Where are you from, and how would you describe your life growing up?

I am from Smithers BC, Canada. My life growing up there was never a dull moment. I am the oldest out of 4, so you could imagine we were quite a handful for our parents.

How did you find your way in front of a camera, modeling?

Since I was young, I always enjoyed getting my picture taken. I would see the girls that were in magazines and admire their beauty. I never thought one day I would be one of those girls. My first professional shoot in a big city was with Joel Flora when I went to LA. It was my first time out of Canada and boy was I excited. Our set was published and since then things have really taken off. I have been published in various magazines and hold international titles. I am so thankful for all these amazing opportunities that have come my way.

What do you like best about being a model?

I love to get all dolled up. Normally I am a sneakers, jeans and t-shirt kind of girl so it is definitely a lot of fun to play with hair and makeup and of course heels. Another thing I love about being a model is that I get to create a unique piece of art. By being a model I hope to be a positive influence on others and inspire others to get out there and pursue what they are passionate about because you never know what could happen!

Besides modeling what is the most important thing in your life? Do you have any unusual talents?

The most important things in life to have is happiness, love, and positivity. With those you can achieve anything you want to. I really don't have any unusual talents but I can cook!

We all need support in life. Where do you get your support? What or who inspires you?

I get my support from my friends, family and my fiancé. I couldn't be more thankful for the people I have in my life. A lot of things inspire me. My

.....grandmother would be a person who inspires me greatly because she is so strong and wise with a heart of gold. She is an amazing lady. Certain situations I have been faced with have inspired me and taught me to love more and take more time to enjoy life and what it has to offer.

What do you think is the most challenging thing about modeling and what advice would you give to new models?

The most challenging thing about modelling is getting in touch with the right people and getting the right start. My advice to new models is to never give up. If you want it, don't stop at anything. You will get there.

What is your favorite way to relax? What do you do for fun?

My favourite way to relax is to do my nails, listen to music, long hot baths and meditate. I like to be outdoors, thats where I find comfort and relaxation. Things I do for fun include camping, road trips, long drives with coffee and good company.

You look amazing. What do you recommend for those wanting to keep in shape?

A good skin care routine is very important. And of course being healthy on the inside will promote good health on the outside. I love coconut water and lemon water. Staying hydrated is key. Also I don't eat junk food and try to work out when I have time.

What would you consider your sexiest, strongest attribute? What do guys compliment you most on?

I think my eyes are one of my stronger attributes. I get so many compliments on my eyes.

What do you think is the sexiest thing about a man?

Good hygiene, sense of humour, smart, knows how to have fun

Anything about your heritage, ethnicity, or nationality that you feel people would like to know?

I am Scottish and Norwegian on my moms side and Ukrainian and German on my dads side. I was born and raised in Canada.

Guys want to know, what do you normally sleep in?

Well because its been so darn hot out lately I think its safe to say that I don't wear a whole lot of clothing to bed :)

What are your dreams and goals and ambitions?

I want to inspire others to be their very best and to achieve their goals no matter what people say. I want to keep succeeding in the modelling world, , travel more. I also want to get my nail technician course because I love making people look and feel their best.

If you were in a magical machine that could transport you to any place and time imaginable, where would you love to be? Why?

I would go to the 1800's era. There is just something about that time that draws me in. Whenever I see paintings from that era I feel like I have been there.

Are you a naughty girl, or a nice girl :) ?

Haha well that all depends. :)

Please share a guilty pleasure with us. Your naughtiest fantasy?

My guilty pleasure is Hello Kitty. I love Hello Kitty so much, if I could my whole bedroom would be Hello Kitty. As for naughty fantasy... sex on the beach would be nice but i really feel like sand would be a terrible issue LOL so i'll just keep that a fantasy.

What's one thing about yourself that everyone should know?

I am a shy and awkward person and people often mistake that for me being a bitch. I'm really not a mean person... just an awkward girl sometimes.

Do you have any favorite quotes that you would like to share?

- How we survive is what makes us who we are
- All you need is love.
- Two things prevent us from happiness; living in the past and observing others
- Things that happen in your life are either a lesson or a blessing

What does being published in this Modelz View magazine mean to you?

I am so happy to be published in Modelz View! This is my second time being published. This magazine always features gorgeous girls and I am really happy to be a part of that.

Your family background ?

I was raised by my amazing independent single mother and loving older sister. I now have a big extended family consisting of four step sisters and one step brother.

How they help you in modeling career ?

my mom originally signed me up to take modeling classes at a local talent agency in Hawaii called Susan Page. After modeling classes I was asked to sign with them and my family has always just encouraged and supported my choice of modeling.

Educational qualification ?

I have my BA degree in psychology- specializing in child developmental psychology.

Your inspiration ?

A lot of things inspire me, culture, art, and fashion. Put these factors in order of importance for becoming a successful model: The right looks, hard work, luck.

1.) Hard work 2.) Luck 3.) The Rights Looks

If not modeling, what would u have done ?

Something that involves traveling around the world, maybe would have been an archeologist and tried to find historical artifacts hoping to discover something new.

Wild dream ?

To live in a native self-sufficient community, sort of like avatar where everyone is spiritual and connected to the land, and believe everyone has a special role in their existence and then pass on when it's their time. And I'm the princess of the tribe, and a great ruler, leader, and person amongst the people.

Hidden fear :

Living a dull black and white life with no color.

Hidden talent :

I used to be a gymnast and I can still do flips- I can still do a double-full on trampoline.

Message for youth n freshers in this line ?

Don't give up on your dreams if you aspire to model. There is no one certain way you need to look, act, or be. Always be yourself, be true to who you want to be. Love yourself inside and out.

MICHELLE WU JULY 2015 Photography : DcKetcham Photography

Your family background ?

I grew up in a small town and went to Catholic school my elementary years and high school years. I always played sports and my family has been their to support every decisions I have ever made.

How they help you in modeling career ?

My dad is actually the one who saw the opportunity for my first modeling gig. My mother went with me to the shoot and has supported me from here on out.

Educational qualification :

I am currently in my undergraduate studies and will receive my Bachelors of Science in Health Sciences with a focus on Pre-Med. I will then continue onto medical school.

How you became a model, how did you experience the first job you did as a model?

I have always loved the camera and messed around with it just goofing off and taking shots. Next thing you know I find an open model shoot for a magazine and that is where it all began. I am into motorcycle modeling and that has been my main focus, however I am starting to branch out and do other shoots as well.

Why did you choose this line ?

I am branching out and trying new things. I am still new in the field and I am always looking for chances to branch out and become known.

Your inspiration ?

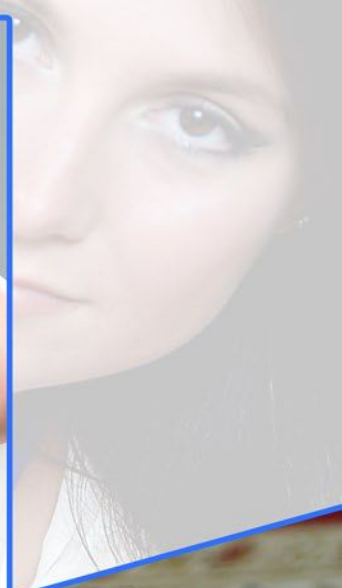

My inspiration is my Grandma. Even though she passed while I was young I learned valuable traits from her that I will cherish for the rest of my life.

Projects you have worked in ?

I have done work for Thunder Roads Ohio, went down to Daytona Bike week to model as well as work bike shows. I do mostly promotional modeling for the motorcycle industry.

- Recent projects :

I did a photoshoot at the Piston Power show in Cleveland. I was working the event and then as the day went on got pulled aside to do some modeling with a bike that has traveled the country winning awards.

Photography by Michelle Wu July 2015

Put these factors in order of importance for becoming a successful model: The right looks, hard work, luck :

hard work, the right looks and luck

What's been the best moment of your life ?

Best moment of my life was my senior year of high school when I was accepted into The Ohio State University from there on I grew academically and am striving to be the best I can be.

What would you want in the afterlife?

I want tranquility. A nice big yard around one hundred acres or so. A decent sized log cabin home with a front pond and back lake. I would like mostly wooded with about twenty acres of rolling grass. I want to be at peace with nature and just enjoy the like that has been given to us.

If not modeling ,what would you have done ?

Besides modeling I also am a foreman for a landscaping company. Landscaping is my summer job and then while I am in school I find something else to do that is flexible with my school schedule. Modeling has been flexible with my school schedule. If modeling wasn't there for me I would still continue on my school path, achieving my goals of becoming a doctor.

Hidden fear :

I absolutely hate snakes and basically any reptile as soon as I see a little snake I run.

What is the sexiest part of your body ?

I would say my legs and my smile .

Your first kiss ?

It was that cute little love at five years old, he went in for the kiss and I didn't expect it.

First crush/love ?

I had the typical high school sweetheart through most of my high school career.

Define LOVE in your words ?

Love is not only an emotion for someone but it involves not being selfish; you must be selfless. There is a time or place for dealing all about you and a time and place for showing the one you care for that they are your world. Being in love meanings not only do you have feelings for the person, but they are an additive to your life. They bring something to the table, they make you a better person.

Message for youth n freshers in this line ?

Just because you get told no once, doesn't make this the end of the world. Keep striving, the world is full of road blocks and you are here to overcome them. I live by the quote "
