort Lauderdale, FL. Grew up with all boys, and on the water, so my heart lies with the sea, and I don't mind getting dirty. I'm big into fishing, and diving. My passion and love is underwater photography. The beauty, under the sea, is indescribable. My dream would be to end up on an exotic island, photographing the beauty that most never even get to experience. I love being able to play on both sides of the camera.

**WOW
FACTOR!**

HOW DID YOU GET INVOLVED WITH GLAMOUR MODELING?

My cousin got me into the modeling industry, years ago, when she thought I'd be perfect for this fitness company. I went to the interview, they loved me, and the rest is history!

WHO INSPIRED YOU IN BECOMING A GLAMOUR MODEL?

There isn't really a set person, who inspired me to be a model, but what woman doesn't want to see herself glamorized? The beauty she has on the inside, to shine through in the photos, in a way she never thought she could. Maybe even give that extra boost of confidence, we as women, always need. Besides, it'll be great to look back on, when I'm old, and grey.

HOW DO YOU MANAGE TO MAINTAIN SUCH AN INCREDIBLY SEXY BODY?

I'll do a few crunches before a shoot, but if I'm to be honest, I'm riding on my youth and metabolism. I will always say this though. The key to a six pack is laughter! Surround yourself with positive, good hearted people, and you will always have an ab workout! Since I love to laugh, and simply just enjoy life, my favorite part of my body is my smile. They always say that a smile can change even the gloomiest days, to a bright one. If my smile can light up someone's darkness, then why wouldn't that be my favorite asset?

WHAT PART OF THAT SEXY BODY ARE YOU THE MOST PROUD OF?

I love all my curves, and it is my curves that make me special. But I am also proud of my hair. I work hard to have a spectacular set of locks that catch people's eyes. And I know men like beautiful hair, but I also know they like great legs, a sexy bum and boobs, and I am lucky enough to have a nice mix of all of those.

TELL US ONE UNUSUAL OR UNIQUE THING ABOUT YOURSELF THAT OTHERS MAY NOT KNOW.

I can pick up things with my toes. That's unique, right. It comes in handy when you're just that lazy, to bend over, and pick up whatever you dropped. Yes, I am that lazy. Don't judge me.

HOW ADVENTUROUS ARE YOU?

I'm extremely adventurous. My friends would call me an adrenaline junky. I've been sky diving, cliff jumping. I have a need for speed. I've chased after sharks. I have a slight obsession with them, and always welcome them on every dive. They are just magnificent creatures. My next adventure, which is just around the corner, is running with the bulls!
