AQSREA QUEST

\neg How you became a model, how did you experience the first job you did as a model?

I had a bit of history modeling when i was around 12 with family friends who needed models for events. I wanted to know more about models themselves. I grew up dancing from the age of 12 as well as modeling. So being in the limelight isn't that new. After my senior year in school, Harry Connor and I decided to finally shoot. He has been teaching me modeling techniques as well as professionalism. My first shoot with Harry was very exciting. He right away taught me and showed me how to be successful.

 \neg Why did you choose this line: Harry Connor found me an opportunity to make a magazine cover.

¬ Put these factors in order of importance for becoming a successful model: The right looks, hard work, luck

Hard work defiantly because you can't be anything sitting, looking pretty, doing nothing, if you want your dreams reality. Thats why your looks shouldn't always be the easy path of life. your looks can only get you so far. But to be a successful model your looks should be important for what ever you want your name apart of. So I hold handwork and the right looks at the same rate to becoming a successful model. Luck should never be at the top of anyones list to becoming successful. Life is how you make it. You aren't always going to be so lucky.

what's been the best moment of your life ?
Not sure yet. Just excited to experience it .
What would want in the afterlife?
Peace . Tears only from joy.

¬ If not modeling ,what would u hv done ?

Kept trying till I knew for a fact that this wasn't for me. I have always wanted to be 'that girl' on the bulletin board and the magazine cover to the magazine everyone looks at, I wanted to model and experience what models experience. I want to be what I've always wanted to be. My life isn't near over, so if modeling wasn't for me in the end who knows where I would end up. Maybe I could become a famous dancer or a well known in esthetics.

¬ Wild dream .

The dark.

¬ Hidden talent......??

I can can get eye to eye and heart to heart with people who don't open up.

What is the sexiest part of your body ?

I actually think that all of me is sexy. Every curve to my sellouts sexy. This is what I am and nothing on me is not sexy.

¬ Your first kiss ?

A kiss isn't a kiss if u don't feel like it wasn't really a kiss. My first kiss never happened until boys learned how to kiss.

¬ First crush/love ?

I always had a crush or love. Never had a 1st. It was either I thought you were cute or not. So I guess I had a lot of crushes if i thought you were somewhat adorable.

Define LOVE in your words.

Love is so much more than it means. I feel like its close to impossible to explain what love really is if you never experienced true love yourself. Not as in relationship wise but how love is in general. I hear love being defined of how u have certain feelings for this or that or whoever, but to me, love is somewhat found in your soul.

.

REMEMBER BUTTERFLIES IN MY

INNA B-G

JVIVY

Your family background - I was born in Russia in the middle-class Jewish family.

How they help you in modeling career ? - While my family hasn't been overly enthusiastic about me getting into modeling they have never stopped me from doing so and it has already been a big help.

Any special childhood prank or memory – As a child 1 didn't eat a lot candies or bars like Snickers, MilkyWay etc because that stuff hasn't been easily accessible in 90s Russia. The price was pretty steep and when my parents bought a bar we divided it among 5 people. Can you imagine one Snickers Bar divided in 5 pieces? I do haha

Educational qualification – I have a bachelor degree in BA. I also got a diploma from a music school in Russia

How you became a model, how did you experience the first job you did as a model? – I started modeling as a hobby and eventually it became my full-time job. Of course in the beginning I was a complete amateur but step-by-step I gained knowledge and experience.

Why did you choose this line – I just wanted to express myself in an artistic way and I suddenly realized that's really what I enjoy doing. It took me a while to find myself career-wise and I'm glad I was capable to do so. Your inspiration – I would say people. People's ideas, visions, people's vibes...they all inspire me.

Projects you have worked in – I have been featured in magazines, photography books. I also was shot for music videos. I have worked with many talented artists and photographers. **Recent projects** – I'm pretty busy modeling so there is always something going on. After graduation I started travel much more around the country that I like a lot.

Put these factors in order of importance for becoming a successful model: The right looks, hard work, luck – Luck, Hard Work, The Right Looks. I believe that 85% of your success in any artistic industry is luck. To compensate the lack of luck you really need to work hard and be tough and strong enough to accept a rejection you will often experience. I don't believe in right looks. I think it's very subjective and nobody really knows what the right look is at any given point in time.

What's been the best moment of your life ? – There have been quite a few.

What would want in the afterlife? - I'm living NOW

What is the sexiest part of your body ? – Most people would say hips. But I believe it's my neck.

Your first kiss ? It was wonderful. I remember butterflies in my tummy.

First crush/love ? – Of course school haha Nothing new haha

Define LOVE in your words. I believe love is not about words. It's about feelings and actions. It's when you hug a person and feel the warmth and understand that this person is just a part of your life.

Message for youth n freshers in this line ? I believe that people who just started modeling or acting should be ready for a rejection. Sometimes it's tough to handle but it's part of that job. I also wish them to find a healthy way to find inspiration..

Lastly, what do you think of Modelz View Magazine n Modelzview.com ?

I'm just happy to appear on the pages of ModelzView. Thank you very much!

AQSTRA SEXY

How you became a model, how did you experience the first job you did as a model?

I was basically single at the time and during this time. I found that a lot of the male people in my life saw all girls as pieces of meat or objects that are nothing but sex machines! I had also found that the media (social and tabloid) had been slating glamour models that were not celebrities which I found an issue with due to the fact why is it that normal human beings shouldn't be allowed to have pictures of them in underwear but people who are in films or the music industry are! So I thought "fuck it" lets try this out. My first shoot was for my suicide girl hopeful set that was out in April which was for this reason called "fuck it" during this shoot I was really nervous but due to the photographer being amazing, I soon got into it and now I am addicted to the lifestyle.

Why did you choose this line: I feel a lot more comfortable and sexy in a good two piece set of lingerie.

Your inspiration: Lucy Logan, very strong woman with great style and charisma and some of the poses she does made me want to follow in hers and all the other great models footsteps! Projects you have worked in: "fuck it" "karma" Recent projects: the vampire and the slayer. What would you want in the afterlife? Happyness and loved ones

If not modeling, what would you have done? Stayed behind the camera.

What is the sexiest part of your body? Boobs! Define LOVE in your words: feeling of wanting to be with someone forever.
