Your family background :

Beside my parents I have a 17 years old sister Kristina. We love and support each other very much. One of the most important people in my life is my long-term 5 year relationship boyfriend, we are not married yet but we want to marry some day.

How they help you in modeling career ?

My parents are very caring and protective people, they first were completely against my modelling career, but that did not stop me lol With time they saw that it is not something bad and that I can handle it well and the situation got better. One day I caught them as they printed out a picture of me of one of my modelling shoots which made me laugh and happy at the same time.

Any special childhood prank or memory :

I grew up with a lot of animals which I absolutely loved, but then my parents and I moved from a house into a flat with no animals at all which I did not like at all. I also did not like to go to school, I was very shy on the inside and did not know what to do with my looks, my confidence was very very low and most my free time I spent alone at home in my room listening to music, watching tv or meeting my best friend. I had never been popular I was always more the silent outsider. Sometimes I was also made fun of because I had to wear big glasses until I got contact lenses and I did not know how to dress myself at all. So I got to know both sides how it is when you get bullied and how it is when you get compliments. Looking back through all the years in my life the bottom line is that you have to be happy and in love with yourself. Don't let any haters bring you down, don't let anyone tell you who you should be or how you should look like. If you do something, then do it for yourself because no matter what you do there will be always someone who tries to put you down. Don't concentrate on that, it would be a waste of time. Surround yourself with people you love and give love back to you, everything else does not really matter.

Educational qualification :

I finished commercial high school with keypoint on marketing.

How you became a model, how did you experience the first job you did as a model?

After finishing high school I had been working as office assistant for over 10 years and also in an advertising agency. On my free weekends I needed something to balance the office work out and so I started to do some photoshoots with photographers whose work I loved. My portfolio developped and I got somehow more and more into it shooting on a regular basis. It is still not my main job, but I do shoot a lot and I want to keep doing it as long as I can because it is my passion and some kind of art to me.

Why did you choose this line ?

I am a very creative person, modelling is to me like to be an actor, you can express with your pictures your emotions and feelings, or you can slip into other roles and be who you want to be, you can fascinate and motivate other people. I love sending positive vibes out and i am very thankful to get positive feedback returned. But I also have to say that modelling is not the only thing that I do. One of my best friends, her name is Nicole, and me write together a beauty/fashion/lifestyle blog, where we review products we purchased and love, and also tell honest what we don't like, we are both into beauty and fashion.

Your inspiration :

Women who are beautiful inside and outside, the outside is fading some day, but your inner beauty will be there forever. If I had to name a celebrity it would be Angelina Jolie . Carli Bybel and Gigi Gorgeous from YouTube are also an inspiration to me. I also love Candice Swanepoel.

Recent projects :

I am currently working out a lot to get in the best shape of my life, doing a lot of shooting projects in summer time, I also want to do another shooting trip to the USA this year. I am also working on getting a small role in a short movie.

Put these factors in order of importance for becoming a successful model: The right looks, hard work, luck

Hard work – luck – the right looks, because maintaining years of a modelling career is really hard work, everyone can have their 15 minutes of fame, but if you want to be successful on longterm where people remember your name is definitely hard work and you have to be flexible. Luck is also an important factor, because it takes some luck to be at the right place at the right time working with the right people to reach your goals. The right look sure is also important, but

I think you don't have to fulfill some beauty standards to be successful, I think it is more about how you present yourself in your pictures and to be authentic, to do what you love.

What's been the best moment of your life ?

There are a lot, but I can remember the first holiday together with my boyfriend when we were in Dubai, having a romantic dinner and beach walk, being 100% happy, perfect moment, I would hashtag it #goals

What would want in the afterlife?

Being reborn as Candice Swanepoel (laughing)

If not modeling, what would u hv done ?

I love working out and painting, maybe a fitness trainer or make up artist.

Wild dream :

Playing in a movie or series. I am obsessed with CSI Las Vegas, I have seen every episode, that would be such a dream to me to be featured in one of them.

Hidden fear :

I am very afraid of spiders, snakes and alligators.

Hidden talent :

I am still searching for that lol

What is the sexiest part of your body ?

I think it is the legs, I get told that a lot.

Define LOVE in your words .

Love is trust, it is kindness, it is honesty, it is hope, it is happiness, it is the biggest power in the world that bring people together. Without love we would be lost.

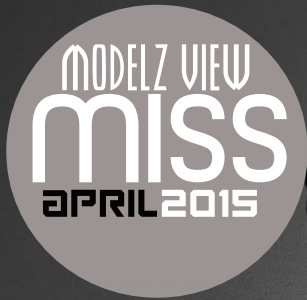

Message for youth n freshers in this line ?

Have respect for yourself, be authentic, do what you love in life, be a kind person, treat others like you want to be treated, set goals and work hard for them and success will come one day.

Q Your family background: Swedish, Danish, Scottish, Norwegian, Irish.

Q How they help you in modeling career? My family isn't involved in my modelling career.

Q Any special childhood prank or memory: I grew up in a neighborhood that was constantly surrounded by new housing construction. I used to think I was so bad, rolling around on my bike with the neighbor kids, taking over the houses after the workers left, stealing left over wood and building tree forts.

Q Educational qualification. I'm a music school drop out. I used to study voice and choral education, but left my college program when I realized it wasn't something I wanted to try to make a living doing. I'm returning to school this fall to pursue a degree in interior design.

Q How you became a model, how did you experience the first job you did as a model? I began modelling out of boredom. I was looking for a creative outlet after I no longer studied music. My first experiences were trade shoots. It was a mixed bag.... Some good, some bad, a lot of hard lessons. I eventually ended up landing local work in Seattle and meeting amazing people who helped me take the next step to becoming a professional.

Q Why did you choose this line? I've always loved anything creative. I've drawn, painted, sang, even tried dancing. Modeling is just another creative outlet, one I happened to fall in love with. I love the process, and I am especially interested in being behind the camera one day as well.

Q Your inspiration: My inspirations are models who've clearly gotten where they are because of relentless hard work. I've also been inspired by several photographers who've helped me along my journey. Those people that really go the extra mile to create something amazing, that you're proud to display in your own home.

Q Projects you have worked in: Most of my work has been small projects in the Seattle area.

Q Recent projects: I've been on a hiatus for almost two years. This will be my first feature of any kind for quite some time. An amazing way to come back into modelling!

Q Put these factors in order of importance for becoming a successful model: The right looks, hard work, luck: Hard work, the right looks, luck.

Q What's been the best moment of your life? I've had so many great moments in my life, it's hard to pick just one. My favorite moments are the small ones, sharing time with the handful of people I care most about doing pretty normal things!

Q What would you want in the afterlife? Peace of mind and spirit.

Q If not modeling ,what would u hv done ? Modeling is only one thing I do! I have always held a variety of interests. I am currently researching and taking small steps towards owning my own home décor business.

Q Wild dream: Singing vocals for EDM tracks.

Q Hidden fear : Stairs. Hate them, I'm prone to falling.

Q Hidden talent: Drawing. I don't do much of it anymore so no one knows I can!

Q What is the sexiest part of your body ? Most people like my butt.

Q Your first kiss ? I was 14 at a highschool football game. It kind of sucked.

Q First crush/love? Lol! I'm not telling.

Q Define LOVE in your words : Can love really be explained? All I know is that it can make you do crazy, unexplainable things for another person and usually doesn't agree with your brain.

8 Message for youth n freshers in this line? Be humble, but know your worth. Keep your word and work hard. Don't rely on looks alone. A long slow climb to the top is better than a fast, short career.

Lastly, what do you think of Modelz View Magazine n Modelzview.com ? I've always loved this magazine, because it's more than just a men's magazine. It's audience also includes a huge part of the glamour modelling community, and it's a high quality, choosy magazine. Q Your family background : My parents are from Holland (hence my nickname Dutchie) and I am one of six siblings.

Q How they help you in modeling career ? My oldest sister has always been so proud and supportive of my accomplishments.

Q Any special childhood prank or memory : When I was as young as 12 years old, I would buy fashion magazines and put pictures of models like Kate Moss and Christy Turlington all over my bedroom walls.

Q Educational qualification : Graduated from high school with honours by age 15, plus, I have completion of some University Courses which I took for personal interest.

Q How you became a model, how did you experience the first job you did as a model? I had a chance encounter with a photographer who was a mutual friend of a good friend of mine and he said that I should model. Next thing I knew, I was traveling the world doing photo shoots with renowned photographers and have been published in multiple publications!

Q Why did you choose this line ? I began modeling the year I was turning 30 years old which is very late in life compared to most models who begin their career in their teens or early twenties. I wanted to challenge myself with something that would completely put me out of my comfort zone. My goal is to be an example to other women who may think their age is standing in the way of trying something new!

Q Your inspiration : I am inspired by all women who face a challenge fearlessly without letting the possibility of failure stand in their way.

Q Projects you have worked in : I have been featured in many print publications modeling swimwear, couture fashion and lingerie. I have also done catalogue and runway, as well as projects through other mediums such as correspondent work, music videos, online web series, film and commercials.

Q Recent projects : I recently worked on a catalogue shoot which was a nice change of pace, as you have to pose in a very specific way so that the reader may envision themselves in the clothing.

Q Put these factors in order of importance for becoming a successful model: The right looks, hard work, luck. Hard work is the number one factor in pursuing anything you want in life. Finding the right clients who want to showcase your specific look is important. Luck can play a role if you happen to meet the right people at the right time, but you can also create this luck through hard work and effective networking.

Q What's been the best moment of your life? I try to find a highlight in every day as opposed to looking back at the past or worrying about the future. Today is all we have, so I try to make each day the best moment!

Q What would want in the afterlife? I don't have a view on the afterlife, as it would drive me crazy thinking about something that I have no certainty of.

Q If not modeling ,what would u hv done ? In addition to modeling, I have a marketing and communications business and I am also a respite provider and volunteer. I try to keep my life multi-faceted so that I never get bored.

Q Wild dream: To move to Holland for a period of time and experience the culture of my parents and ancestors.

Q Hidden fear : Like most people, I have a fear of failure, by I try to channel this fear into motivation to work harder.

Q Hidden talent : I don't think I am that great at it, but I can sing and have recorded a few songs.

Q What is the sexiest part of your body ? My eyes

Q Your first kiss ? With a boy who ended up being my first boyfriend when I was 14 years old.

Q First crush/love ? I think my first crush was on Jonathan Taylor Thomas!

Q Define LOVE in your words . Love is when someone knows everything about you – good and bad – and doesn't use it against you.

Q Message for youth n freshers in this line ?

Know your worth! Once you are confident in the work you can produce, make sure you are being compensated and don't work for free. Of course, there will be projects that you will want to work on for the sake of the art and for your own personal interest, but when it comes to jobs, don't undervalue your time.

Lastly, what do you think of Modelz View Magazine n Modelzview.com ? What I love about ModelzView Magazine is that they publish such a range of models who all have very different looks.

Where are you from, and how would you describe your life growing up?

I was born and raised in Varna, Bulgaria, but moved to USA when I was 20 years old. When I was a little girl I was very shy ... Not anymore ;)

How did you find your way in front of a camera, modeling?

My mom took me to my first photoshoot when I was 14. I was extremely excited and little nervous, but when I started shooting felt normal to me like I knew what I was doing.

What do you like best about being a model?

I love shooting glamour style it's my favorite make me feel extremely sexy and confident and I just love the final product and even better when I see my pictures published in magazines.

Besides modeling what is the most important thing in your life?

I do I have so much going on sometimes it's hard to balance everything but somehow I do. Right now my main focus is on my new swimsuit company. With the upcoming summer 2015 we r getting ready for our big photoshoot.

Do you have any unusual talents?

Talents, not really, but I know 3 languages.

We all need support in life. Where do you get your support? What or who inspires you?

My husband is the one supporting me 100% in everything and makes things easier.

What do you think is the most challenging thing about modeling and what advice would you give to new models?

I would say be YOU don't try to act like somebody else. Everyone has their own uniqueness show it and also don't trust a lot of people.

What is your favorite way to relax?

I like to pamper myself with massages or doing girly things like mani and pedi.

What do you do for fun?

I try to go on little vacations even somewhere not too far but when I come back home I feel recharged.

You look amazing. What do you recommend for those wanting to keep in shape?

The hardest thing in the world, lol! I try to be good most of the time, not eat anything after 7pm and no bread and of course cardio and cross fit classes.

What would you consider your sexiest, strongest attribute? What do guys compliment you most on?

My nose lol, no seriously, I get so many compliments that, and my teeth.

What do you think is the sexiest thing about a man?

His personality, of course looks too, but personality is everything.

PHOTOGRAPHER : JAIME MORTON-HAWLEY

Anything about your heritage, ethnicity, or nationality that you feel people would like to know?

The Bulgarian yogurt is the best yogurt in the world. Bulgaria is the origin of the Cyrillic alphabet and the oldest golden treasure in the world was discovered in Varna.

Please share something about yourself that may surprise others. What is the most adventurous thing you have ever done?

Moving to another country at 20 years old without knowing the language or anybody here was kinda adventures.

Guys want to kno, what do you normally sleep in?

I like to be comfy when I go to bed so either shorts and a t-shirt or just the shirt if it's summer time.

What are your dreams and goals and ambitions?

I want to continue modeling as long as I can it's so much fun and also my main focus right now is my swimsuit company.
