How long have you been a photographer?

How long have you worked with models?

5 years in total, working with the models maybe 3 years.

What do you enjoy most about being a photographer?

Being able to have creative freedom while seeing and experiencing some of the world's best locations and models.

At what point did you realize that you wanted to pursue photography as more than a hobby?

It was a blurry transition between hobby and pro. It kind of just happened

What kind of personality do you have?

How would your friends describe you?

I would like to think I am easy going and can get along with anyone but I hate to talk about myself.

What are some of your other interests or hobbies?

I love getting out into the country and mountains, walking and hunting.

If you could photograph any model (living or dead), who would it be? Why?

Emily Ratajkowski, she is so unique and has taken over the modelling world the fastest I have ever seen.

Tell us about your most memorable photo shoot.

It was probably with 10x Playboy Playmate and Playmate of the year Khloe Terae. We shot in the Las Vegas suite Elvis Presley once lived!

Besides your camera body, what piece of equipment that you own do you find indispensable?

My 70-200mm L series lens. Best thing money can buy

What photographers do you find inspirational?

Charles Lucima

What qualities do you look for in a model?

Definitely a unique or strong face. A body can be molded in a shoot, a face cannot.

What styles of photography do you find most personally rewarding?

Fashion all the way!

Tell us something funny that has happened during one of your shoots...

My model and I got attacked by a swan mid shooting!

What advice can you offer to novice or aspiring photographers?

Keep doing what you're doing. Do not change your style, and stick to what you believe in because there is no right or wrong in Photography. What you do makes you special and there is no photographer out there that is better than another.

The One and Only Super Fantastic Social Media Manager for a Creative Technology Company in Scottsdale

Where did you attend school?

Carsten Aveda Institute for Aesthetics

I enjoy sculpting stone, painting & sketching. I also love horses so I volunteer for a few horse events around town.

What is your biggest regret in life?

No regrets!

What was your most embarrassing moment?

I was at what I considered to be an important "BIG DEAL" evening event in LA where there was an open bar & tons of fancy people. I knew I had to drive home so I did not drink. It had rained that day and while I was touring the property, I stepped into a GIANT hole filled with mud & water. I had to take my heels off and ended up looking like a complete sloppy mess but no one believed me that I was sober! Opportunity for a classy first impression with the cool kids was spoiled.

If you could spend a week anywhere in the world, where would it be?

I have never been to Thailand. So I would like to spend a week there!

What's the best job you've ever had?

I was a billing coordinator for a company that helped adults and children with disabilities find jobs & caregivers. It was really rewarding to see how much of a difference our organization could make in someone else's life. I went home with a full heart every day.

I don't think I've seen a single James Bond movie. Sorry.... teehee

Video or Board Games?

Board Games! JIMMY FALLON thinks of the best games!

Love or Lust?

Love is much more special to me than lust. Love shows an honest commitment whereas lust is usually a surface type of temporary emotion.

Batman or Superman?

Batman. I don't like Superman's pants & he also has too much product in his hair.

**How did you get started with modeling?**

My first attempt at modeling was around age 19 with my digital camera set on auto flash like most aspiring young girls. I was then discovered by a Las Vegas based agency where they hired me for a runway show wearing Jovani Dresses. It snowballed from that into photo-shoots, runway training & eventually promotional events.

**How long have you been a model?**

Since 2009

**Tell us about your favorite photo shoot:**

My favorite shoot would be when we rented an area that looked like a jungle. I had to change & do everything in my car in less than 2 hours but I was so happy with my personal goals that I felt confident in my expressions, which in return showed in the images. It was a tough transitioning time for me walking away from an unfaithful engagement so I was proud that I could still feel sexy and do what I want. I had also worked with the photographer many times previously so I was comfortable with my surroundings and the images came out very organic.

**What other models do you look up to, stalk or are secretly in love with?**

I have always thought that Elaine Alden was such a gorgeous woman. I think a lot of people have watched her grow up into a beautiful wife and fantastic mother. She seems to be a great person as a whole and I am proud that she never let the system get her down!

**What would you like to be known for?**

My creativity & sense of humor. I have always been one to stick up for myself and what I believe in. Even if it seems dorky or not trendy, I like to do what I want. And I think living that way makes life a lot more peaceful.

A full-page photograph of a blonde woman with long, wavy hair, wearing a white lace-trimmed bikini. She is posing with her arms raised behind her head, looking down with a serene expression. The background shows a swimming pool with blue water and a rocky edge.

*"I like an average size.  
Nothing freakish and nothing  
that will make me sad"*

Describe your ideal date...

Where would you go and what would you do?

I'm a food junkie so I like to try new restaurants. I think a first date should be one on one and somewhere you can learn about the other person.

What is your favorite drink to order on a date?

Red Wine or Cucumber Vodka on the rocks

What do you look for in an ideal boyfriend or partner?

Honesty. Monogamy is difficult to find these days. All some of us can hope for is honesty.

Who is your celebrity crush?

Kellan Lutz, Johnny Depp, & Liam Hemsworth

Are your boobs real?

No

What do you wear when you want to get attention?

Heels I suppose. I always get noticed when I become a 6ft tall blonde in heels!

What do you get complimented on the most?

Usually my hair, my hands/nails, my height and my smile.

What are your favorite features and body parts?

I think I can speak for many females when I say I am proud of my eyebrows. I do them myself and sometimes it's a difficult thing for women to take control of. I was one of them. I also am proud of my abs! Work in progress!

What would you change about your body if you could?

I know it sounds really strange but I would change my knees. I feel like I have chubby knees. One has an ugly scar from falling off my bike as a child and the other had torn ligaments and had been put in a leg brace twice!

What kind of personality do you have?

I have mostly been an introvert since I can remember. I still am, but I also have a random side to me that likes to be goofy and maybe make people feel awkward.

What do you like most about sex?

Is it prude of me to say I still appreciate a good ol' fashioned passionate make out sesh? Before, during, and possibly after depending on my heart rate - haha.

Do you like it rough or sensual?

Both!

Have you ever had a 3-some?

No. Too selfish.

Does size matter? What is your personal preference?

Yes. Depends on the girl though. I like an average size. Nothing freakish and nothing that will make me sad

What are your favorite sexual positions?

I don't even know the names but I don't do anything you'd see in Yoga class or Cirque du Soleil. Sending my tall girl apology in advance!

Do you have any favorite toys?

Apparently this area of my life is very slowly blossoming. No toys yet for me!

What is something that never fails to turn you on?

Eye contact & a few manly moans & groans. Yowza!

Do you have any special talents?

I don't think so? If I did I would probably be in a different industry... haha

Do you like oral sex?

I don't dislike it but I have no problem skipping it and getting to the good stuff!

Giving or Receiving?

Are my parents going to see this ?? lol

What is something you have always wanted to try?

I am jealous of any girl that can do some seriously professional moves on a stripper pole!

Do you watch porn?

What American doesn't?

Favorite type?

Things I DON'T do are always interesting to watch. Tip toe through that realm though... could get WEIRD! teehee

**On a scale of 1 to 10 how innocent are you?**  
(1 being not Innocent at all and 10 being very Innocent)  
5. Depends on your definition of innocent ;-)

**What is your occupation?**  
Model/Actor/Entertainer

**Where did you attend college?**  
Vancouver BC Acting, Modeling and Music

**Where did you grow up?**  
Vancouver, BC but because my parents were born in Spain and Portugal, it felt like I was growing up in those countries.

**What's your best memory of having grown up there?**  
All the pets I had growing up. They were my best friends

**What are some of your interests or hobbies?**  
Anything music, dancing, singing, and playing the drums. I also love driving fast cars.

**What is your biggest regret in life?**  
Losing my virginity to a lying cheat in high school. He was supposed to be my high school sweetheart, but he wasn't so sweet. He cheated on me and lost his virginity to my best friend. He also broke up with me at my surprise birthday party, for another one of my friends. I was an idiot for being so naive.

**What was your most embarrassing moment?**  
All through my school years. I was made fun of a lot. I got gum spat into my hair, I was called mean names, teased about my family and how awkward I was. I ate my lunch alone most of the time, sometimes even in the bathroom. They were not fun years, but I have learned a lot from it and turn it all into a positive which made me the beautiful person I am today, inside and out.

**If you could spend a week anywhere in the world, where would it be?**

In Johnny Depp's pants

**What's the best job you've ever had?**

Posing half naked in sexy positions for photographers all over the world and get paid for it. I relieve stress for all men (sometime even women) all over the world. It's very rewarding work.

**If you could have any job in the world what would it be?**

Being Johnny Depp's Masseuse. I don't think he would mind to much, do you? ;-)

**Video or Board Games?**

Depends who I am playing with and how drunk I am

**Love or Lust?**

Well lust is always fun short term, and love is fantastic if you find the right one.

**Nike or Adidas?**

Puma- I'm European

**Heroes or Villains?**

Heroes are always good looking and sexy, while villains are never really attractive, but who doesn't like just a little naughty? ;-)

**Batman or Superman?**

Batman is sexy for his voice and mask and Superman for his strength and flight. Can we moosh them together and invent SuperBatman?

**How did you get started with modeling?**

My friend suggested that I go submit to Playboy. So I tried. I heard back from the photographer, did a test shoot, Playboy loved it, did a shoot, and they published 4 Playboy Special Editions! Such an accomplishment! After that, I was hooked into the world of modeling!

**Tell us about your favorite photo shoot:**

This one photo shoot where all these shots were taken in the Bahamas at Nygard's Mansion on a private island. It was a Mayan inspired paradise! With about 20 gorgeous models walking around in the nude, 10 photographers ready to shoot you at anytime, all day, drinks and food served anytime anywhere, music, sunshine, heat, and the awe inspiring white sand and crystal waters, made this trip like heaven for me. I never wanted to leave.

**What other models do you look up to, stalk or are secretly in love with?**

Carmen Electra! I hope to one day do a photo shoot with her, hang out with her, work together. She's into music again, I think that's fantastic!

**What would you like to be known for?**

Sexy body, sexy brain

**Do you kiss on a first date?**

Depends on the connection. If there isn't one, I don't like to hurt the guy's feelings (at least not to his face) so I will thank him for the company and make an excuse to leave. But if I like the guy, ya, I will kiss him, I like kissing, especially the first kiss, it's so exciting and new. Gets your heart going, the feeling is great.

**Describe your ideal date...**

**Where would you go and what would you do?**

Dinner by the beach, a walk along the beach.

**What do you look for in an ideal boyfriend or partner?**

A connection, number 1. If you don't have a connection you won't have a connection in bed, unless you're both drunk, lol. He needs a personality, honesty, funny and a guy that can be true to himself. I don't like fakes, I can see right through it.

**What is your favorite drink to order on a date?**

Probably wine if I really like the guy, wine gets me flirty.

**Who is your celebrity crush?**

Can you take a guess?

**Are your boobs real?**

Does it matter, really? They are still fun no matter how they are made ;-)

**Do you ever go out in public without a bra?**

Yes, I have nice boobs. I gotta take advantage of them now while I still can before they go too far south.

**What do you wear when you want to get attention?**

Nothing at all.

*"Yes, I have nice boobs.  
I gotta take advantage  
of them now while I  
still can before they go  
too far south"*

**What are your favorite features and body parts?**

Of myself? My curves, the sexy womanly curves that every woman has, that men can never have. In men? Those two hip lines leading to their goods, is there a name for that? Just looked it up, lol, "sex lines", or "V lines".

**What would you change about your body if you could?**

About who is on top of it, just for a day at least ;-)

**How long is your tongue?**

What? Haha? Weird question. This should be a guy's question.

**What surprises people about you, after they get to know you?**

How crazy sexy I can be

**What age did you lose your virginity?**

19

**What do you like most about sex?**

How naughty it can be.

**What is the craziest place you've had sex?**

In the woods and on the beach

**Do you like it rough or sensual?**

A mix of both, depends on my mood that day.

**Have you ever had a 3-some?**

Yes, but we don't need to get into the details on that one ;-)

**Does size matter? What is your personal preference?**

I've never had a super tiny one, but I would imagine that would be very hard to "handle". Sorry cheesy joke. I have had what seemed like a penis gift from God, but that was just too painful. So unless you're the extreme, size can matter.

**What are your favorite sexual positions?**

Doggy style. And guy on chair and girl on top.

**Do you have any favorite toys?**

Doesn't every woman?

**What is something that never fails to turn you on?**

Sensual care to my body.

**Do you have any special talents?**

You gotta be lucky enough to find out.

**Do you like oral sex? Giving or Receiving?**

Yes. Both. Great for everyone.

**What is something you have always wanted to try?**

What haven't I tried ;-)

What was your most embarrassing moment?  
When I was a kid, I was with a bunch of friends from my neighborhood and they were all climbing this tree. So to show off, I did too. Finally it was time to get down, and to really show off and my shorts got stuck on a branch and ripped alllllll the way up. I had to hold my shorts together walking home with my Disney undies peeking out. No fun haha

If you could spend a week anywhere in the world, where would it be?  
It would be in South Africa or Australia and wherever the penguins are

What's the best job you've ever had?  
My current job, living my dream

What's the worst job you've ever had?  
Hooters haha I worked there for about 3 seconds

The Notebook, The Butterfly Effect, Step Brothers, Monster's INC and Happy Feet

Video or Board Games?  
Board Games.. I feel like they're more interactive.

How did you get started with modeling?

What other models do you look up to, stalk or are secretly in love with?  
I love CoCo Austin. That woman is amazing.

**What would you like to be known for?**

I'd like to be known for striving to be the best that I can be and proving that beauty is not a size.

**Do you kiss on a first date?**

Absolutely. You can tell so much by that first kiss.

**Describe your ideal date...**

**Where would you go and what would you do?**

It's really not that hard to impress me. Take me to go pet penguins and then let's go and skydive or something haha I'm super spontaneous and up for just about anything.

I call it the Ashley special haha. It's peach Ciroc, sour, splash of cranberry. Seriously, best thing you'll ever taste in your life.

**What do you look for in an ideal boyfriend or partner?**

Loyalty, someone to have my back, someone who can better me and I can better them in return. ROMANCE is super important. I love cute little things. I'm a hopeless romantic.

**What surprises people about you, after they get to know you?**

That I'm actually really intelligent. I am currently getting my Master's Degree

I mean, what isn't there to like? I love the whole intimacy, closeness part of sex. Being completely comfortable with your partner and experimenting with one another.

**Have you ever had a 3-some?**

Absolutely not. I'm way too damn territorial.

**Does size matter?**

100%. I do not care what anyone tells you. It does.

**What is something that never fails to turn you on?**

If you start biting my neck, you're asking for trouble.

**Do you have any special talents?**

Plenty. But a lady never tells ;)

On a scale of 1 to 10 how innocent are you?

(1 being not Innocent at all and 10 being very Innocent)

5 :-p best of both worlds

What is your occupation?

I'm a model, actress and cosplayer! Yes, I'm a little bit of a nerdy girl lol. I also own/run my own modeling company called ArchEnemys focusing on HOT CHICKS.

Where did you attend school?

I went to beauty school in Augusta Maine and I've had my cosmetology license for about 10 years.

Where did you grow up?

What's your best memory of having grown up there?

I grew up in a VERY small town called Dover-Foxcroft, Maine. I think the best part of being raised in such a small town is that it kept me grounded. Everyone knows everyone in the DFC (nickname) so it had a "homey" feel to it. I will never forget driving around aimlessly in my little Ford Escort with my best friend Debra. We would turn up the music and just drive around for hours - haha. Silly, right?

How would you like to be remembered?

I would like to be remembered as a fun, loving and caring person that was always the life of the party! Someone with a big heart and could always make you smile.

What are some of your interests or hobbies?

Modeling, acting, addicted to high heels (slightly obsessed), making epic costumes for my cosplays, tropical vacations, I'm kind of a shop-a-holic, tanning, pretty much anything girly, breakdancing (yes, I can bust a move) and going to the movies.

What is your biggest regret in life?

If I could go back in time I would have paid more attention in school. I was a slacker - lol. I try, however, to live with no regrets. Sure I've done things that I shouldn't have or made bad decisions, but I think all choices in life make you who you are.

If you could spend a week anywhere in the world, where would it be?

If I could spend one week anywhere it would be a beautiful private resort in Bali, Bora Bora or any tropical location with my own private escape, my own butler to wait on me hand and foot, massages every day, expensive food, wine and relaxing.

**If you could have any job in the world what would it be?**

To be the owner of Christian Louboutin :-> I would get the best of both worlds because I would be a millionaire and get ANY high heels made that I wanted.

**Do you have any phobias?**

I hate the dark, I'm afraid of swimming in the ocean/lakes, snakes, big spiders, don't like driving over bridges and I get nervous every time I fly in a plane.

**What are your top 5 favorite movies?**

Top movies are The Notebook, Titanic, Transformers and for TV Shows Dexter, Breaking Bad, Smallville, Vampire Diaries, Dark Angel and Firefly. Ok, sorry that's more than 5 but oh well.

**Video or Board Games?**

Board games because you get to interact with the people you're playing with more and some are really fun!

**Books or Movies?**

Movies, I don't really read :-o

**Batman or Superman?**

I'm a big Superman fan. He can come save me any day and fly me away to Krypton.

**What was your most embarrassing moment?**

I was in the VIP room of a comic con I was a special guest at... I was eating and chatting with an actor from Spartacus for like 10 minutes and then said "So what episodes of Spartacus were you in?" Liam McIntyre reply's "Oh, um, well I was Spartacus." I had no idea who I was actually speaking too haha the STAR if the show, so embarrassed I wanted to die lol. Guess I should have watched the show first.

**How did you get started with modeling?**

My friend worked at a local laundromat and she got asked to do a photo shoot for ArchEnemys (local modeling company) and she said "my friend Carrie is hot, she wants to model too". So a few days later I did my first photo shoot... mowing the lawn in 6" heels haha. The rest is history and now I'm co-owner of the company, lol, go big or go home!

**Tell us about your favorite photo shoot:**

It's hard to pick just one because I've done so many fun ones, but I would say the most fun photo shoot I've ever done was during hurricane Irene, lol. I literally shot outside for like 6 hours in different locations all while Hurricane Irene was happening, lol. Got some amazing photos and video too - haha. It was an adventure for sure.

**What other models do you look up to, stalk or are secretly in love with?**

Jessica Alba is my secret girl crush... ok I'm in love with her, you caught me - haha. A few other girls I love are Candice Swanepoel, Adriana Lima.. the list goes on, they are all SO HOT!

**What do you look for in an ideal boyfriend or partner?**

Handsome, respectful, confident, a true gentleman, chivalry, tall, funny, appreciates me, treats me like a princess, smells good, well groomed and always dresses nice.

**Who is your celebrity crush?**

Ian Somerhalder who plays Damon in The Vampire Diaries, Channing Tatum and JESSICA ALBA!!

**Are your boobs real?**

No, I LOVE really big boobs ;-p

**Do you ever go out in public without a bra?**

Actually I'm not a big fan of bras, lol, so yes all the time - haha.

**What do you wear when you want to get attention?**

Well, I wouldn't say that I dress to get attention, it just happens - lol. I wear high heels almost every day, so I guess it's normal to get lots of attention :-p

**What do you get complimented on the most?**

My legs.

**What are your favorite features and body parts?**

My eye color, abs and boobies.

**What would you change about your body if you could?**

Make my hair GROW, it will never grow really long, so annoying. I would also make my feet a little smaller. I'm already a size 5.5 but I wouldn't mind having a size 5 :-)

**What kind of personality do you have?**

Friendly, bubbly, sincere.

**What surprises people about you, after they get to know you?**

That I also have a little shy side to me at times.

**What is the craziest place you've had sex?**

Haha, outside of the car on the side of a road that I thought was a dead end... 2 seconds after we got back in the car, someone drove by and we realized that the road was actually leading into an open business.

**What is something that never fails to turn you on?**

Kissing me on the neck

*"I would like to be remembered as a fun, loving and caring person that was always the life of the party! Someone with a big heart and could always make you smile"*

# 9 Characteristics

## Women Really Want to see in Your Bachelor Pad

*A woman notices everything about you. She will notice your clothes, character, smile, and even where you live. All these details make up your "brand," which is all about sending a consistent message over time. You may be projecting quality energy to a woman and confidently invite her back to your place. Your words may be projecting character, strength, and value. Your environment must reinforce your "brand" that you are desirable.*

*But what is your place "saying?" Is your place a turn-on or turn-off to a woman?*

*You never get a second chance to make a first impression with your place. Don't leave it to chance!*

*The Insiders Guide to Your Bachelor Pad: 9 Things Women Really Want takes all the mystery about the do's and don'ts about decorating your place. Follow these 9 guidelines, and you'll have a stylish place that is sure to impress any guest. You don't need to have a ton of money to make this work. In successful branding, it is the consistent reinforcing message that is key.*

*Click here [www.bachelorhaus.com](http://www.bachelorhaus.com) to find out more about how you can customize your place that will impress any guest. USE "Innocent" to save \$100 off any purchase over \$999. Shipping is always FREE!*

### *The Essential Characteristics:*

#### **A Clean and Tidy Place**

Do you have your act together? There is no bigger turn-off to a woman who comes back to your place than seeing a total mess. A lot is said by how your place looks and is kept. Cleanliness is about attention to detail. A woman will notice the entrance first. Is she going to trip over your shoes? Get them organized and out of the way! The next thing she will notice is your living room.

After that, she will notice your kitchen. Are the stacks of dirty dishes in the sink? And finally the bathroom and bedroom. Is there an unrecognizable odor? A woman is far more sensitive to smells than is a man. This is not a conversation about becoming a neat freak.

Women find a clean and tidy place appealing. They don't want to feel like your mother and have to clean up after you.

#### **Furniture**

You have a tool set in your garage, and you need a furniture set in your place. Your furniture needs to project quality to women. A cheap sofa purchased from a web listing or a hand-me-down from your uncle just isn't going to cut it! A room of furniture that is just thrown together isn't going to work either.

Each piece of furniture needs to be carefully selected to build a complete theme. Every piece of furniture in each room should work together to create the look and feel you want. Whether you prefer a modern or transitional look, the furniture in your place should project confidence and quality.

#### **Painting and Artwork**

Painting is one of the most underrated decorating tools. You can have the perfect furniture, rugs, and artwork, but all can be lost to poor paint color. You are looking for consistency. Remember, your place reflects your personal brand and your personality.

Artwork. If you are going to hang artwork, make sure it is level and in the right place. Don't have lopsided or poorly placed art. The art work on your wall should be tasteful, so guys, posters you'd find in a college dorm room are not acceptable to a woman! Nothing taped or tacked to the wall. Any artwork should be framed.

### Clean Linens

The linens go on the bed you'll be sharing with your woman. Quality is key. Look for linens with a thread count of at least 400. Do not buy linens that are made from synthetic fabrics that itch. Natural fabrics like cotton offer superior comfort and are easier to wash.

You wouldn't dream of driving your car without having a spare tire in the trunk. Always make sure you have a clean backup set of linens in your closet whether you want to be intimate or not. And, also, make sure you have clean and matching towels.

### Something Living

Can you be nurturing? Prove it! Plants are a perfect way to demonstrate that you are responsible and can take care of something living.

### Hand Soap, Clean Hand Towels, and Toilet Paper

Hotels make sure the guest bathrooms have toilet paper, tissues, hand soap, and clean hand towels. Your lady is your guest. Treat her accordingly!

### Have a Playlist

What's on your playlist? Music is a great way to set a mood and make moments together more pleasurable. Make sure you have some music for her when she comes over. The more romantic the music, the better.

### Refreshment

You invited your lady over to your place so be the host. Take the lead! Offer her a choice of refreshment. Perhaps you can share a bottle of white wine or enjoy some vodka together. Your date may not like the beer choices in your fridge, so give her choices of refreshment.

### Make a Clean Sweep!

Any article left behind by another woman who has visited your place will be a disaster! Items that are left behind are earrings, hair ties, or articles of clothing. Don't forget to check under your bed and get rid of these items.

There you have it. 9 Characteristics Women Really Want to See in Your Bachelor Pad

without a view

On a scale of 1 to 10 how innocent are you?  
(1 being not Innocent at all and 10 being very Innocent)

5

What is your occupation?

I currently model and advertise, pretty fun stuff but it's also hard work.

Where did you grow up?

What's your best memory of having grown up there?

I grew up in a really small town in Texas, we are talkin' about 10,000 people at most - haha! I spent a lot of my time outdoors, and I always enjoyed making memories with my family. Flying kites out at the park, and spending summer days at the river.

How would you like to be remembered?

I would like to be remembered as the compassionate and humble person that I am. Fame, and wealth mean nothing in the end, and it's all about the company that you keep.

What are some of your interests or hobbies?

I love to live life at its fullest, and so anytime that I get an opportunity to travel. I take it. There's nothing like learning about new cultures, and experiencing different things that may be out of your comfort zone. I also love anything that has to do with being by, or in the water during hot weather. Nothing beats a hot relaxing day at the beach! I'm also always a fan of a good fantasy book, and photography.

What is your biggest regret in life?

My parents raised me to live without regret, and to learn from the situation put before you at the time. I wouldn't take anything back, but there are some things that I would like to forget - haha. But yeah...it's not the things you do that you regret, it's the things that you didn't do.

What was your most embarrassing moment?

So when I was 18 this one job made me dress up as Barbie and take pictures with kids, employees, and pretty much everyone else that wandered into the store. It was terrible because I looked nothing like Barbie at the time aside from the platinum blonde hair that I had. Also the store manager made me wear his wife's floral dress and unflattering black shoes that didn't even match for goodness sake! To top it off, I was super shy growing up - lol...so you can imagine how uncomfortable I was for the entire day >.<

If you could spend a week anywhere in the world, where would it be?

On a deserted island filled with any and all foods that I can imagine at the time. Also it would have electricity and internet access so I wouldn't lose contact with my family, friends, and of course my fans. #INeedAVacation

What's the best job you've ever had?

I can't even begin to tell you how blessed I am to have the world's best job which is modeling lingerie, clothing, and traveling. I never in a million years thought that I would be doing this for a living, but things have a way of falling into place #DreamJob

What's the worst job you've ever had?

I'm gonna have to go with lifeguard because all of the guys ruined it for me - lol. Some guys think it's cute to pretend that you're drowning to get a chick's attention, when in fact it just scares the hell out of me. It also irritates me because I have to jump in the water to save these said guys while they try to grab/practically hump my leg. If you want my attention, just start a conversation with me...I don't bite - lol.

What is your favorite color?

Recently it's been black, it's a hot color and looks darn good on me.

Do you have any phobias?

I hate germs, but nothing really scares me other than that. I mean I do live in Texas, and we are tough - haha.

What are your top 5 favorite movies?

Legend, Walk Hard, Nightmare On Elm Street, Planet Terror, Repo! The Genetic Opera, and so many more.. #MovieFanatic

Who is your favorite Disney princess?

I'm not a big fan of princesses unless it's Princess Leia from Star Wars #ImaNerd

Who is your favorite James Bond actor?

There's just something that I like about Daniel Craig, maybe it's his rustic bad boy look.

Video or Board Games?

Video, especially RPG's! Favorite game is Final Fantasy Tactics, and World Of Warcraft.

Love or Lust?

Why not both?

Nike or Adidas?

Nike, love my running shoes #SoComfy

iPhone or Droid?

iPhone rocks my world, but with my shattered screen you'd never be able to tell.

Heroes or Villains?

Heroes, good guys always win in the end.

#### Books or Movies?

Movies if I want a quick story and a book if I want a long one.

#### Batman or Superman?

Batman all the way, I mean he's like a total badass!  
#SoDarkAndEdgy

#### Star Wars or Star Trek?

Old Star Wars, and new Star Trek :)

#### How long have you been a model?

I have been a model for about three years now  
#CantStopWontStop

#### Do you kiss on a first date?

I don't kiss and tell, sorry boys.

#### Describe your ideal date...

##### Where would you go and what would you do?

A perfect date would be a picnic on the beach to go along with some quality time together. But I'm not too picky, as long as he's put some sort of thought and meaning into it.

#### What is your favorite drink to order on a date?

I'm doing a water thing right now, gotta be healthy for my job lolz.  
#ButIDoLoveRum

#### What do you look for in an ideal boyfriend or partner?

Someone that will be there for me in both the good times and the bad times. Dedication and devotion isn't too much to ask for right? Also someone that supports my dreams, encourages me along the way, and has/follows a dream of his own.

#### Who is your celebrity crush?

Oh they are all crushing on me ;)

#### Are your boobs real?

They surely are, and I'm happy with that. They are pretty, and I've been told that I have some of the most perfect nipples, which is an ego boost - haha.

#### Do you ever go out in public without a bra?

I surely have, some clothing requires to let those bad boys loose.

#### What do you wear when you want to get attention?

Anything that shows off these super long, silky-smooth legs. I find that it's the classiest way to get attention, and attract the right kind of people.

#### What do you get complimented on the most?

My legs!

#### What would you change about your body if you could?

I take incredibly good care of my body with diet and exercise, and there's nothing that I would really change. #HappyInMyOwnSkin

#### What kind of personality do you have?

I tend to be kinda quiet, but it's because I'm a pretty chill person and super observant. I'd rather know someone else's story than tell my own.

#### What surprises people about you, after they get to know you?

I'm very reserved, but when people get to know me I'm as nice as I seem. Some folks don't expect this - haha, but I believe in treating others how you'd like to be treated yourself.

#### What do you like most about sex?

The intimacy, connection, and bond.

#### What is the craziest place you've had sex?

I find myself to be a slight exhibitionist, so there have been a few semi-public places that were pretty crazy.

#### Do you like it rough or sensual?

Depends on my mood

#### Have you ever had a 3-some?

Sorry, but in this case sharing is not caring.

#### Does size matter? What is your personal preference?

It's not the size of the boat, it's the motion of the ocean..and believe me guys, this is 100% true.

#### What is something that never fails to turn you on?

A little nibble on the ear and neck goes a long way.

#### Do you have any special talents?

I can put my legs behind my head #Flexible

#### Do you like oral sex? Giving or Receiving?

It's a good place to start, but I'm not greedy. You treat me good, and I'm gonna treat you better.

#### What is something you have always wanted to try?

Bondage. The whole nine yards.

On a scale of 1 to 10 how innocent are you?

(1 being not Innocent at all and 10 being very Innocent)

Humm, I think I'm only a 4...Ha!

What is your occupation?

I'm focused on modeling right now.

Where did you attend school?

I went to school and later high school. I finished my studies well.

Where did you grow up?

What's your best memory of having grown up there?

I grew up in Málaga. I had to move several times in my life. But I have good memories. I remember when I had my first cat, loved her so much. She grew up with me.

How would you like to be remembered?

I'm a good person, so I want to be remembered like that.

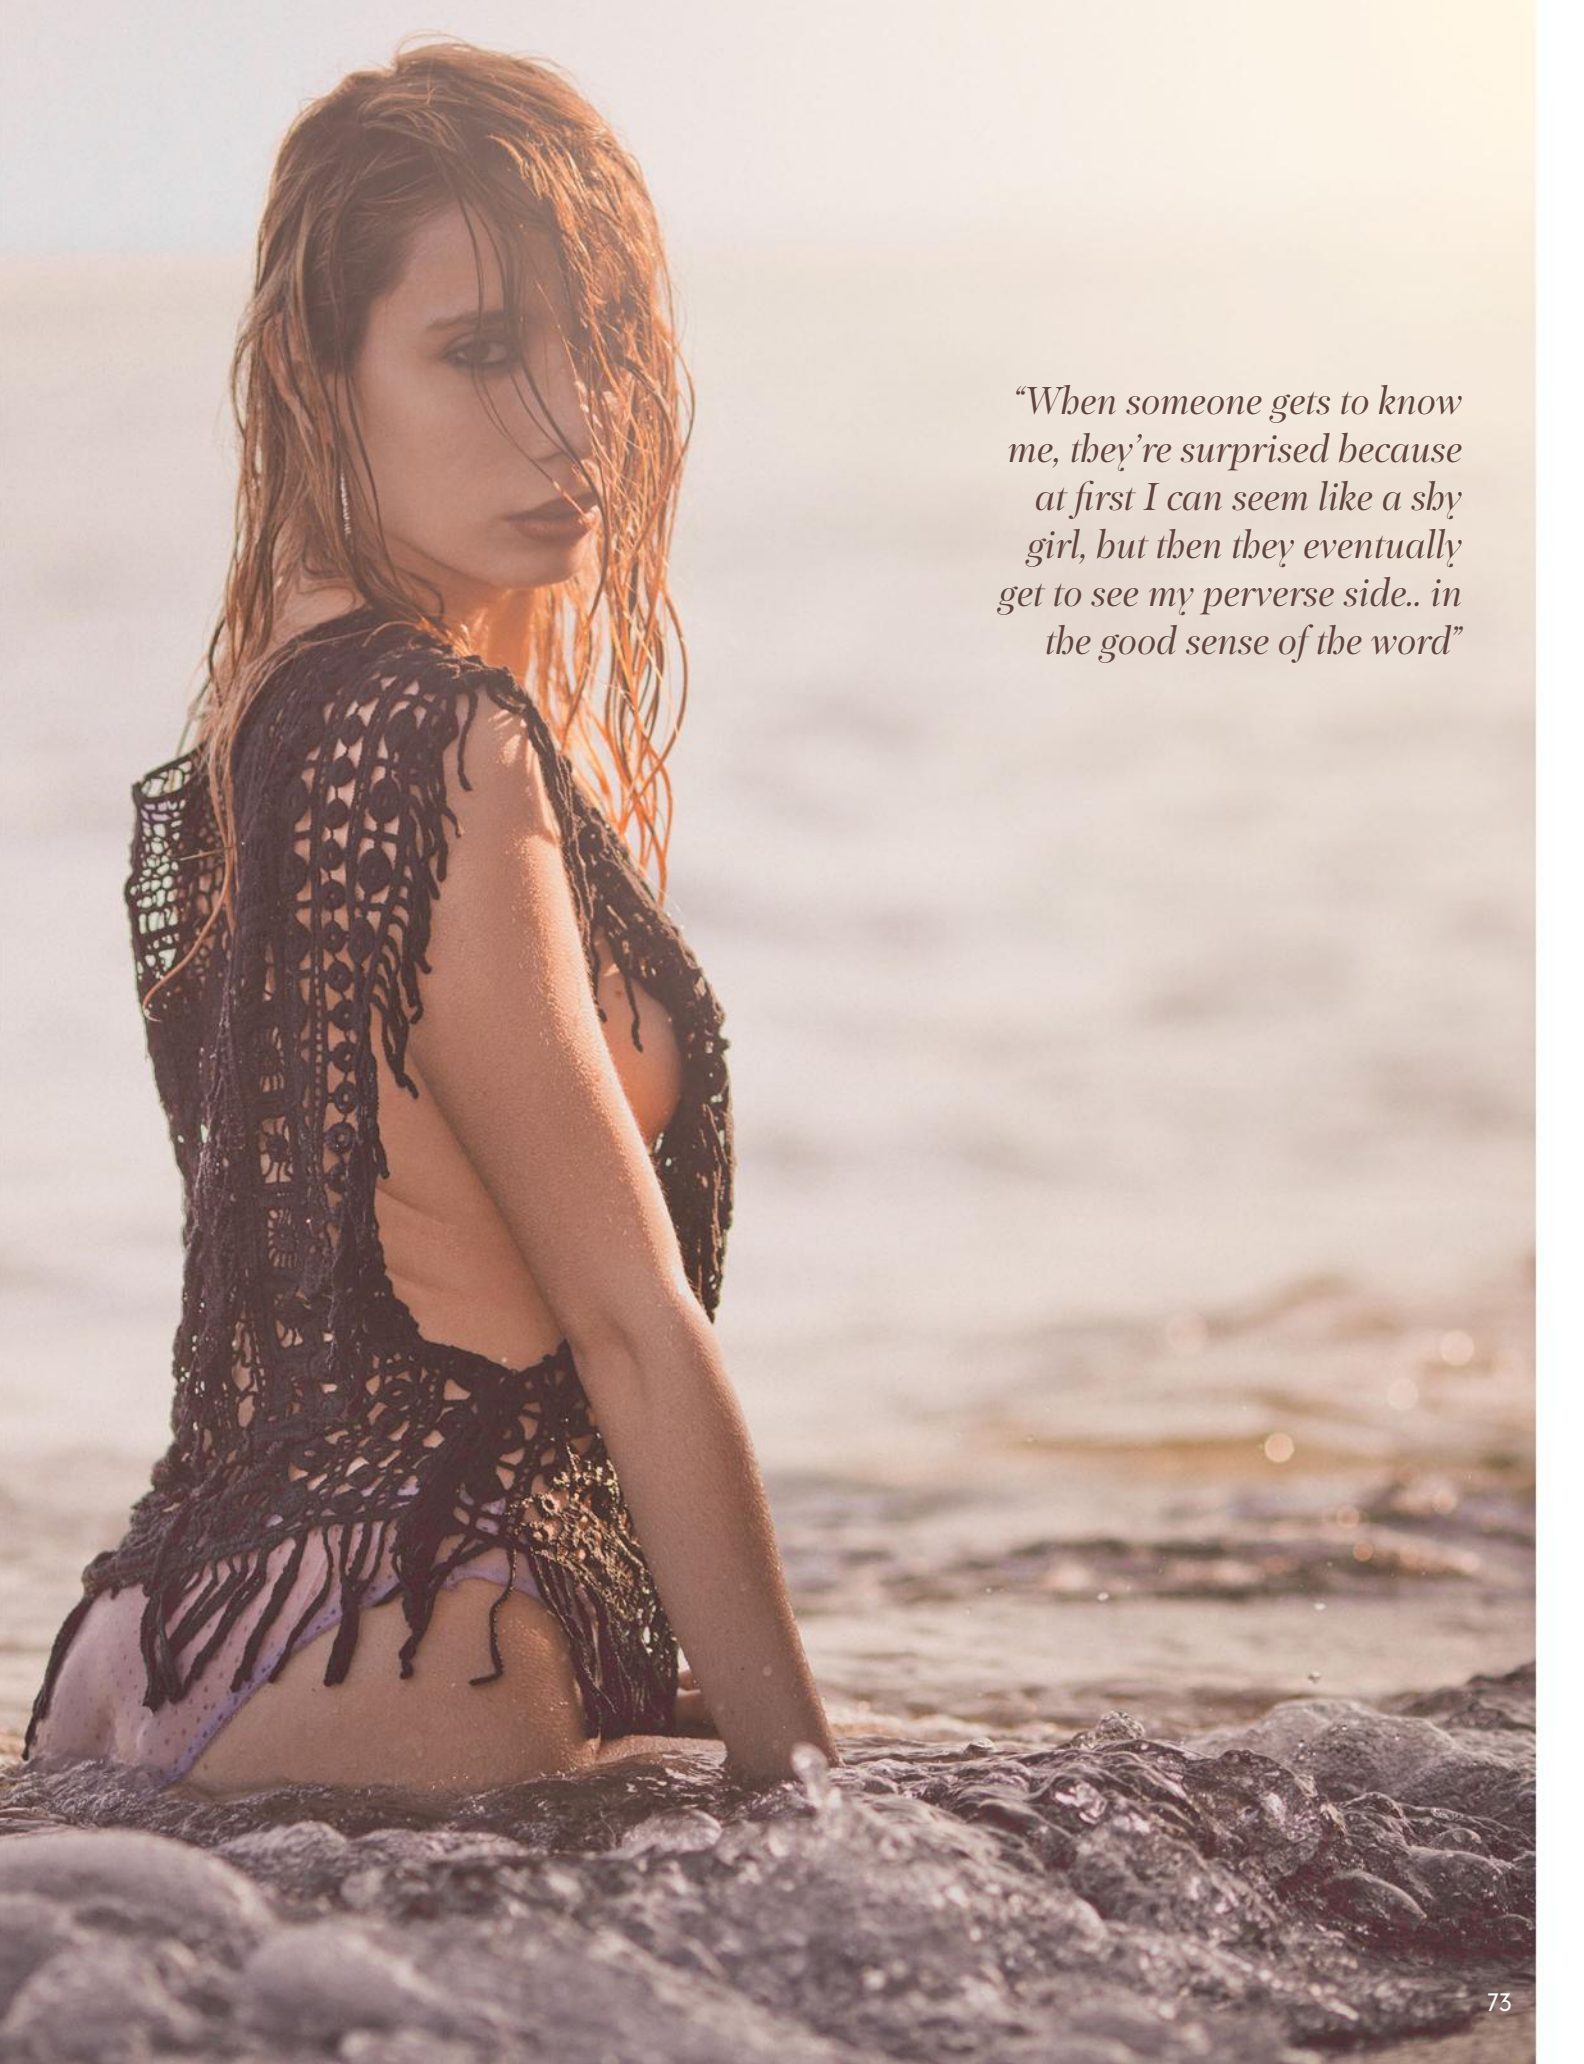

What are some of your interests or hobbies?

I like reading, writing and drawing. Although going to gym helps me to disconnect.

What is your biggest regret in life?

Well sometimes I'm impulsive and I act a little unfairly way towards some people.

*“When someone gets to know me, they’re surprised because at first I can seem like a shy girl, but then they eventually get to see my perverse side.. in the good sense of the word”*

What was your most embarrassing moment?

Once I was playing golf and the pants were very tight. I was wearing thong.. As you can imagine, the boys looked at my ass the whole time!

If you could spend a week anywhere in the world, where would it be?  
New York...or maybe California.

If you could have any job in the world what would it be?

I'm working on my modeling career. I'm feeling good about it these days. This is my dream and I realize that I still have a long road ahead.

Do you have any phobias?

Yes...Spiders!

What are your top 5 favorite movies?

About Time, Insidious, The Lucky One, Prisoners and The Lovely Bones

Who is your favorite Disney princess?

I would be Elsa from Frozen...Ha!

iPhone or Droid?

I've got an android right now...Ha.

Heroes or Villains?

Villains are sexy!

Batman or Superman?

I don't like either of them

Star Wars or Star Trek?

Sorry... I don't like those movies..!

How did you get started with modeling?

I started by myself. My sister took some photos of me on the street and I posted them on Facebook. Some photographers began to contact me, and thought that I had potential. Little by little it all became more serious, and today there are several agencies that want to contact me.

How long have you been a model?

Professionally, 1 year. I've settled down and now I know what I want.

Tell us about your favorite photo shoot:

Difficult question, because I enjoy every photo shoot, so now I don't know what to say. But the main thing for me is to feel comfortable with the style I'm wearing.

What other models do you look up to, stalk or are secretly in love with?

I love Kate Moss. Cara Delevigne is great too.

What would you like to be known for?

It's funny because some people send me messages saying "Hailey Queen, I saw you on the street, OMG!" It's crazy. I have a very clear picture of what I want, and I won't be satisfied with settling. I don't want to be a model in the shadows. I want there to come a time when people know exactly who Hailey Queen is!

Do you kiss on a first date?

Yes...I've done that!

Describe your ideal date...

Where would you go and what would you do?

Cinema and then dinner after would be a nice date. There has to be chemistry, of course!

What is your favorite drink to order on a date?

Sweet drinks, please.

What do you look for in an ideal boyfriend or partner?

I've already got a boyfriend.

Who is your celebrity crush?

Humm...I don't know, but Anne Hathaway is cool. I like her acting.

Are your boobs real?

Yes

Do you ever go out in public without a bra?

Yes...and I love it. Ha!

What do you wear when you want to get attention?

Leather or denim jeans.

How long is your tongue?

My tongue is cool, that's a good answer...Ha!!

What do you get complimented on the most?

Well... people have kind of an obsession with my ass, my eyes and my lips.

What kind of personality do you have?

Hum.. I'm an impulsive girl. But I can be also be peaceful.

What surprises people about you, after they get to know you?

When someone gets to know me, they're surprised because at first I can seem like a shy girl, but then they eventually get to see my perverse side.. in the good sense of the word!

What do you like most about sex?

Adrenaline.

Do you like it rough or sensual?

It depends on how I feel in that moment

Does size matter? What is your personal preference?

The size doesn't matter.

What are your favorite sexual positions?

It's easy to guess. But I won't reveal it..

## Ring in Spring with a Buzz

Let's face it... this winter has been brutal. Record low temperatures and snowfalls incessantly dominated the headlines and made the spring of 2015 seem as unrealistic as a plowed clear street in Boston. But now, unless you are reading this in the southern hemisphere, we can all breathe a sigh of relief and look forward to months of rising temps and hemlines.

As for the cocktail scene, I always welcome the Spring with an array of white spirit refreshers. I love a great bourbon and enjoy a good seasonal nog or toddy as much as anyone but give me a sidewalk café table on a clear springtime afternoon and a crisp, refreshing beverage... well, that's just a \$.50 cab ride from heaven. It's an incredible way to pass the day... it's the bee's knees.

Appropriately enough, there is a classic cocktail that bears that very name that I'd like to look at in this issue, my thirsty readers. The Bee's Knees. This is truly a prohibition era beverage. The expression "that's the bee's knees!" was a term made popular by the flapper crowd of the day, to mean great. Perhaps yesteryear's equivalent to today's "that's the shit!" Honestly, neither the pollen carried in the sacs on the legs of a bee or a pile of excrement make me think of great things but at least the old one rhymes... maybe I'm just a sucker for throwbacks. Furthermore the most popular explanation for the creation of the cocktail is that the strong scent of honey masked the pungent smell of bathtub gin. Possibly true but this 'little' cocktail packs a serious sting and I've never seen anyone stumble across the floor or pass out after too much honey.

## The Bee's Knees

- 2 oz gin (your choice, though I lean towards the ones with more floral notes)
- 1 oz honey syrup (equal parts honey and water shaken until blended)
- ¾ oz fresh squeezed lemon juice
- Shake all hard over ice and strain into a chilled cocktail glass (coupe or martini works best), garnish with a lemon twist or, if you can source it, a small piece of honeycomb

This is a great drink to serve up at cocktail parties. It is simple and yet exotic to most, easy to batch beforehand and just shake at request and it IS springtime in a glass.

To give it that Innocent twist and add an even deeper spring-ish complexity, try this version...

## Innocent Bee's Knees

- 1.5 oz Gin (I use Bulldog for this cocktail)
- .5 oz elderflower liqueur (there are more than a handful available but, by far, the most predominantly available is St. Germain)
- 1 oz honey syrup
- .5 oz fresh lemon juice
- Sugar/lemon pepper for rim (for this, combine 1 part lemon pepper and 2 parts cane sugar together – set aside)
- Shake all hard over ice and strain into a chilled cocktail glass (coupe or martini works best) half rimmed with the sugar lemon pepper mixture (for this, rub the fruit part of a lemon around ½ of the glass and dip into the mixture. Rimming an entire glass is just too damn committal.) Garnish with a small piece of honeycomb... and, yes, you can source it. Just google "edible honeycomb."

That's it! Classy and classic, refreshing yet powerful, unique and delicious, this is the perfect drink to toast the new season and tell Ol' Man Winter to go hibernate, while you enjoy thawing out.

Cheers!

A photograph of a woman's legs in high heels, lying on a bed near a window. The woman is wearing peach-colored high-heeled shoes and a black lace skirt. Her legs are raised and bent, with one foot pointing towards the camera. The background shows a window with a view of greenery outside. The overall tone is soft and intimate.

**On a scale of 1 to 10 how innocent are you?**

(1 being not Innocent at all and 10 being very Innocent)

It all depends on the day and who you ask... let's put me at a 4 :)

**What is your occupation?**

Health care professional

**Where did you attended college?**

Penn State University

**Where did you grow up?**

**What's your best memory of having grown up there?**

Born/raised in Philly then moved with family to the Poconos when I was 10. The neighborhood started to get shitty so my dad took a transfer and we moved about a year later. My whole family other than my parents/brother are still in Philly. I miss the holidays and our weekly family dinners from when I was young.

**What are some of your interests or hobbies?**

I love fitness, and have a few different programs that I follow and do regularly from Men's Health Magazine. I've been featured in a fitness DVD program for MH as well ;)

**What is your biggest regret in life?**

Not being more confident when I was younger and wasting time on shitty friends/boyfriends. I was too nice to too many people

**What was your most embarrassing moment?**

I recently filmed a realty commercial in a multi-million dollar house. I was acting as the "owner" showing the features of the home. Totally bit it down a set of marble stairs in front of the entire production team... I'm \*soooo\* graceful

**If you could spend a week anywhere in the world, where would it be?**

Right now I'm obsessed with Yosemite National Park. I've always wanted to check it out and after seeing it and Bryce Canyon showcased in the SI Swimsuit issue this month. Now I'm yearning even more to check it out. I just want to see the wildlife, geysers and the landscapes.

**What's the best job you've ever had?**

Doing "Spartacus 2.0" with Men's Health Magazine. It was incredibly hard but everyone on set was awesome and I had a blast.

**What's the worst job you've ever had?**

Customer service for a DSL internet company I worked at in college. It was horrible, you're just sitting there with people screaming at you and taking out all their frustrations for whatever the hell happened in their day out on you. I'd pray for the customers to curse so I could justifiably hang up on them.

**What is your favorite color?**

Apparently it's Green. I always thought I didn't have one but I tend to pick up oddball accessories in green. Not just green but like a lime green. My umbrella, travel mug, travel bag, a watch...

**Do you have any phobias?**

I'm terrified of drowning. I freak the hell out and panic when snorkeling. Takes me a good half hour to 45 minutes to relax and enjoy it.

**Who is your favorite Disney princess?**

Ariel!!! I was \*obsessed\* when I was little. Never got into the whole princess thing but I remember going to see Little Mermaid on Thanksgiving and playing the tape (yes, tape) until it broke.

**Who is your favorite James Bond actor?**

Sean Connery!!

**Video or Board Games?**

OK that totally depends. I love both but probably lean towards board games because at least I'll have a fighting chance with them. Give me an old-school Sega and Ms PacMan though and I'll wipe the floor with your ass. Bring it.

**Nike or Adidas?**

Um... Asics. Wear them for work and nothing else... and my Chucks!!!

**iPhone or Droid?**

Please. iPhone. I have Mac errrything so they're all wired and it's wonderful :) :)

**Heroes or Villains?**

Depends but I'm probably more Villains over Heroes. They're just more interesting! And the heroes I love are the complicated, damaged ones. Wolverine, Batman, Magneto and Khan.

**Batman or Superman?**

Batman. He's edgier, menacing and his outfit is a little more badass.

**Star Wars or Star Trek?**

Trek. Sorry.

**How did you get started with modeling?**

Attended a Playboy casting, got the professional photos back (Literally my first photo shoot ever) and then started on Model Mayhem. Kept hitting the pavement from there.

**How long have you been a model?**

7 years

**Tell us about your favorite photo shoot:**

Photo shoots in Cancun for resorts. I've done a few and they're always fun. I just love being in Mexico and getting paid to do it :) )

**What other models do you look up to, stalk or are secretly in love with?**

I really like Jamie Eason. I know she's not necessarily a "model" and she's more of a fitness model or fitness professional but she's amazing and a really positive role model for anyone.

**What would you like to be known for?**

Working my ass off, being kind and humble. I want to show you can work your ass off, be natural, be yourself and be happy.

**Do you kiss on a first date?**

If there's going to be a second, why not ;)

**Describe your ideal date...**

**Where would you go? What would you do?**

Something active!! Hiking or rock climbing (inside, haha) or better yet an arcade. LOVE arcades. I have a problem with competition... O.o

**What do you look for in an ideal boyfriend or partner?**

Confident, kind and FUNNY. (Note: confident isn't cocky. Big difference!)

**Who is your celebrity crush?**

Love Mark Wahlberg (who doesn't) but seriously digging Benedict Cumberbatch

**Are your boobs real?**

Yep ;)

**Do ever go out in public without a bra?**

Yes! Depends on outfit of course, but yes!

**What do you wear when you want to get attention?**

Short dress/skirt and the highest heels...

**What do you get complimented on the most?**

My derriere

**What are your favorite features and body parts?**

I personally like my shoulders, legs and smile.

**What would you change about your body if you could?**

Hands. I use my hands for a living and they look horrible

**How long is your tongue?**

Ha! Long enough to get the job done.

**What kind of personality do you have?**

**How would your friends describe you?**

Shy and quiet until I get to know someone, then some sparks of wild come out...

**What surprises people about you after they get to know you?**

I have a little bit of a resting bitchface... trying to be aware of it and change it. But... It's there and people are usually surprised how nice I am. "I thought you were going to be a huge bitch..."

**What age did you lose your virginity?**

17. Ugh. Waterbed. Enough said.

**What do you like most about sex?**

Letting the other side out, being sexy and bad and just letting it all out.

**What is the craziest place you've had sex?**

Sauna in Jamaica that had just a glass wall. If you walked by you got to see one hell of a show...

**Do you like it rough or sensual?**

Both! They go together. Love a little hair pulling and biting

**What is something that never fails to turn you on?**

Kissing my ass and grabbing my ass at the same time... Oh. My. God.

**Does size matter? What is your personal preference?**

Not really. You could have a huge cock and have no clue really how to use it (Yes... it's more than pumping in and out). I'll take someone who knows how to use whatever they have over size any day.

**What are your favorite sexual positions?**

Cowgirl and Doggy.

**Do you have any favorite toys?**

My Melo!! It's the best \$120 ever spent. Better than shoes any day.

**Do you have any special talents?**

Oral. I have a few special techniques :)

**Do you like oral sex? Giving or Receiving?**

Giving! Like I said... special techniques!

**Do you watch porn? Favorite type?**

Yes of course I watch it. More than people would think. Fav type is probably 3-some, either 2girl/guy or 2guy/girl.
