FEATURED PRODUCTS

KISAI QUASAR SILICONE LED WATCH

KISAI QUASAR SILICONE COMBINES THE SIMPLICITY OF A DIGITAL WATCH WITH A CRYPTIC, GEOMETRICALLY PATTERNED DISPLAY THAT CAMOUFLAGES TIME. HOUSED IN A COMFORTABLE AND LIGHTWEIGHT SILICONE CASE WITH MATCHING STRAP, KISAI QUASAR SILICONE HAS DATE & ALARM MODES, STOP WATCH, ANIMATION AND EL BACKLIGHT.

A Compact & Light Watch Design for Men or Women

Kisai Quasar Silicone is a small watch design that is comfortable to wear for both men and women.

Made from durable silicone with a clean matte finish, the display is housed in a metal case framed by a mineral crystal glass lens. Choose black or white silicone with a blue, red, mirror or green LCD display.

Easy to Read at a Glance - Mysterious to the Uninformed

Kisai Quasar Silicone offers three user-selectable time display modes, explained below. For each mode, you can choose 12 or 24 hour clock.

Number Mode presents the time in regular digits. Pattern Mode camouflages the digits in a web of lines that follow the shape of the numbers. Animation Mode pulsates between these modes creating an eye-catching zoom effect

Adjustable Watch Strap To Suit All Wrist Sizes

Kisai Quasar Silicone has an adjustable strap making it suitable for small and large wrists and uses a standard CR2025 watch battery which will last at least 12 months and can easily be replaced

Each part of Kisai Quasar Silicone has been individually designed and manufactured, including the case, strap and uniquely programmed display.

Like all watches from Tokyoflash Japan it is a limited edition design, meaning that it is guaranteed to be a watch that not many other people own.

KISAI X ACETATE LED WATCH

SHARP LINES OF LED LIGHT SHINING THROUGH THE SMOKED MINERAL CRYSTAL LENS APPEAR TO BE A SECRET CODE. THEY ARE IN FACT REGULAR NUMBERS THAT PRESENT THE DIGITAL TIME IN AN EASY TO READ WAY. INSPIRED BY CRYPTOGRAPHY, THE KISAI X ACETATE WATCH FEATURES TIME, DATE, ALARM AND ANIMATION MODE. CAN YOU DECODE THE TIME?

The Digital Time in a Clever, Uncomplicated Form

The time is read from top to bottom (hours) and left to right (minutes). The four digits of time are stylised in a visually dynamic way. A 12/24 hour time option is programmed into Kisai X Acetate so you can choose the format that suits you best.

Kisai X Acetate Watch, Made from a Light, Deep Gloss Material

One of the most attractive features of Kisai X Acetate is its custom made white acetate case and strap. Available with a blue, green or red LED display, the watch is light and comfortable to wear. The black the smoked mineral crystal lens framed by polished stainless steel offers a sleek contrast.

A Digital Watch Design with Time, Date, Alarm and Animation

As well as time, Kisai X Acetate has date and alarm modes which can be accessed by pressing the lower button. The date is read in the same way as the time from top to bottom (month) and left to right (date).

When animation mode is activated, the display will animate once every 10 minutes between 6pm and midnight. This can be turned on or off in the settings.

A USB Rechargeable Watch for Longer Battery Life

Kisai X Acetate uses a rechargeable battery so you don't need to worry about battery replacement. Just connect to your computer for a few hours to charge and one full charge will last around a month.
